Message from the President

The Rotaract Club of University of Moratuwa has a proud history of 22 years. Since its inception in 1995 as the first institute-based Rotaract Club in Rotaract District 3220, Rotaract Mora has been changing lives of many while making a difference in the community. Rotaract Mora has been able to ignite the passion in its members to serve the community thus producing individual that have made an impact in the society. When I took office as the 22nd President of the Rotaract Club of University of Moratuwa the club was recognized as one of the most prominent, strongest and vibrant clubs of rotaract district 3220 due to the commitment and

dedication of my predecessors and the past board of officials and members. Hence, I did not have to do much but continue the great journey the club has come so far.

The next chapter of Rotaract Mora started off with the theme 'Roots Evoking Spring' for the year 2017/2018 with the intentions of making a difference in the society and changing the lives of people. To further strengthen the club, we expanded the membership from 228 to 250 members. We planned to have a continuous momentum throughout the year, through organizing projects in different scales and sizes. By creating the platform for the members to develop themselves and to provide them with the opportunity to serve the community, we believed that we could not only sustain a strong membership but also attract new blood to the family of Rotaract.

We, Rotaract Mora, believe that the projects carried out must have a long lasting impact. With that vision, we concentrated our resources on planning sustainable initiatives and carrying out already implemented projects in a sustainable manner. Apart from that, we also recognize the importance of our members. Therefore, we always focus on the bond between the members and the club and the bonds among members. We believe that these relationships are the key to carrying out successful projects throughout the year. The friendship among the members is vital for the sustenance of the club.

This year we conducted at least one signature project for each avenue. 'CAST 4' in Club Service, 'Are You Ready?' in Professional Development, 'Ceylon Safari' and 'LinkR' in International Services, 'Grama Prabodhaya' and 'Hand in Hand' in Community Service and 'Zooxanthallae' in Environment avenue. Apart from that I am happy to announce that we had new initiatives such as Ceylon Safari, Gold Chasers, Reflectia and Leaf of Friendship. Both Ceylon Safari and Leaf of Friendship were inspired by the Rotaract district 3220 theme 'Engage Rotaract Redefine Friendship'.

The official blog of the Rotaract Club of University of Moratuwa has been revived with a new look, new thought and a new hope. Throughout the year more than 40 articles were published through the blog featuring different kinds of projects and general thoughts of members of the club.

Apart from the signature projects, creating teams to self-empower, self-organize and selfmanage was one of the key considerations for this year. Through self-governed small teams, we were able to simultaneously organize multiple projects at a large scale. Each and every member had a considerable contribution in decision making, project execution and planning. Another key component in our strategy was to have a perfected PR plan running parallel to projects, thereby increasing the impact by promoting the work in an efficient and effective manner. Strategy was implemented in a tailor-made manner which catered each project in a unique way. The strength of the club is the active and vibrant membership while the steering wheel is the board of directors. We identified the importance of educating and empowering the directors to make better decisions, to inculcate good leadership skills and most importantly to perceive the vision of the club. Review meetings were conducted constantly with the avenue directors and the top board, to have in-depth discussions where we brainstormed on ideas and exclusively analyzed the performance of past projects. This way we improved the decision-making process by providing useful insights and tactical strategies to overcome any obstacles faced by the committee. In addition to the novel concepts to empower our members, we ensured that the club members enjoyed projects in all avenues. This year we went one step ahead and participated in almost all the club events organized by the District and the other Rotaract Clubs. Our relationship with the Rotaract District and Rotary District were strengthened by actively engaging in their projects and involving them in our own. Rotaract Mora is proud to have been one of the hosting clubs of the Annual Rotaract District Conference this year. Rotaract Mora also hosted the District Council Meeting for the month of January.

Our club had many opportunities to network with the leaders in the corporate world and to strengthen the ties with them. Projects such as 'Apprentice' and 'Inspico' were projects that provided the platform for our members to connect, learn and get inspired by the best. 'Are You Ready?' our signature project, continued to grow and deliver, catering 700 undergraduates and more than 60 companies this year. In addition to the notable undertakings, the club went beyond boundaries to serve the community in need. The impact of the community service projects done this year is remarkable as we successfully completed projects at different locations addressing different aspects.

Being a leading club to focus on the green concept, we continued to increase awareness and bring out practical approaches to build a greener environment. Zooxanthallae and Green Legacy are two of our main projects focused on green economy. With the aim to help the National Cancer Hospital to renovate the infrastructure which can provide a better facility to the patients and to donate critical medical supplies which was a dire need at the moment, we continued the concept of "Hand in Hand" which was brought back in the previous year. As an addition, we conducted a workshop for parents of the patients named as "Hope" with the aim of motivating them. A massive fundraiser was done by selling Christmas and Vesak cards to the public and the total amount raised for the project was 1.8 million rupees. This is the maximum amount of money which has been raised in the history of Rotaract Mora.

While enjoying the fellowship, developing the skills of members and serving the community we also undertook projects to harness the international relationship with our Rotaract Community. This years initiative, 'Ceylon Safari' by far stands as the best International Service project conducted by Rotaract Mora. We also strengthened the relationship with the Rotaract Club of Nicosia, Cyprus by signing a twin club agreement.

In our journey, many were there to support us, to help us and to guide us. Without them our year would not have been successful.

Many Rotarians deserve our thanks for their help in continuing to support our activities and providing us opportunities to grow stronger. I would like to extend my sincere gratitude to the President of the Rotary Club of Colombo West, Rtn. Chamath Kulasinghe and his entire board of directors; especially the Secretary of Rotary Club of Colombo West, Rtn. Brian Selvanayagam and Youth Service Chair, Rtn. Anisha Dharmadasa and the District Governor Venerable Rtn. Bandagiriye Somawansa Thero for the amazing support rendered throughout the year. Gratitude also goes out to our Vice Chancellor Prof. Kapila Perera, Deputy Vice

ROTARACT CLUB OF UNIVERSITY OF MORATUWA

Chancellor and the University Administration for the unconditional support in assisting and guiding us in our journey. It would be a remiss if I did not mention the tremendous support from our very own senior treasurer and staff advisor Dr. Ranga Rodrigo. His support in all the endeavours drove the club to greater heights. I would like to further extend my gratitude for the District Rotaract Representative Rtr. PP. Anuradha Senanayake and her team for the continuous guidance throughout the year. Thank you all for your support! I am excited to see the strength of our club, which can undertake any world-class project to serve the community and to bring out a positive change to the world. I am positive that this club can and will witness many more outstanding projects in the future and shine as one of the most vibrant Rotaract Clubs in the region. To the outgoing board, thank you for your tremendous commitment and dedication over the year to undertake challenging tasks and contributing their maximum to Rotaract Mora. It was a pleasure and a great privilege to have been part of this club.

Rtr. Rashan Wickremaratne
President 2017/2018
Rotaract Club of University of Moratuwa

Message from the Secretary

Rotaract Club of University of Moratuwa was initiated as the first ever institute based Rotaract Club in Sri Lanka in the year 1995. The journey which began with 16 members has inspired many young individuals throughout the years and has now become the club with the highest turnover in the university with over 250 active members from all four faculties. Chartered under Rotaract District 3220, the club is sponsored by the Rotary Club of Colombo West.

Throughout the journey of 21 glorious years, Rotaract Mora

has instigated many sustainable projects which served the society in many ways and dozens of these projects have been recognized both locally & globally for their significant impact. With the hope of setting the bars even higher we, the board of directors for the year 2017/18 began our journey under the leadership of President Rtr. Rashan Wickremaratne with the theme 'Roots Evoking Spring' back in July 2017. During the course of the year we were able to successfully execute the annual signature projects while initiating new sustainable projects.

Being one of the most crucial avenues, the avenue of Club Service plays a major role in membership retention and member recruitment while focusing on enhancing fellowship. The avenue of Club Service started off its work by organizing the project 'Empower '17' even before the commencement of the Installation Ceremony with the hope of enhancing the leadership skills of the members. The Rotaract Award Ceremony was organized along with the Handing over General Meeting where the most dedicated members of the club were applauded for their Spirit of Service. The next major project in the avenue of Club Service was the 22nd Installation Ceremony where President Rtr. Rashan Wickremaratne and his board of directors were officially introduced to the movement while some of the members who helped uplifting the legacy of the club were identified and appreciated.

CAST 4 being the signature Club Service project of Rotaract Mora consisted of several sub projects including the 'Theme Reveal', 'IQ Master', 'Refraction', 'eSports' & 'Campfire' which were some of the most awaited projects in the calendar. Many prospective members joined the club during the series of CAST 4 projects who then joined the projects of all the avenues and the bonds and friendships between the members were redefined through this project. The Orientation Ceremony inspired many young individuals of the batch that recently entered the university and these newbies were carefully guided to ensure that they retain in the movement as active members in the years to come.

While doing a service for the society we also ensure personality development of all the members of the club and the university. 'Are You Ready?' being the signature project in the avenue of Professional Development reached the highest peak this year with a recorded maximum number of interview panels and the highest revenue generated throughout the history of Are You Ready. 700 final year undergraduates faced interviews in over 130 interview panels from over 60 esteemed organizations and over 1800 undergraduates took part in the preparatory sessions and on the flagship day. The workforce of Are You Ready exceeded 250 which included non-Rotaractors who willingly volunteered making it a great entrance for their Rotaract journeys. All the undergraduates who participated in the sessions, the organizing committee and the members of Rotaract Mora, University and the Employers were greatly benefitted through this project.

Inspico & Apprentice are two main projects that were initiated with the aim of familiarizing the Rotaractors with the corporate sector. Several sessions were conducted during the year which helped the members get an insight about the industry. Mora Medics was a novel concept to Rotaract Mora where a two day first aid training program was conducted with the help of St. John's Brigade which was an aspect that was untouched in the previous years. Gold Chasers is an inspiring new initiative where the main focus is to bring fame and reputation to Sri Lanka in the International Physics Olympiad Arena. The project consists of two phases where the Sri Lankan Physics Team will be given the most effective and possible training focusing on the Asian Physics Olympiad Competition and the International Physics Olympiad Competition separately.

The award winning project Grama Prabodhaya continued to serve the village of Ranugalla in a wider scale this year. The project consisted of two sub projects namely Edify and Manudam Pawura. 5 sub projects were executed under Edify ensuring that quality education is provided to all the students of the Ranugalla Kanishta Vidyalaya while Manudam Pawura focused on women empowerment and providing carrier opportunities to the villagers.

Hand in Hand being the main fundraiser of Rotaract Mora marked another historical milestone by raising over 1.8 Million this year with the sales of Christmas and vesak cards, stickers and hand in hand t shirts and also thanks to the generous contributions of many individuals. The funds were donated for the betterment of the child cancer patients at Apeksha Hospital Maharagama. Several joint projects were carried out in the avenue of Community Service, serving the society while strengthening the bonds between our fellow Rotaractors.

Project Ceylon Safari was a turning point in the avenue of International Service where 6 foreign Rotaractors were hosted by Rotaract Mora for a period of two weeks. They were given the opportunity to explore natural beauty and historical value of Sri Lanka while we strengthened international relationships and cross cultural understanding. The portal LinkR was upgraded this year to add more features in order to provide a better experience for the Rotaractors.

Project Zooxanthellae is in the verge of completion where all the necessary steps were taken and the deposition event which had to be postponed due to adverse weather conditions will take place as soon as the weather conditions become favourable. Strengthening the Regional Engagement, project Leaf of Friendship was jointly organized by the Rotaract Club of University of Moratuwa together with the Rotaract Club of Nallur Heritage where we visited Jaffna during the 1st phase and they were invited to Colombo in the 2st phase.

The PR initiatives Captura and Reflectia were able to inspire many Rotaractors while appreciating their hidden talents. The blog of Rotaract Mora became the voice that reached out to the world showcasing the services we have done throughout the year.

Now that we have reached the end of another Rotaract year, it is with immense pleasure that I, as the secretary for the year 2017/18, state that we have successfully completed 33 projects including the annual signature projects as well as several new initiatives while breaking boundaries and marking new milestones. We have successfully widened our networks and redefined many friendships as the year theme suggested. It has never been an easy journey but together we have accomplished many achievements while creating lifelong memories.

Membership Strategy

a. Induction Process

Orientation Ceremony, CAST 4 – Refraction are some of the main Club Service projects where Rotaract Club of University of Moratuwa is being introduced to the fresh batch of undergraduates and non Rotaractors. Any prospective member is given the opportunity to take part in any project they like. Although many members join the club through different projects they are inducted after observing their dedication during a probationary period. The members who have continuously served the club during that period are inducted during a General Meeting or an Induction Ceremony.

b. Termination Process

Each year one batch graduates and leaves the University and the Rotaract Club. The members who graduate within the year and the identified inactive members are being terminated and removed from the club register.

Since both induction and termination processes takes place at a similar rate the membership of the club remains close to 230-250.

Club Representation

Despite the tight academic schedule of the Rotaractors of Rotaract Club of University of Moratuwa, we have tried our best to take part in every District and Club Event possible ensuring that a healthy network is built and maintained among our fellow Rotaractors. The clubs representation was significant at the Rotaract District Assembly 2017, Rotaract Golden Jubilee Celebrations and in the Rotaract District Conference 2018 where prospective members too joined willingly.

Nearly 200 Rotarians, Rotaractors as well as Interactors witnessed the installation of the incoming President Rtr. Rashan Wickremaratne and his Board of Directors for the year 2017/18.

Empower

Date: 21st July 2017

Venue: New TLM Auditorium, University of Moratuwa

Chairpersons: Rtr. Chamin Kahandawaarachchi, Rtr. Sithmi Lawanga

Inspiring the participants to conquer their aspirations and discover their true potential as a leader, Empower was an interactive leadership training session for the newly inducted Rotaractors of Rotaract Mora. The facilitator of the session was Rtr. Krishan Balaji, President of Rotaract Club of Colombo Uptown, who thoroughly engaged with the undergraduates to bring out the leader inside them and encouraged them to think out of the box in finding solutions. Conducted right towards the beginning of the Rotaract year, the session successfully exceeded the prime objective of inculcating the soft skills of teamwork, overcoming obstacles and creative thinking within the fresh Rotaractors.

Orientation

Date: 26th September 2017

Venue: New TLM Auditorium, University of Moratuwa

Chairperson: Rtr. Ramitha Perera

The target audience being the fresh batch of undergraduates who walked their way in to University of Moratuwa, the Orientation programme was intended to give the newcomers an insight into the Rotaract movement and what it can give them. The lineup, being not only informative but also enjoyable, included our very own Past President Rtr. Amitha Bandara Dissanayake, Director (Professional Development) for RID 3220, inspiring the newbies to join Rotaract and feel the difference it can bring about in their routined lives, as well as many fun and interactive activities intended to build team spirit and enhance fellowship amongst the new generation. Exceeding the expected number participants, more than 210 undergraduates turned up, and this was seen by all experienced members of the club as the highest degree of participation for an orientation programme in the recent past.

CAST 4

CAST4, short for "Four Collaborate Avenue Service Teams", being the signature project in the avenue of Club Service for Rotaract Mora, plays a significant role in bringing together the vast membership which nears 250. The prime objectives of this project are strengthening the bond between the Rotaractors as well as providing equal opportunity for personality and leadership skill development of the members which is a hard-to-achieve platform via other projects.

At the beginning of the Rotaract year, the whole member base was divided into 4 teams, and throughout the year various tasks and challenges were assigned, based on the performances of which points were allocated for the teams. Assigning of members to teams was done on a random basis so as to avoid the teams consisting of gangs of close friends. This year, CAST4 took up a new competitive air along with the theme for the year, "Game of Thrones", where the members engaged in friendly battles in the teams Baratheon, Lannister, Stark and Targaryen. The project, which started from the Theme Reveal and ran through IQ Master, Refraction and E-sports up to the final battle at the Campfire, gave the Rotaractors not only many sweet memories to cherish a lifetime, but also a whole set of peers to stick with through thick and thin.

ANNUAL REPORT

CAST 4's main focus is fellowship. It plays a significant role in bringing together the vast membership which nears 250. The prime objectives of this project are strengthening the bond between the Rotaractors as well as providing equal opportunity for personality and leadership skill development of the members which is a hard-to-achieve platform via other projects. The members of Rotaract Mora gets the opportunity to interact with members from different faculties, departments and batches. Thus ensuring that the new bonds are formed between the members while the bonds existed are made stronger.

Theme Reveal

Date: 13th September 2017

Venue: Ground floor of New Classroom Building, University of Moratuwa

Chairpersons: Rtr. Chathura Senevirathne, Rtr. Oshada Jayasinghe

Signifying the commencement of the battle among the four casts, the revelation of this year's theme for CAST4 was celebrated in a splendid fashion with the participation of many enthusiastic Rotaractors. As the house flags swayed glamorously in the four corners of the hall, each and every Rotaractor took the chance to sit on the Iron Throne which divided them into teams and determined their fate for the next eight months. The initial set of challenges under CAST4 were put forth before the teams, which included a human chess game, a round of "Cross the River" and a quiz to test the knowledge of the teams about the theme, "Game of Thrones". All throughout the event, the Rotaractors were seen to be mingling and getting along with each other while making new friends, soaring the aspirations of the organizers up high.

IQ Master

Date: 18th February 2018

Venue: Civil Auditorium, University of Moratuwa

Chairpersons: Rtr. Naveen Avishka, Rtr. Thamala Munasinghe

The unparalleled cognitive contest of the year, IQ Master, took up a whole new face this year with the competition being opened for undergraduates, Rotaractors as well as school children to be fighting for one championship. As the fate of the day rocked back and forth amongst fierce battles of wisdom and creativity, IQ Master was instrumental in proving that it is not only books and theories that win all the time but one's logical and analytical thinking matters too. 15 teams representing universities, Rotaract Clubs and schools took part in this historical event. Winners were rewarded with cash prizes while the CAST4 teams were also rewarded with extra points based on their participation for IQ Master as informed to them earlier.

Refraction

Date: 24th February 2018

Venue: University of Moratuwa premises

Chairpersons: Rtr. Sachitha Bandara, Rtr. Vimukthi Tharaka

The basic shape of Refraction is a treasure hunt, where the participants are provided with various astonishing yet amazing clues to find the hidden treasures that could gain their house the ultimate victory. Along the way towards reaching the final treasure, the teams have to complete various tasks put forth by the organizers. Being one of the most anticipated events under CAST4, Refraction serves as a major contributor to attracting newbies to the club as well as enhance fellowship amongst the existing members. Over 70 Rotaractors were seen to be enthusiastically engaged in this year's Refraction. The day's proceedings concluded successfully leaving with everyone precious memories for life.

E-Sports

Date: 13th of May 2018

Grama Prabodhaya

Chairpersons: Rtr. Hasitha Prashan, Rtr. Matheesha Abeysekara

Grama Prabodhaya – "In Pursuit of their Dreams" is an effort and a dream of Rotaract Mora to develop rural villages of Sri Lanka. At the commencement of the project "Ranugalla" village of Monaragala District was chosen and a three year plan was developed to uplift the lives of the villagers. Without just stopping by one village, through "Grama Prabodhaya" we intend to reach the entire country by lending a helping hand to the villagers and communities that need our support the most. Surpassing all projects carried out by over 8000 worldwide Rotaract Clubs in 167 countries, "Grama Prabodhaya" was adjudged as the "Single Club International Winner" in year 2016/17 Rotaract Outstanding Project Awards by Rotary International, which was won for the first time by a Sri Lankan Rotaract Club. "Grama Prabodhaya" had the same vision as Handz, the award winning project in 2012, but with higher and enhanced expectations. Therefore, Rotaract Mora kept the first step of initiating this vision into a reality in the month of July, 2016 with a group of 10 high potential Rotaractors, as a project in the Community Service Avenue.

"Grama Prabodhaya" is not yet another community service project with the concept of material donation, but a collective effort to develop a village comprehensively in many aspects to uplift the quality of life of the villagers. Grama Prabodhaya is executed under several phases which include tailor made mini projects addressing the key issues prevailing in the village. The ultimate intention of executing this series of projects focused around a rural village is to develop the village in multiple aspects and to help them sustain a better quality life. Along with the project Grama Prabodhaya, it intend to cater the aspects such as upholding standards of basic education and literacy, infrastructure, sports and library, enhancing mentality and motivation of students in the village, creating opportunities for self employment, and women empowerment and to enhance the productivity of female workplace etc. from the complimentary mini projects attached to it. The main focus of the steering committee of Grama Prabodhaya was to build and strengthen the connections with the village through the temple and the school where a higher crowd attraction is available. Hence, it was much easier to build confidence and trust among the villagers about Rotaract Mora and thereby acquire their incessant support and engagement for the project. This project was introduced not only for developing the selected village but also to help the Rotaractors to enhance the bond among each other and illuminate the image of Rotaract Mora. We thoroughly believe the fact that the projects of this caliber will provide ample opportunities for the blossoming undergraduates to sharpen their soft skills and moulding them into greater personalities.

The most significant step taken towards enhancing the effectiveness of the initiative is that the project committee took suggestions out of the ministry of education about the requirements in school prior to reaching out for the school "Illuminate '18" would be executed as a series of weekly sessions from May to November 2018. The first two sessions were held on 30th of May and 7th of June 2018 at Boralesgamuwa Central College, Boralesgamuwa.

The driving motive behind this initiative was to create an online social networking platform exclusively for Rotaractors, where they can express themselves and share pages off of their books of life at Rotaract.

The first two phases, including the official launch, having been successfully executed in the Rotaract years 2015/16 and 2016/17, this year, LinkR embarked upon its 3rd phase, sticking to its principal objective of providing the stage for Rotaractors of any Rotaract club to register under their respective clubs and showcase their projects under a set of predefined categories in accordance with the avenues of service that Rotaract is engaged in.

LinkR, maintained and powered by Rotaract Club of University of Moratuwa, is a Platform as a Service (PaaS), which has been designed in such a way that it becomes a self driven platform once all the DRRs have been verified by the system. Blending in with the districts focus on innovation in terms of Digital communication

This platform was developed from scratch, with the back end communication being done using PHP through the Laravel framework and the front end being developed with Angular-JS. The LinkR server is hosted on DigitalOcean VPS.

PROFESSIONAL DEVELOPMENT

Message from the Professional Development Theme

The avenue of Professional Development was able to meet a number of milestones during the Rotaract year 2017/18. The team had several projects planned for the year, namely: Inspico, Apprentice, Are You Ready? and Mora Medics. The main aim of the PD avenue is to sharpen the professional skills and mould the attitudes of undergraduates, to help them perform well in the corporate world outside the university.

Like in the beginning of all good things, we had exciting plans with signature projects and interesting initiatives. But the challenge was to clearly define our scope and finish the year off setting the bar even higher. In our humble opinion, I believe we did just that.

This year, "Are You Ready? 2017" marked its massive success with up to 700 final year undergraduates facing interviews in more than 130 interview panels from over 60 esteemed organizations, which is the recorded maximum number of panels throughout the history of "Are You Ready?". We could organize 6 field visits under the project "Inspico", which is a higher number compared with past years, and all of them were fruitful and we received positive feedback from many participants. "Mora Medics" was a new event to the Rotaract Mora calendar; which was a two day workshop on first-aid techniques. We received more than expected registrations for the workshop and had to increase the number of seats as well. We have hopes on continuing this initiative in coming years as well.

All in all, it was one eventful year, with a lot of goals achieved and compromises taken. Some of the new ideas got lost in their initial discussions. Most importantly, we understood what are our strengths as individuals, and how to utilize them properly to move forward strong as a movement.

When appointing the chairpersons for a project they were clearly instructed on the PR aspects and were advices to select a strong PR Team. Its impact was clearly visible at the signature projects of all 4 avenues.

In order to increase participation & public awareness, different social media platforms were used throughout the year. Two main platforms were facebook and whatsapp. Introductory flyers, videos, events pages and all other relevant details were shared through facebook while all the flyers and relevant descriptions were shared in whatsapp groups and through whatsapp statuses.

Instagram & Twitter too became some of the most efficient ways to reach the members. Being a club with a membership of 250 it is not an easy task to keep each and every member updated on all the projects and events and that it when these platforms came into play. The Rotaract Mora email group and the facebook groups for separate batches of the university were utilized to inform the members about the General Meetings and other important events.
