MESSAGE FROM THE PRESIDENT

Rtr. Hiruni Perera
President 2024-25

"Greatness is not measured by what we have achieved alone, but by the lives we've touched, the hope we've restored, and the dreams we've dared to inspire."

With a heart full of gratitude and pride, I pen this message as I conclude my tenure as the President of the Rotaract Club of University of Moratuwa for the Rotaract year 2024–25. Serving in this role has been not only an honor but one of the most transformative experiences of my life, a journey rich in purpose, growth, resilience, and unity.

As we bring this remarkable year to a close, I find myself overwhelmed with emotion and reflection. What a year it has been! One that pushed our boundaries, sparked bold ideas, and ignited within us a deeper sense of commitment to the world around us. A year that proved again and again that when compassionate, driven individuals come together under a shared vision, the possibilities are endless.

Our chosen theme this year, **"Serve Today, Inspire Tomorrow",** was not just a motto, but a promise, one we made to every life we encountered, every community we reached, and every member we empowered. This guiding light carried us through more than 120 diverse and impactful projects, including sub projects and collaborative projects, each rooted in empathy, driven by innovation, and powered by the boundless spirit of Rotaractors.

Through our community service initiatives, we touched the lives of underprivileged families, empowered schools in need, and developed unprivileged villages with long-term, people-centric solutions. We tackled social challenges not just with sympathy, but with strategy and sustainability. Our passion extended to environmental causes as well, where we actively advocated for sustainable living and protected natural ecosystems, from our oceans to our green spaces.

In the professional development area, we focused on nurturing the holistic growth of our members. From highly impactful workshops and industry-oriented speaker sessions to mentorship platforms and career development programs, we

created opportunities that bridged the gap between university life and the real world. It was deeply fulfilling to witness our members grow into confident, socially responsible young professionals and leaders.

Beyond projects and progress, the heart of this journey lay in the people, the family we built within our club. Through club service activities and member fellowships, we shared countless moments of joy, support, and celebration. It was in these moments that our friendships deepened, our trust strengthened, and our motivation flourished. The laughter, respect, and unity we shared became the true fuel behind every successful initiative.

Our reach extended beyond borders as well. We proudly strengthened international ties, collaborated with Rotaract clubs across the globe, engaged in cross-cultural initiatives, and embraced the spirit of global citizenship. These experiences reminded us that service knows no boundaries, it is a universal language spoken through compassion and action.

In an age driven by digital presence, we harnessed the power of technology and storytelling to amplify our voice through innovative digital campaigns and creative public image efforts. Every project was given a platform, every volunteer a voice, and every impact a spotlight.

One of the crowning achievements of this year was witnessing Project Zooxanthellae and Project Are You Ready rise to international acclaim, earning prestigious recognition from SEARIC MDIO and ROAR.

These honors go far beyond mere awards — they are a reflection of our club's unwavering commitment to innovation, excellence, and purposeful service.

None of this would have been possible without the incredible individuals who stood beside me. Thank you to my Executive Committee, Board of Directors, and our ever dedicated general members. You were the beating heart of this journey. Your perseverance, innovation, and camaraderie turned aspirations into achievements. To our esteemed advisors, beloved alumni, dedicated university staff, the ever-supportive Rotary family, generous sponsors, and kind well-wishers, your unwavering belief in me and in our vision, your constant encouragement, and your invaluable guidance have illuminated our path at every step. I am deeply and sincerely grateful for your presence throughout this journey.

This year showed me that real leadership isn't about having a title, it's about serving others, listening with understanding, helping people grow, and moving forward with confidence even when things are uncertain. The challenges we faced, whether they were practical, social, or personal, only brought us closer together and made our purpose even stronger.

As I pass the torch to the incoming leadership, I do so with profound pride and unwavering confidence. Our foundation is solid, our vision is vibrant, and our spirit is unstoppable. What I and my team leave behind is not just a record of projects, but a legacy of compassion, collaboration, and a culture of service that will continue to ripple through time.

Thank you to everyone who walked this journey with me. You transformed this year into a symphony of purpose and heart. You made it unforgettable.

Let us carry this spirit forward - To serve with humility. To lead with courage. To dream without limits.

Viva la Rotaract!

With boundless love and gratitude,

Rtr. Hiruni Praveesha
President 2024–25
Rotaract Club of University of Moratuwa

MESSAGE FROM THE SECRETARY

Rtr. Brinstan Peries
Secretary 2024-25

With a heart full of gratitude, I am truly honored to pen this message as the Secretary of the Rotaract Club of University of Moratuwa for the Rotary International Year 2024–25. Being entrusted with this role has been a transformative journey filled with learning, laughter, challenge, and purpose. As I reflect on the year that has passed, I'm overwhelmed not just by the accomplishments we've achieved, but by the bonds we've built, the lives we've touched, and the legacy we continue to strengthen.

Since its founding in 1995 with just 16 passionate individuals, Rotaract Mora has grown into a dynamic movement of over 350 spirited members. Through more than 70 projects and 40,000+ volunteer hours annually, we have consistently upheld our legacy of innovation, leadership, and heartfelt service. This year, inspired by our club theme "Serving Today, Inspiring Tomorrow," we turned our energy toward lasting impact by serving communities, empowering individuals, and building the foundations for a better future. Our 30 meaningful partnerships amplified this vision, helping us bridge ambition with action, and dreams with deliverables.

Among the many moments that defined our year, a few projects stood tall as beacons of purpose. Binara Padura, under the Club Service was more than an event. It was a celebration of tradition, talent, and unity, drawing over a thousand attendees, it ignited our university with rhythm, color, and a sense of community. It reminded us that joy is also a form of service since it is a way of connecting hearts beyond words.

Our Community Service Avenue's impact was not just a goal, but it was a responsibility. Grama Prabodhaya emerged as a landmark initiative, uplifting the rural villages of Kirimatiyawa and Ambanpola through healthcare, education, and clean water. With meticulous research, site visits, and deep empathy, we implemented solutions like Senehe Yathra, through which we provided vital nutrition to mothers in need, and Aqua Safe, which installed an RO system to ensure access to safe drinking water. Our commitment to these communities extended into career

guidance, astronomy camps, and educational support, driven by the belief that real change comes from holistic empowerment.

Another unforgettable initiative was Hand in Hand, which united Rotaractors, students, and medical professionals to bring healing, awareness, and joy to cancer patients across the country. From island wide fundraising to immersive hospital visits and educational campaigns, this project became a symbol of resilience and compassion, proving that simple acts of kindness can move mountains.

Beyond borders, our International Service Avenue brought the world closer to us. The flagship project, RMMUN which consisted of the sub project SLRMUN, created a platform where over 130 delegates debated and designed solutions for global issues, empowering youth with the tools of diplomacy, critical thinking, and empathy. The project wasn't just a conference, it was the birth of future changemakers.

Our Professional Development Avenue equipped our university's youth with tools for life beyond the classroom. Are You Ready? 2025, our signature career guidance initiative, transformed potential into possibility through mentorship, training, and a massive career fair that connected over 800 students with 45 industry giants. Emerging initiatives like Agora Link shone a spotlight on student entrepreneurs, proving that innovation isn't confined to labs or boardrooms, and that it basically begins from anywhere, with a spark of an idea and the courage to try.

In service to the planet, our Environmental Service Avenue gave its all to protect the beauty we so often take for granted. At its core was Zooxanthellae, a marine conservation project that directly restored coral reefs in Mirissa. By training divers, raising awareness, and breathing life into underwater ecosystems, this initiative underscored our role as stewards of nature. The project didn't just protect biodiversity, it took several initiatives to revive hope for a fragile ecosystem.

The Sports & Special Services Avenue reminded us that movement is also a form of connection. With Swim or Sink, we were able to equip students with life-saving swimming skills which will be handy in several situations while also providing an opportunity to engage in one of the enjoyable and most healthy leisure activities. Moreover, through the spectacular Mora Rugby Carnival, we brought together athleticism, camaraderie, and spirited celebration, proving that sport is a language everyone speaks with energy, laughter, and mutual respect.

The silent force behind much of our success was our Digital Services Avenue. The avenue's standout projects Devthon 2.0 and Mora TechConnect showcased how digital innovation can drive social change. Through hands-on coding competitions, online learning, and community driven development, these projects harnessed technology not just as a tool, but as a bridge to progress. Devthon 2.0 in particular became a launchpad for young developers to shine, solve real-world problems, and redefine what's possible.

Meanwhile, the Public Relations and Editorial teams worked tirelessly behind the scenes to make our stories visible, while also expressing our values, and making our identity felt, one beautifully crafted post, caption, and campaign at a time. The efforts were more than just communication, it was storytelling with soul, through the chronicles that were shared on our journey.

This message would be incomplete without acknowledging the power of our partnerships. Collaborating with 30 external partners, we turned bold ideas into tangible change. These partnerships weren't merely logistical. They were mutual investments in a shared dream of service, innovation, and collective upliftment.

As I continue to reflect on this extraordinary year, I am filled with immense joy at the international recognitions our club has received. These accolades have not only honored our projects, but they have elevated Rotaract Mora as a pioneering force in District 3220 and on the global Rotaract stage. These achievements stand as a testament to the excellence, consistency, and innovation that defines our club.

Our 124 projects this year were not the work of a few individuals. They were the result of a collective heartbeat, a commitment shared by 351 passionate Rotaractors, who gave their time, skills, and energy to make a difference. I offer my heartfelt appreciation to each and every one of you for your commendable service to Rotaract Mora. You are indeed the soul of this club, and the reason we continue to rise over the years.

I extend my heartfelt thanks to Rtr. Hiruni Perera, our beloved President, for the extraordinary leadership you have shown throughout this year. Your vision and compassion set the tone for all that we have accomplished. I am humbled beyond words to have served as the Secretary of this esteemed club for the RI Year 2024-25, and I remain deeply grateful for the opportunity to be a part of this journey we experienced.

I also appreciate our talented and energetic Board members for your silent strength, tireless work, and unwavering dedication which has been the quiet force behind every success. You led with humility and served with grace, while going the extra mile to make a positive impact on the club.

I now extend my sincere thanks to the heart and heartbeat of Rotaract Mora. The successful year we just completed would not have been possible if not for our esteemed member. I would like to take this opportunity to extend my heartfelt appreciation to each member of our club for all the hard work and commitment extended toward the club and most importantly the wider community.

Finally, I thank all our Partners, Donors, and all the other individuals who played an instrumental part in ensuring that Rotaract Mora strived and continued its excellent service during the RI Year 2024-25. Your contributions made our impact stronger, deeper, and more enduring.

This past year, we served with purpose and inspired those around us, staying true to the spirit of Rotaract Mora. As we close this chapter and look ahead, may we carry forward the spirit of 'Serving Today, Inspiring Tomorrow', knowing that every act of service today is a promise of hope for the generations to come.

Warm Regards,
Rtr. Brinstan Peries

INTRODUCTION TO THE CLUB

With over 350 passionate members and more than 100 impactful projects completed annually, contributing over 40,000 volunteer hours, the Rotaract Club of University of Moratuwa continues to stand as a beacon of youth driven change and service.

This year, under the tagline "**Serving Today, Inspiring Tomorrow**," we focused not only on creating immediate impact but also on laying the foundation for a brighter, more sustainable future. From grassroots community outreach to tech powered solutions, every initiative was driven by purpose, passion, and the belief that what we do today can inspire generations to come.

Guided by our commitment and strengthened by unity, we introduced transformative new projects while enhancing existing ones ensuring our service leaves a lasting legacy. This year was not just about action, it was about inspiration turning service into a spark that lights the way forward.

SERVING TODAY, INSPIRING TOMORROW

CLUB OVERVIEW

At Rotaract Mora, our mission is to empower our members with the opportunity to create a meaningful and lasting impact in the community.

Year after year, despite facing unique challenges, we have successfully executed a diverse array of impactful and innovative projects across all our areas of focus - Community Service, Professional Development, Club Service, International Service, Environmental Service, Membership Development, and Sports & Special Services.

What sets us apart is the unwavering commitment and creativity of our members, whose efforts have been consistently recognized with accolades both domestically and internationally.

More than just a club, we are a vibrant, close family that brings together youth from diverse walks of life. This unity has fostered a culture of excellence, enabling us to reach new heights and continuously drive change through passion, purpose, and service.
We are Rotaract Mora where leadership, fellowship, and service come together to build a better tomorrow.

Rotaract
University of Moratuwa

CLUB HISTORY

The Inception of the Club

We take pride in being the first institute-based Rotaract Club in Sri Lanka, established in 1995 with just 16 passionate members. Our heartfelt gratitude goes out to Rtr. Past President Thushan Wijesinghe of the Rotaract Club of Colombo West, whose dedication and guidance were instrumental in the formation of Rotaract Mora.

Presentations

1st Project

The first project undertaken by Rotaract Mora focused on empowering undergraduates by helping them familiarize themselves with the corporate world — a visionary step towards bridging the gap between academia and industry.

Charter Presentation Ceremony

The club charter of Rotaract Mora was officially handed over by District Governor Rtr. Ranjith Samarasinghe to Charter President Rtr. Nishan Weerasooriya, in the esteemed presence of Vice-Chancellor Prof. G.T.F. De Silva and Rtn. Asoka Jayasinghe, President of the Rotary Club of Colombo West.

MANAGEMENT

OFFICIALS

DR. RANGA RODRIGO

Senior Treasurer and Staff Advisor,
Senior Lecturer,
Department of Electronic and Telecommunication Engineering,
University of Moratuwa.

MEETINGS STRUCTURE

Date and Time

The club had monthly Board and General meetings as part of its usual routine. In certain months, special Board meetings were also scheduled to address specific needs. These sessions were scheduled around ongoing project operations and academic calendars, guaranteeing convenient timing for all participants. Meeting dates were finalized after taking into account the majority's availability, facilitating broad participation and effective decision making.

Venue

The meeting platform was chosen depending on the availability of the club members. This year, the club witnessed a mix of both physical and virtual meetings taking place. During examination periods, meetings were held online to enhance member enagement. Members should be commended for their enthusiasm in returning to meetings. To improve communication, the Digital Communications Team maintained a Google Calendar in which project meeting bookings for the club's Zoom account were made on a first-come, first-served basis by the Board of Officials, ensuring no scheduling conflicts. When organising physical meetings, sites were chosen based on member convenience, the sort of meeting, and the venue's capacity to accommodate all attendees.

Meeting Invitations

After determining the date, time, and location of Board Meetings, the Secretary sent calendar invites to the Board of Officials' official email group using Google Calendar. The group also received the previous session's meeting minutes. Messages and reminders were sent to the board members via the WhatsApp group. Once the specifics of the General Meeting were established, the Secretary, Club Services Avenue, or Membership Development Avenue sent out formal invitations and agendas to the invitees. Invitation flyers were constantly circulated on Facebook and WhatsApp groups set up for each university intake group in the run-up to the General Meetings.

The Staff Advisor and any special invitees received the invitation via email well in advance, along with all pertinent details. The club's Inducted Members WhatsApp Group was used to distribute invitations, meeting details, and registration links. A few days before the meeting, the Secretary distributed the minutes of the previous General Meeting to all members.

Excuses

To facilitate proper record keeping, members were instructed to send their advance absence excuses via email to the President, with the Secretary copied, clearly stating the reason for their absence. The Secretary then tabled these excuses at the beginning of each meeting, ensuring that all absences were duly acknowledged and accounted for.

SPECIAL ELEMENTS TO MEETINGS

Speeches

During the General Meetings, the club included speakers to improve the general atmosphere. These speeches were mostly presented by prominent guests or the President, providing inspiration and insight to the audience. Guest speakers frequently contributed their skills, experiences, or motivating messages, which expanded the members' knowledge and passion.

Avenue Updates

Avenue reports were a significant part of the General Meetings. This enabled each Avenue in the club to submit updates on their current projects, activities, and accomplishments. Members got the opportunity to learn about each Avenue's success and discuss future goals and collaborations.

Entertainment Items

The introduction of entertainment items in the General Meetings brightened the proceedings, revealing our members' hidden talents and different qualities. These entertainment events featured a variety of intriguing performances, including music, dance, poetry, and comedy, all of which contributed to a festive mood.

Ice Breakers

This year, enjoyable activities were planned with prizes for winners to add even more excitement to the physical meetings. The activities let members unwind after a demanding day and brought a pleasant mood to meetings. To bring life to the virtual meetings, engaging aspects such as exciting dancing and singing performances, interactive Kahoot quizzes, and other fun portions were easily integrated. These changes seek to create a fun environment, encourage active involvement, and make virtual events more engaging and memorable.

SPECIAL MEETINGS

District Governor's Official Visit

The District Governor's Official Visit was conducted on September 18th, 2024, and served as a significant event for the Rotaract Clubs sponsored by the Rotary Club of Colombo West. During this visit, the Presidents of the five Rotaract Clubs had the opportunity to present their plans for the current year. Each President shared their club's vision, goals, and initiatives, highlighting their dedication and enthusiasm towards serving the community.

District Rotaract Representative (DRR) Visit

District Rotaract Representative (DRR) Visit for the RI year 2024-25 was held on the 5th of May. The event was graced by esteemed members of the District Steering Committee: District Rotaract Representative, PHF Rtr. PP Shanel Mendis, Assistant District Rotaract Representative, Rtr. PP Gajaba Senaratne, and Joint Director - Professional Development, Rtr. IPP Yasiru Athugaldura. The proceeding was held at the Creative Software premises, marking the first fully physical DRR visit since the Covid Pandemic. This physical setup provided the members full exposure to an interactive session with the District Steering Committee representatives, while receive guidance for the continuation of activities during the current RI year.

Assistant District Rotaract Representative (ADRR) Visit

The visit of the Assistant District Rotaract Representative was scheduled and conducted as a board meeting on the 24th of November, 2023 via Google Meet, with ADDR Rtr. PP Gajaba Senaratne and Guide Club Coordinator, Rtr. IPP Tharushi Kuruppu in attendance. During the meeting, the ADDR addressed any inquiries related to the District Rotaract Representative (DRR) Visit and provided valuable suggestions for enhancing future endeavours. Furthermore, the ADDR expressed appreciation for the club's current achievements and progress, recognizing the dedicated efforts of its members

Induction Ceremonies

In line with the General Meetings held in October, February, and May, three induction ceremonies were held. These ceremonies served as a platform to formally welcome new members into the club, and a total of 64 individuals were inducted during these occasions. As a token of recognition, each inducted member received a certificate. The induction ceremonies were honoured by the presence of esteemed special guests.

Rotary Family Meeting

The Rotaract Clubs of the Colombo West Rotary family, including Rotaract Club of Alumni of University of Moratuwa, Rotaract Club of American National College, Rotaract Club of Colombo West, and Rotaract Club of National School of Business, collaborated for a joint general meeting which held on April 29th, 2025, at ANC Education. The event was filled with a joyful spirit of fellowship, lively entertainment, and festive fun as members from different clubs came together to celebrate the fellowship, strengthening bonds, and creating lasting memories.

REPORTING

Monthly Reports

From July 2024 to May 2025, monthly reports were prepared and submitted to the District Officials by the 10th of the following month through the Rotaract Management Information System (RMIS). It is noteworthy that every single report was submitted punctually, showcasing our commitment to timeliness and organizational excellence.

Project Reports

Throughout the year, project reports held utmost importance as they captured the essence of unseen projects through descriptive words. Consequently, detailed reports were diligently submitted by the 30th of the subsequent month upon project completion, using the RMIS (except for February, when the deadline was the 28th). Importantly, all reports were submitted punctually, meeting the designated deadlines.

During the report submission process, utmost attention was paid to, ensuring comprehensive coverage of every aspect of the project, leaving no details overlooked. The reports provided thorough elaboration on the Sustainable Development Goals and Rotary Focus Areas that were addressed. Volunteer hours were accurately calculated, fairly attributing the contributions of each individual. The objectives and outcomes of the projects were well documented. Both project planning and public relations planning aspects were described in detail. Overall, the reports were crafted to do justice to the respective project, covering all activities undertaken and offering well analyzed suggestions for improvement.

CLUB MEMBERSHIP 2024-2025

MEMBERSHIP STRATEGY

A strong, engaged, and dynamic membership base is the backbone of our club's impact. For the Rotary International Year 2024–25, our membership strategy focused on enhancing inclusivity, fostering skill development, and nurturing a sense of community among all members. Building on the successes of the past year, we prioritized not just numbers, but also the quality, enthusiasm, and commitment of our members.

Our primary emphasis for the year was on maintaining and further strengthening the Digitized Membership Database using advanced tools like the Chairperson Tracker and Committee Details Collection forms, alongside our signature Membership Tracking platform, LinkR. These tools allowed us to evaluate members' contributions transparently and ensure fair opportunities across all faculties.

One of our standout achievements was the increased participation of undergraduates from all faculties, reinforcing the club's inclusive spirit and creating an environment where everyone had a chance to shine. We also recognized that membership is about more than just numbers. It's about building a community and fostering connections.

This year's general meetings and signature events reflected this philosophy by featuring fun games and interactive activities that encouraged members to bond outside of project work. This sense of camaraderie has become a hallmark of our club, and it has been crucial in both attracting new members and retaining talented Rotaractors.

Our flagship membership development initiative, "Rota Spark," underwent a significant revamp to better cater to the needs of incoming members. Incorporating feedback from previous years, we made targeted adjustments to introduce Rotaract's key components more effectively to the 24th batch of freshers. The project featured engaging activities and an updated orientation structure that not only informed but inspired new members to actively participate and grow within the club.

In addition, we successfully organized "Rota Novatos – The NDT Orientation" for the incoming batch of the Institute of Technology, University of Moratuwa (ITUM). By leveraging our membership data, we ensured that members were given equal opportunities to pursue their interests while maintaining high standards of contribution and participation.

Utilized Membership Strategy

- Ensure fair and inclusive opportunities for every member of the club, while acknowledging their contributions over the course of the year.
- Promote a diverse membership while prioritising the value and effectiveness of members rather than sheer numbers.
- Cultivate a sustainable base of members for the upcoming year.
- Revitalize the Orientation program by assessing its overall influence on the club.
- Creating unique experiences that extend beyond typical university events, such as the Prom Night–Euphoria, Monster Mash 3.0–Halloween, and Cast 4–Campfire, to create memorable and fun bonding opportunities.
- Retaining skillful members in Rotaract after their term in the club, by introducing the novel initiative, RacKonnect.
- Transparent evaluation and data-driven decision making using LinkR and contribution sheets to inform membership decisions and maintain high standards.

"Rota Spark," our flagship orientation program for freshers, was once again a cornerstone of our membership development efforts. This year's theme "Avengers: Forging the Future, Assembling Greatness!" captured the global spirit of Rotaract and invited new members to explore diverse cultures and experiences while learning about our club's mission.

The event included a puzzle solving, wild card round, creative competitions, and immersive workshops that introduced participants to the principles of Rotaract in a fun and engaging way. The project culminated with Cast 4, a signature campfire event designed to foster friendships and highlight the power of community in Rotaract. The dedication of our directors and project chairs ensured that Rota Spark 2024/25 was not just an introduction to Rotaract, but an invitation to join a supportive and vibrant community.

Key Outcomes of Our Strategy:

- Expanded active membership to include all faculties and NDT, strengthening our diversity and inclusivity.
- Retention of talented members and leaders within the movement through RacKonnect.
- Increased participation in both project work and club culture activities, ensuring a well rounded membership experience.
- Strengthened digital membership infrastructure, enabling fair evaluation and transparent decision making.
- Achieved a remarkable number of inducted members from 2024–2025 serving as project chairpersons or key contributors.

Through this comprehensive membership strategy, we continue to be a dynamic and engaged community, driven by shared values of service, friendship, and growth. We look forward to building on this foundation in the years to come.

INDUCTIONS

Induction Process

Any strategy or criteria related to the membership plays a vital role in the club as the membership is the strength and the diving force of the club. Among them the induction process is in the toppest level of them all. The induction criteria of the club exhibit the main focus areas of the year as well as the dimensions that the membership of the club should be emphasized. The main goal of the induction process is to maintain an active membership by recognizing the best of talents and contributions while ensuring transparency and equal opportunities throughout the process.

The first step of the induction process is fulfilled by the club's unique Digital Membership Tracking Platform LinkR, which is strategized to filter the best performing Rotaractors out of all the undergraduates of University of Moratuwa. Undergraduates from all the faculties including the faculties of Engineering, Architecture, Business, IT, Medicine, and NDT will be evaluated according to their contributions towards Rotaract. The induction process mainly targets the potential general members of the club who will be specially from the first academic year in the university.

As the first process all of the performances of those prospective members will be added to their particular LinkR accounts and then the contributions will be compared and evaluated. The induction ceremony is the culmination of the induction process and it is a significant ceremony throughout the year. The inductions were done under three induction ceremonies which were held in the month of October and February, 2024 and May, 2025. Total of 60 members were planned to be inducted as the newly inducted members for the RI year 2024-25 as the highly performing members of the club.

The induction process was carried out strategically while maintaining 100% transparency. The general criteria that was used to evaluate the performance of the members are as follows:

EITHER for the respective quarter,

Requirement 01: Co-chairperson position of minimum of one project / OC member of 03 projects

Requirement 02: Participation in the General Meetings at the minimum of 2

Requirement 03: Participation in Physical Events at the minimum of 3

OR

Special Recommendation

All the members in the approved list will be inducted in the respective quarter. Special Recommendation is applicable for the members who have not completed all the requirements of the general criteria but have exhibited special performances in the respective quarter/ year 2024-25. The Board of Officials of 2024-25 can nominate members for the special recommendation. In order to add them into the list of prospective members for the induction the director or top board members should share the reasons for the recommendation with the Board of Officials for the year 2024-25 at a meeting specially arranged as a part of the induction to get their approval. With the approval of all the Board of Officials of 2024-25 the member can be added into the list as a special recommendation.

The culmination of this thorough and transparent evaluation process was the Induction Ceremony, a highlight in the club's calendar.

Following this process, a total of 64 members were inducted for the RI year 2024-25. Two induction ceremonies were held on the following dates:

First Induction Ceremony: October 22nd, 2024

Second Induction Ceremony: February 05th, 2025

Third Induction Ceremony: May 21st, 2025

Through this rigorous yet inclusive induction process, we ensured that every inductee not only met but embodied the values of Rotaract, further strengthening the club's legacy of excellence and vibrant community spirit.

LIST OF NEW INDUCTIONS WITHIN THE YEAR

Induction Ceremony: October 22nd, 2024

- Senuthi Kariyawasam
- Shakil Ilham
- Rashmika Madaela

TERMINATIONS

During the RI Year 2024-25, the club took a proactive approach to managing inactive members. Instead of terminating individuals, the club decided to prioritize marking their status as 'Inactive' on the Rotaract Management Information System (RMIS). This decision aimed to maintain a sense of inclusivity and allow members the opportunity to potentially re-engage with the club in the future.

However, a necessary adjustment had to be made to the Rotary International (RI) Portal. In order to streamline the database and maintain accurate records for the RI Year 2024-25, the club made the decision to remove all members from the RI Portal, except for the board of officials. So, on 1st July 2024, there were only 43 members on RI Portal. When considering the RMIS, the terminations were carried out in specific cases outlined by the club's policies.

Members who had been inactive for more than two quarters, those who had graduated and left the university, and those who had transferred to another Rotaract Club were subject to termination. A total of 38 members were consequently removed from the club's database during the RI Year 2024-25.

Furthermore, 84 members were marked as inactive primarily due to RI Dues. This action was necessary to comply with RI regulations and ensure proper financial accountability within the club. By marking these members as inactive, the club could accurately reflect their status and take appropriate measures to address their outstanding RI dues. Thus, the club maintained an equal number of Active Members on both RMIS and RI Portal. To track inactive members and facilitate efficient management, the club utilized the LinkR platform, which served as a valuable tool similar to the induction process.

INBOUND AND OUTBOUND TRANSFERS

Outbound Transfer

In adherence to the guidelines established by the Rotaract District Steering Committee, the club successfully carried out outbound transfers. To facilitate this process, the Secretary prepared Letters of Recommendation in the prescribed format specified by the District Steering Committee. These letters, bearing the signatures of the President and the Senior Director of Membership Development of Rotaract Club of University of Moratuwa, were issued to members who made the decision to continue their Rotaract journey with another club.

To ensure smooth coordination, all pertinent details regarding the transfers were promptly conveyed via email to the District Membership Development Team and the Assistant Rotaract District Secretary & Membership Chair. This email was also copied to the President and Guide Club Coordinator of the respective club, as well as the Guide Club Coordinator of Rotaract Mora.

By adopting this comprehensive approach, we aimed to maintain accuracy and integrity in our records. Consequently, the transfer details were incorporated into the Rotary International database, effectively synchronizing the information with both the Rotaract Management Information System (RMIS) and Rotary International (RI) databases.

Inbound Transfer

The Rotary International Year 2024-25 did not witness any Inbound Transfers for the Rotaract Club of University of Moratuwa

TEAM MESSAGE

Club Service

The Club Service Avenue of the Rotaract Club of University of Moratuwa is primarily responsible for fostering fellowship and strengthening membership through various initiatives, while also leading the most official events and functions of the club. All these initiatives were made possible through the dedication of a passionate and committed team. As a team, we believe we were able to meet the goals of the Avenue throughout the year.

Our first project, Jam Room, was organized to provide a platform for outgoing and incoming board members to get to know each other better through fun games and interactive activities. It was a truly impactful experience that helped us form meaningful new connections. We then moved on to the Transition Meeting, held alongside the General Meeting for the month of July. Organizing this was quite challenging due to the ongoing non academic strike. Despite the circumstances, we successfully held the event at the Royal College Skills Centre.

Next came Binara Padura, our most significant event of the year, co-chaired by the Assistant Directors (aka “Podi 5”). Despite the difficulty of finding sponsorships for Club Service events, the team successfully secured a partnership. We believe this was the most successful Binara Padura to date. In front of over 1,000 undergraduates from all faculties, the Binara Padura Team showcased their talents in singing, dancing, and musical performances. The vibrant decorations and lighting made the event truly spectacular.

As a Halloween celebration, we organized Monster Mash, a fun filled evening featuring games, cosplay, and DJ music. With over 250 participants, the event took place at the Old Gym and was a great success. The cosplay segment, in particular, was a highlight, with attendees dressing in funny or spooky costumes, making it a memorable night. Next, our most prestigious event, the Installation Ceremony, held at the Rubert Peiris Auditorium. The ceremony was beautifully decorated, reflecting the pride and legacy of Rotaract Mora.

On the 8th of December, we celebrated the 29th Charter Day with a creative video, followed by a celebration and General Meeting on the 11th of December. The event was formal yet fun, with member appreciation, a cake-cutting ceremony, and moments of celebration.

In collaboration with the Rotaract Clubs of Faculty of Arts - University of Colombo and University of Peradeniya, we organized RAC Hike, a joint fellowship initiative. The hike to Kabaragala was an incredible experience where members from different clubs bonded while enjoying nature. For Ifthar, we joined Lailat 25, a collaborative initiative by 20 Rotaract Clubs. Held at the National Library Auditorium, it was a valuable opportunity to experience Islamic culture and build fellowship across clubs.

RacKonect was a series of events tailored for board members, including TrekKonect (our board trip) and InterKonnect (two game nights). The trip to Bambarakanda was an unforgettable experience featuring nature walks, kayaking, waterfall exploration, and a memorable BBQ night. The game nights, held after a General meeting and an Induction Ceremony, were designed to strengthen connections among board members through fun and fellowship.

Kowul Wasanthaya, our Awurudu celebration, was held in collaboration with the Rotaract Club of Alumni of University of Moratuwa. Despite challenges with date and venue arrangements, we overcame them and successfully hosted an amazing event. To complement Rota Spark, we organized Cast 4, a game series aimed at attracting new members from the 24th batch. The final physical event was held at Lagann and was a truly memorable experience for the participants.

Club Service was also responsible for organizing most of the General Meetings throughout the year. We ensured service letters were distributed at these events to recognize our members' contributions. We also incorporated games and entertainment to make the meetings more engaging.

Looking back at this incredible lineup of events, we are proud of what we've accomplished together as a team. We are truly grateful to the President, Executive Committee, board members, Rotaractors, general members, partners, and everyone who supported us throughout the year.

The journey of the Club Service Avenue in Rotaract Mora's 29th year was a true team effort. Here's to the upcoming team, may you continue the legacy and write an even greater chapter. Best wishes to Rotaract Mora for continued impactful service.

Warm Regards,
Club Service Team 2024-25

TEAM MESSAGE

Membership Development

For over 29 years, the Rotaract Club of the University of Moratuwa has thrived as a hub of community service and leadership. At the heart of this vibrant journey lies the Membership Development Avenue, a bridge that connects leadership with the club's most vital asset : its members.

This avenue plays a pivotal role in nurturing a supportive environment by ensuring equal opportunities, promoting active participation, and recognizing the efforts of our diverse membership. With over 350 members and a multitude of leadership positions, Rotaract Mora remains committed to empowering individuals to grow, lead, and serve.

In 2024 - 25, the Membership Development Avenue embraced both traditional and innovative approaches to foster engagement, enhance member experience, and uphold the spirit of unity.

Beginning with Rota Novatos, we welcomed our passionate NDT undergraduates from ITUM through an engaging virtual orientation, ensuring a warm introduction to the club and its values. With over 100 registrants and more than 35 active participants on Zoom, the event marked the first step in building a meaningful connection with our newest batch of potential Rotaractors.

To officially honor and recognize dedication, we hosted three Induction Ceremonies, celebrating a total of 65 outstanding members selected considering their contributions to Rotaract Mora. These ceremonies served as powerful reminders of the talent and commitment that define Rotaract Mora and helped motivate our members to continually strive for excellence.

Our flagship onboarding initiative, Rota Spark, returned with magical energy. Inspired by the Avengers endgame, we created a whimsical journey for new members, beginning with the Hideout treasure hunt on campus. This was followed

by engaging competitions in flyer design and writing, building both camaraderie and creativity.

With the belief that service must extend beyond ourselves, the avenue also initiated Suwapetha, a life-saving blood donation drive conducted at the University Gymnasium. The campaign not only attracted 75 donors but also educated participants on the value of regular donation and blood safety, aligning with national healthcare goals and the UN Sustainable Development Goals.

We concluded the year with Premio Formalita, a formal appreciation event held to acknowledge the tireless efforts of Rotaractors. By celebrating achievements in a sophisticated setting, we reinforced the culture of gratitude and recognition, which is foundational to member motivation and long-term engagement.

As we reflect on a successful year, it is evident that the strength of Rotaract Mora lies in its members. The Membership Development Avenue remains steadfast in its mission — to empower, support, and celebrate each individual who joins our journey of service, fellowship, and excellence.

Warm Regards,
Membership Development Team 2024-25

JAM ROOM

Date : 01st July 2024 - 12th July 2024
Chairpersons : Rtr. Senudi Laknavee, Rtr. Shehan Lokuwella, Rtr. Thiniru Bandara
Venue : Lagaan, University of Moratuwa
Secondary Avenue : N/A

The purpose of initiating Jam Room, by the Club Service Avenue of Rotaract Club of University of Moratuwa was to provide a networking opportunity for members of the 2023-2024 outgoing Board of Officials with the incoming 2024-2025 Board of Officials.

Games and activities were used to support the board transition process aimed at ensuring a smooth and cohesive handover of responsibilities while fostering a sense of camaraderie and teamwork among the board members.

All members participating in the event grouped together for activities that demanded communication and teamwork between group members. The activities consisted of problem solving as well as trust building games, and other creative activities. The collective work allowed members to discover their respective abilities as well as vulnerabilities which built unity and collaborative relationships between them.

A standout feature of the Jam Room was its emphasis on inclusivity and participation. The project established a listening environment because it gathered board members who brought diverse experiences from different backgrounds. The inclusive environment at Jam Room enabled members to strengthen their relationships while we witnessed better interactions between the members during the event. The participants developed better mutual understanding together with increased respect while forming new relationships among themselves. Most of the members showed strong positive reactions to the project because it allowed them to forge genuine connections with their fellow members.

Jam Room functioned as a vital initiative which went beyond its project status as it reflected the essential values of teamwork and ongoing support. The event succeeded in creating stronger bonds among Rotaract board members while establishing future member collaboration by organizing meaningful activities between outgoing and incoming board members.

A smooth transition was established through Jam Room which positioned the Rotaract Club of University of Moratuwa to achieve success and productivity in RI year 2024-2025. Meanwhile, strong relationships formed during this event boosted future growth for Rotaract Mora.

BINARA PADURA

Date : 15th July 2024 - 25th September 2024
Chairpersons : Rtr. Senuthi Kariyawasam , Rtr. Shakil Ilham, Rtr. Rashmika Madaela, Rtr.Nirmala Warushavithana, Rtr. Sineth Wickramarathne
Venue : Lagaan, University of Moratuwa.
Secondary Avenue : N/A

The third edition of Binara Padura, held in 2024, built on the overwhelming success of its previous iterations, further solidifying its reputation as a much anticipated and beloved tradition at the University of Moratuwa. As a flagship initiative of the Rotaract Club of University of Moratuwa for the RI Year 2024–25, the event aimed not only to celebrate the Binara Poya with music and camaraderie but also to enhance the active involvement of the 23rd batch in club activities. This year's event was driven by the spirited leadership of the newly appointed 'Podi 5' and the Club Service Avenue Directors, ensuring meticulous planning and vibrant execution.

The organizing committee was composed mainly of enthusiastic members from the 23rd batch, who demonstrated exceptional commitment and collaboration throughout the planning process.

Their efforts were amplified by a strong and creative public relations campaign that effectively generated excitement and buzz across the university. This proactive engagement strategy successfully drew in a large and diverse audience from the student body, making the event a truly inclusive and university wide celebration.

Binara Padura 2024 took place on the evening of September 25, starting at 6.30 p.m., and drew over 1000 undergraduates, a testament to the event's popularity and the club's organizing capabilities. A highlight of this year's event was the partnership with SALT by Burger Brothers, who set up a food stall at the venue. This thoughtful collaboration allowed attendees to enjoy delicious refreshments while soaking in the musical ambiance, elevating the overall experience and making the event more festive and enjoyable.

As in previous years, the event offered a dynamic platform for musical enthusiasts within the university to express their talents. It also served as a key social gathering that strengthened inter-batch relationships and provided a sense of belonging. One of the most impactful outcomes of the event was the enhanced sense of unity and teamwork within the Rotaract Club. The collaborative environment fostered by Binara Padura encouraged cross-batch interaction, reinforced friendships, and highlighted the strength of collective effort in achieving a common goal.

Beyond being a musical night, Binara Padura also played an essential role in bridging the gap between the Rotaract Club and the wider student population. The event's openness and inclusivity invited new conversations, forged deeper connections, and increased awareness of the club's mission and initiatives. This strengthened presence within the student community reinforced Rotaract Mora's position as a key driver of cultural engagement and youth empowerment at the university.

In conclusion, Binara Padura 2024 was a resounding success, showcasing the Rotaract Club's dedication to fostering community spirit, promoting creativity, and encouraging active participation. The event's success marked by vibrant performances, strong attendance, effective partnerships, and meaningful engagement, left a lasting impression on both the club and the wider university community. It stood as a shining example of what can be achieved through passion, planning, and collaboration.

29TH INSTALLATION CEREMONY

Date : 25th July 2024 - 03rd November 2024
Chairpersons : Rtr. Thiyara Ranasinghe , Rtr. Senudi Laknavee, Rtr. Ashen Perera
Venue : Rubert Peiris Auditorium, University of Moratuwa
Secondary Avenue : N/A

On November 3rd, 2024, the Rotaract Club of University of Moratuwa, widely known as Rotaract Mora, celebrated a remarkable milestone with its 29th Installation Ceremony. Held at the prestigious Rubert Peiris Auditorium, the event reflected nearly three decades of excellence in service, leadership, and innovation since the club's establishment in 1995. As the first university-based Rotaract club in Sri Lanka, Rotaract Mora has long been a pioneer in youth-driven community engagement.

The ceremony marked the official appointment of Rtr. Hiruni Praveesha as the President for the Rotary International Year 2024–25, along with the induction of her dynamic board of officials. Guided by the theme "Serving Today, Inspiring Tomorrow," the new leadership pledged to carry forward the legacy of the club while embracing new challenges and opportunities for impact.

The event was graced by a distinguished lineup of guests, including Chief Guest Rtn. Arunasalam Balraj, Guest of Honour Dr. Ranga Rodrigo, District Rotaract Representative PHF Rtr. PP. Shanel Mendis, and PHF Rtn. Rajive Silva, a Youth Service Director. Their presence, along with Rotarians, Rotaractors, Interactors, family members, and well-wishers, added prestige and warmth to the occasion.

A series of speeches and presentations highlighted the achievements of the previous year. Outgoing Secretary Rtr. Chyaga Handunpathirana delivered a heartfelt annual report, showcasing over 100 impactful projects that aligned with sustainable development goals and fostered innovation.

Outgoing President Rtr. Yasiru Athugaldura reflected on his tenure with gratitude and shared well-wishes for the incoming team. Tokens of appreciation were presented to the outgoing board in recognition of their service and dedication.

The highlight of the evening was the ceremonial collaring of Rtr. Hiruni Praveesha, symbolizing the formal transfer of leadership. In her inaugural address, Rtr. Hiruni shared her vision for the year, blending passion, humor, and a forward-looking spirit. Her speech resonated with the audience, inspiring them to continue building a better tomorrow through Rotaract.

Adding a burst of energy and creativity, a vibrant performance by the university's dancing society showcased the spirit of camaraderie and celebration that defines Rotaract Mora. Guest speakers shared valuable insights on the importance of youth engagement, collaboration, and innovation in community service.

The ceremony concluded with a sincere vote of thanks by the newly appointed Secretary, Rtr. Brinstan Peries, expressing gratitude to all who contributed to the event's success. The 29th Installation Ceremony was not just a formal event , it was a heartfelt tribute to nearly thirty years of dedication, a celebration of present achievements, and a powerful beginning to another impactful year under new leadership.

MONSTER MASH 3.0

Date : 01st September 2024 - 09th October 2024
Chairpersons : Rtr. Sakiru Bandara , Rtr. Dinura Jayawardana, Rtr. Tharushi Sesathmi, Rtr. Oshada Mevan
Venue : Old gymnasium, University of Moratuwa
Secondary Avenue : N/A

Monster Mash 3.0 was a vibrant Halloween celebration organized by the Rotaract Club of University of Moratuwa for the Rotaract International year 2024–25. Building on the tradition of Halloween-themed events, this year's celebration introduced a creative new twist by centering the event around the ghostly character Isadora, whose fictional 21st birthday formed the theme of the evening. The event aimed to create an unforgettable and engaging experience for students while encouraging creativity, camaraderie, and participation across the university community.

Held on the 9th of October at the Old Gym of the university, Monster Mash 3.0 drew an enthusiastic crowd of over 300–350 students. The date was strategically chosen to accommodate students' busy academic schedules, allowing for maximum attendance and involvement. Leading up to the event, *Isadora* was brought to life by a student in costume who roamed the campus, building excitement and encouraging others to join the celebration. Alongside this, a dart game fundraiser was organized in advance, which not only generated funds for the event but also gave winners free entry tickets, helping to boost engagement even before the main day.

The event itself featured a range of exciting activities designed to capture the spirit of Halloween, including games like darts and archery, a face painting station, and a cosplay competition. The venue was decorated with spooky props and ambient lighting to create a haunted atmosphere. One of the highlights of the evening was the cosplay competition, where over ten students showcased their creativity through chilling and impressive costumes. Characters such as the Joker, Wednesday Addams, and Terrifier brought a thrilling energy to the event, with the Joker winning first place for an unforgettable performance.

The celebration concluded with a lively DJ session, where students danced and celebrated for over two hours. The music, costumes, and festive spirit created an electric atmosphere, bringing everyone together for a night of pure enjoyment. The event was not just entertaining but also thoughtfully organized with sustainability in mind.

Monster Mash 3.0 was a successful blend of fun, innovation, and responsible event planning. It highlighted the power of student-led initiatives to create inclusive, joyful experiences while promoting sustainability and creativity within the university community.

RAC HIKE

Date : 27th November 2024 - 23rd February 2025
Chairpersons : Rtr. Senudi Laknavee, Rtr. Shehan Lokuwella, Rtr. Thiniru Bandara
Venue : Kabaragala
Secondary Avenue : N/A

The Rotaract Club of University of Moratuwa, in collaboration with the Rotaract Club of University of Colombo Faculty of Arts and the Rotaract Club of University of Peradeniya, launched RAC HIKE—an initiative aimed at offering their members a refreshing escape from academic and service responsibilities. This inter-club initiative was driven by a desire to foster fellowship, strengthen inter-club relationships, and promote wellness among Rotaractors. The project was led by the Club Service Directors from the three clubs: Rtr. Shehan Maleesha, Rtr. Senudi Laknavee, and Rtr. Thiniru Bandara, who served as the project chairpersons and played a key role in organizing and coordinating the effort.

Following a series of discussions among the participating clubs, February 23rd was chosen as the date for the hike, ensuring the convenience of all members involved. The next major step was selecting a destination that offered both adventure and scenic beauty. After reviewing several proposals put forward by the University of Peradeniya Rotaractors, *Kabaragala*—a breathtaking hilltop known for its stunning landscapes and inviting trails—was selected as the ideal location to host the hike.

The journey began early in the morning with a bus departing from the University of Moratuwa. Along the route, participants from the University of Colombo joined in, sharing breakfast and laughter along the way. The journey continued to the Agricultural Faculty of the University of Peradeniya, where the final group of hikers boarded. The bus ride was a lively one, filled with music, stories, and bonding moments that set the tone for the rest of the day.

The hike kicked off at 9:30 a.m., with participants enthusiastically beginning their climb up Kabaragala. Throughout the hike, there was a strong sense of unity, with members encouraging each other and enjoying the journey as a team. Upon reaching the summit, the group was rewarded with a spectacular view, where they paused to rest, enjoy lunch, take photographs, and soak in the serenity of nature.

The descent began around 5:30 p.m., bringing a close to a day filled with adventure, laughter, and connection. A final group photo was taken at the base to commemorate the experience and the new friendships formed. RAC HIKE successfully provided participants with a meaningful break and strengthened the fellowship between the three Rotaract clubs, reinforcing the power of collaboration and shared experiences within the Rotaract movement.

LAILAT '25

Date : 24th February 2025 - 19th March 2025
Chairpersons : Rtr. Hiruni Praveesha Perera , Rtr. Brinstan Peries
Venue : Colombo-Public Library Hall
Secondary Avenue : Membership Development & Retention

The spirit of Ramadan shone brightly at the Colombo Public Library Hall on March 14th, as the Rotaract Club of the University of Moratuwa collaborated with 21 other Rotaract Clubs, including APIIT, Colombo Fort, NIBM, and Rathnapura, to host the grand Iftar gathering, "Lailat 25". This collaborative effort marked RID 3220's largest Iftar gathering, drawing in over 250 attendees for an evening of faith, unity, and gratitude.

The event was graced by the esteemed presence of Ash Sheikh Muiz Bukhari, who delivered an insightful and inspiring discourse. His words resonated deeply with the audience, offering reflections on the spiritual significance and transformative power of the holy month.

The atmosphere was one of warmth and togetherness, as members from various Rotaract clubs came together to break their fast and share a delicious dinner. The overwhelming participation, nearing 300 individuals, was a testament to the strong sense of community and collaboration within the Rotaract movement in RID 3220.

The success of this initiative, which aimed to foster faith, unity, and gratitude, was evident in the positive sentiments surrounding the event. It truly showcased the power of unity and kindness within the Rotaract family, proving that these values extend beyond individual clubs. The Rotaract Club of the University of Moratuwa is proud to have been a part of this memorable and spiritually enriching event.

RAC KONNECT

Date : 15th October 2024 - 6th April 2025
Chairpersons : Rtr. Senudi Laknavee, Rtr. Shehan Lokuwella, Rtr. Thiniru Bandara
Venue : ENTC hall 01,University of Moratuwa, IT Auditorium,University of Moratuwa, Belihuloya and Ratnapura
Secondary Avenue : N/A

RacKonnect was introduced as a tri-phased initiative by the Rotaract Club of University of Moratuwa, thoughtfully crafted to fortify internal bonds among board members, rejuvenate their spirits, and foster a strong sense of fellowship beyond official duties. Recognizing that impactful leadership stems from trust, collaboration, and mutual understanding, RacKonnect aimed to nurture these elements through a series of carefully planned phases, each dedicated to a unique aspect of team building and personal connection.

The initiative moved beyond routine responsibilities, offering board members opportunities to engage with one another on a more personal level. It created safe and engaging spaces where individuals could share, reflect, and connect—laying the groundwork for stronger collaboration throughout the year. Whether through team-building exercises, recreational activities, or moments of open dialogue, each phase of RacKonnect was designed to reinforce unity and morale within the leadership body.

By focusing on interpersonal growth and emotional engagement, RacKonnect ultimately strengthened the foundation of the club's leadership. The program empowered board members to lead with empathy, support one another in their roles, and drive the club's mission forward with renewed energy and cohesiveness.

InterKonnect marked the first phase of the broader RacKonnect initiative, specifically designed for the Board of Officials of the Rotaract Club of University of Moratuwa. This initiative aimed to cultivate stronger interpersonal relationships through enjoyable, meaningful, and engaging experiences that provided board members a much-needed break from their demanding academic and extracurricular schedules. To encourage maximum participation and ensure a seamless transition, both phases of InterKonnect were strategically scheduled to take place immediately after the club's monthly General Meetings.

InterKonnect Phase 1

Phase 01 of InterKonnect was held on the 22nd of October, following the General Meeting and the Induction Ceremony for the month, at ENTC Hall 01 of the University of Moratuwa. The highlight of this session was the popular social deduction game Mafia, which sparked animated conversations, friendly competition, and an atmosphere full of laughter and curiosity. Participants eagerly took on secret roles, forming alliances and trying to outwit each other in multiple rounds. The game not only served as a fun icebreaker but also encouraged critical thinking, observation, and active participation, creating strong bonds and a sense of camaraderie among board members.

InterKonnect Phase 2

Phase 02 took place on the 25th of March after the General Meeting at the IT Auditorium and centered around a vibrant team-building theme. A variety of high-energy and collaborative games—such as Human Knot, Charades with a Twist, and Pass the Action—were conducted to enhance group dynamics and reinforce the values of trust, communication, and teamwork. These activities encouraged creative problem-solving and collective effort while filling the space with joy, spontaneity, and deeper interpersonal connections.

Together, both phases of InterKonnect successfully brought board members closer, fostering a warm, supportive, and unified team culture that would strengthen the club's leadership throughout the Rotaract year.

TrekKonnect

TrekKonnect was a soulful retreat under the RacKonnect initiative, thoughtfully curated to bring the Board of Officials closer through a shared experience in nature. The journey was more than a scenic getaway, it was a collective pause from the busy routines of Rotaract life, offering space for reflection, laughter, and genuine connection.

'The expedition began with quiet excitement as board members embarked on their journey into the hills. Along the way, they shared light-hearted conversations, meals prepared together, and small, spontaneous celebrations that strengthened the spirit of togetherness. Each moment, from collecting ingredients for meals to singing along during the ride, was filled with camaraderie and warmth.

Upon reaching their mountain retreat, the natural beauty of the surroundings immediately set the tone for relaxation and bonding. Although rain briefly changed the itinerary, it gave way to some of the most memorable moments of the trip—shared meals indoors, cozy conversations, and a sense of peace that only nature can offer. It reminded everyone that connection thrives not just in planned activities, but in the quiet, unexpected moments too.

An adventurous visit to a towering waterfall provided a thrilling highlight, with scenic hikes and refreshing dips capturing the spirit of exploration. What followed was an unforgettable barbeque night, where laughter echoed under the stars, and the group came together not as officials, but as close-knit friends. Singing, storytelling, and the shared joy of being present made the evening truly special.

The second day continued with light-hearted exploration—visiting a picturesque waterfall, capturing memories together, and enjoying local delicacies along the way. Even when plans changed due to weather, the team embraced the unpredictability with enthusiasm. A surprise kayaking experience added an extra spark to the adventure, offering moments of peace and reflection on the serene waters.

TrekKonnect ended with a content and joyful return journey, filled with shared stories and newfound appreciation for the bonds within the board. It wasn't just the landscapes that left a mark—it was the people, the shared laughter, and the sense of unity that truly defined the trip.

This experience served as the perfect finale to the RacKonnect series, encapsulating its core purpose: building genuine fellowship beyond roles and titles. TrekKonnect reminded everyone that leadership begins with connection, and that the strongest teams are built not just in meetings, but in shared memories, spontaneous laughter, and journeys taken together.

KOWUL WASANTHAYA

Date : 09th April 2025 - 01st May 2025
Chairpersons : Rtr. Geethma Sathsarani, Rtr. Yasath Hansaja, Rtr. Ravindu Pathirana
Venue : Boatyard Premises at University of Moratuwa
Secondary Avenue : N/A

Sinhala and Tamil New Year, celebrated as Aluth Avurudu in Sinhala and Puthandu in Tamil, is a vibrant and deeply rooted cultural festival in Sri Lanka. Marking the sun's transition from Pisces (Meena) to Aries (Mesha), the festival is observed around April 13th or 14th with traditional rituals, food, and games that bring communities together. To honor this cherished tradition, the Rotaract Club of University of Moratuwa organized Kowul Wasanthaya 2025 on May 1st, 2025, at the University's Boatyard premises. The event was a key initiative under the Club Service Avenue for the Rotaract year 2024–25, aiming to foster cultural appreciation and community spirit within the university, especially among the newest 24th undergraduate batch.

Leading up to the event, students eagerly participated in preparations, decorating the venue with traditional elements such as photo booths, *kolam rata* patterns, and replicas of Sinhala and Tamil village houses. A table of New Year delicacies—*kiribath*, *kevum*, *kokis*, *aluwa*, *thala kerali*, and bananas—symbolized prosperity and unity. The event saw enthusiastic participation from across the university, promoted effectively through social media and Rotaract networks.

The day began with the ceremonial lighting of the oil lamp, followed by the lighting of the hearth—rituals that symbolize wisdom, prosperity, and new beginnings. Participants then gathered to enjoy traditional food, creating a warm and communal atmosphere. Two live musical performances further elevated the cultural ambiance, spotlighting student talent and connecting the audience to Sri Lanka's artistic heritage.

In the spirit of Avurudu, a series of traditional games added energy and laughter to the day. Tug-of-war, water balloon catching, wasana mutti bidima (clay pot breaking), yoghurt-eating contests, and the "finding the hidden stranger" game engaged students in friendly competition and collective enjoyment. For many, it was a first-time experience of these games in a university setting—an opportunity that blended cultural education with fun, bonding, and teamwork.

The event culminated with the *Awurudu Kumara and Kumariya* pageant, one of the most anticipated segments. Registered participants, especially from the 24th batch, arrived in traditional attire and were evaluated not only on appearance but also confidence, grace, and cultural awareness. This segment offered a platform to showcase personality and cultural pride, making it a meaningful and empowering experience. The crowning of the winners brought the celebration to a joyful close.

Overall, Kowul Wasanthaya 2025 was a resounding success—blending tradition, celebration, and inclusivity. It strengthened bonds among students, promoted cultural literacy, and created lasting memories within the university community. By celebrating the island's heritage in such a spirited and immersive manner, the Rotaract Club reaffirmed its commitment to fostering unity, leadership, and cultural identity among youth.

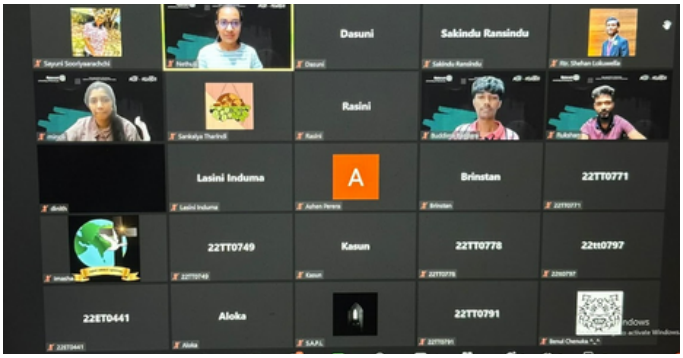

ROTA NOVATOS

Date : 10th September 2024 - 26th September 2024
Chairpersons : Rtr. K. V. J. Disara, Rtr. D. R. Madhusankha
Venue : via Zoom
Secondary Avenue : Membership Development and Retention

Rota-Novatos was a thoughtfully curated virtual orientation event organized to welcome and introduce the 22nd batch of students from the NDT-Institute of Technology, University of Moratuwa, to the Rotaract Club of University of Moratuwa. Recognizing that many new students were unfamiliar with the club and its activities, this session was designed to offer a comprehensive overview of Rotaract, emphasizing its core values of fellowship, service, and leadership.

The session commenced with an engaging introductory video that outlined the essence of Rotaract and the impact it has on both members and the community. This was followed by a breakdown of the club's organizational structure, its key avenues, and the responsibilities undertaken by its members. These insights provided a foundational understanding of how the club functions and the various ways members can get involved.

To keep the session interactive and visually appealing, the organizing team incorporated slideshows and video clips that showcased some of the club's most impactful projects and events. These visuals demonstrated how

Rotaract not only contributes to society but also plays a significant role in the personal and professional development of its members.

Adding a personal touch to the session, the club's President and Avenue Directors shared their own journeys within Rotaract. Their stories highlighted how the club has helped them grow as leaders, develop teamwork and communication skills, and connect with a larger community. Their experiences served to inspire and encourage the new students to take their first step toward a rewarding Rotaract journey.

The event concluded with clear guidance on how the 22nd batch could become a part of the club. Information on the sign-up process, upcoming events, and future opportunities was shared to ensure that students felt well-informed and motivated to participate. With over 65 active participants on Zoom and more than 200 registrations, Rota-Novatos successfully achieved its goal of bridging the gap between the club and the incoming batch, setting the stage for stronger member engagement in the year ahead.

INDUCTION CEREMONY

Date : 02nd October 2024 - 21st May 2025
Chairpersons : Rtr. Dineth Bandara, Rtr. Thamadi Jagoda, Rtr.Yasindu Mahaarachchi
Rtr. Ramida Penuka, Rtr.Sanuja Alphonsus, Rtr.Maryam Mubarak
Venue : ENTC Hall 1, University of Moratuwa
Secondary Avenue : Membership Development and Retention

The success of Rotaract Mora is rooted in the dedication and unity of its members, operating as a close-knit family. Over its 29-year history, the club has cultivated a culture of volunteerism and support, becoming a leader in community service. The recognition and development of talent among its members have been essential to this success.The induction ceremonies aim to celebrate members who show outstanding commitment and service. Held three times during the year, these events recognize selected members chosen through the club's digital tool, "LinkR," and based on the President's criteria. From over 250 potential members, a total of 64 were inducted across the three ceremonies.

Induction Ceremony 1

The first induction was held on October 22nd, 2024, at ENTC Hall 1, alongside the monthly general meeting. It featured guest of honor Dr. Ranga Rodrigo and included the symbolic lighting of the oil lamp to begin the ceremony.Rtr. Thamadi Jagoda gave a welcoming speech, followed by an inspirational address from Dr. Rodrigo about service and self-discovery. The induction of 21 members took place, and President Rtr. Hiruni Praveesha gave a motivational speech on the club's mission.Musical entertainment by Prabhasha Nethmi added a celebratory tone. Certificates of honorable mention and service letters were presented by the President and Secretary respectively. The event ended with a vote of thanks from Secretary Rtr. Brinstan Peries, highlighting the event's success.

Induction Ceremony 2

Held on February 5th, 2025, at ENTC 1 Hall, the second induction also coincided with a monthly meeting. The lighting of the oil lamp marked the beginning, followed by a welcoming speech from event chair Rtr. Ramida Penuka.Dr. Rodrigo inspired members with his insights on leadership and service. He then inducted 20 new members. President Rtr. Hiruni Praveesha emphasized the strength and future of the club in her speech.A musical performance celebrated the unity and talent within the club. The President handed out honorable mentions, and Secretary Rtr. Brinstan Peries distributed service letters. He concluded the evening with a vote of thanks, highlighting enthusiasm and a shared vision.

Induction Ceremony 3

The final induction ceremony took place on May 21st, 2025, again at ENTC Hall. The event began with the traditional lighting of the oil lamp and a warm welcome from event chair Rtr. Maryam Mubarak.Dr. Rodrigo delivered an encouraging speech on leadership and impact, resonating with attendees. He then inducted 23 new members. President Rtr. Hiruni Praveesha gave a motivational talk on teamwork and shared values.A musical performance highlighted club talent. Honorable mention certificates were presented by the President, and a special award was given for the project Zooxanthellae. The event concluded with a heartfelt vote of thanks from Membership Director Rtr. Lasini.

The three ceremonies for 2024–25 successfully acknowledged members' dedication and service, fostering unity and volunteerism. They featured formal recognitions, speeches, and performances that strengthened member bonds and reaffirmed Rotaract Mora's mission.

ROTA SPARK

Date : 13th December 2024 - 14th May 2025
Chairpersons : Rtr.Rashmika Madaela, Rtr. Dinura Jayawardana, Rtr.Himashi Rathnayake, Rtr. Unduli Senadheera, Rtr. Nethmi de Silva, Rtr.Nehansa Piyathilaka, Rtr. Vihanga Fernando,Rtr.Kavish Shanilka, Rtr.Siyani Kumarasinghe

Venue : ENTC 01 Hall, University of Moratuwa.,Lagaan,University of Moratuwa
Secondary Avenue : Membership Development and Retention

Rota Spark is the official orientation and recruitment initiative organized annually by the Rotaract Club of University of Moratuwa. As one of the most eagerly awaited projects of the club, it acts as a vital introduction for potential new members to connect with the essence of Rotaract. The event is designed to provide a firsthand experience of the club's values, achievements, and vibrant community spirit. Over time, Rota Spark has grown beyond a traditional orientation program to become a celebration of youth leadership, fellowship, and service.

The primary objective of Rota Spark is to familiarize prospective Rotaractors with the mission, vision, and opportunities offered by the club. It aims to instill a strong sense of belonging and purpose among participants, inspiring them to embark on a meaningful journey within the club. The event blends information and inspiration, offering a dynamic platform to ignite passion for community engagement and personal growth.

The 2025 edition embraced a creative theme inspired by *Avengers: Endgame*, highlighting the power of unity, resilience, and teamwork. Drawing a parallel between Marvel heroes and Rotaractors, participants were divided into four themed teams: Avengers, Wakanda, Asgardians, and Guardians of the Galaxy. This thematic approach set the stage for friendly competition and collaborative engagement, adding a unique flavor to the overall experience.

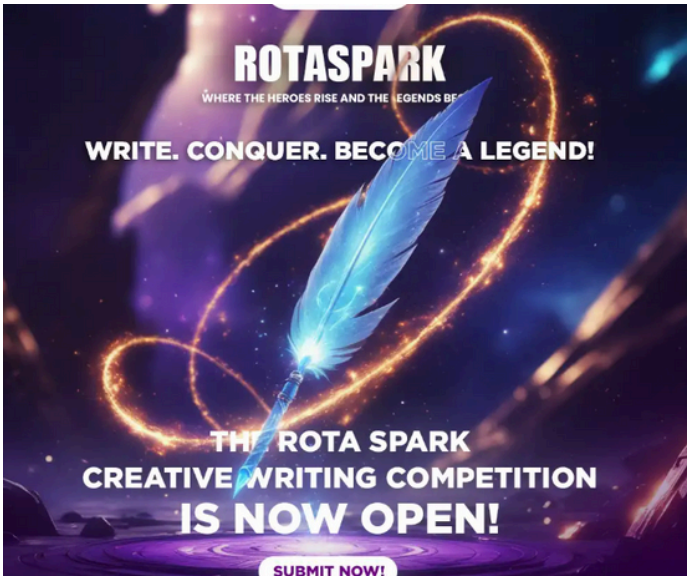

Rota Spark was conducted in two phases: a virtual segment and a physical session. The virtual phase featured a range of interactive and creative online activities, including design challenges, puzzle games, and team-

The physical session, held on the 13th of March, brought participants together in person for the first time. It included interactive segments, team-building activities, trivia competitions, and creative workshops, all designed to build connections and showcase diverse talents.

A key highlight of the event was a dedicated session that introduced participants to the impactful legacy of the Rotaract Club of University of Moratuwa. This session provided insights into the club's most notable projects, its leadership structure, and the various opportunities for involvement. It served as both a moment of reflection and a source of inspiration, reinforcing the message that Rotaract is a platform for changemakers.

Rota Spark concluded on a high note, having successfully achieved its mission of creating an inspiring and inclusive environment for new members. The event sparked enthusiasm and commitment among attendees and laid a strong foundation for their journey in Rotaract. This edition not only welcomed a new wave of Rotaractors but also reinforced the spirit of unity, creativity, and purpose that defines the Rotaract Club of University of Moratuwa.

Cast 4

Cast 4 was the second phase of the orientation journey under the banner of Rota Spark, designed to carry forward the momentum of energy, enthusiasm, and fellowship established during the initial phase. Far beyond a typical event, Cast 4 was a carefully curated experience aimed at deepening the bond between new members of the university community and existing Rotaractors. It served as a welcoming platform that emphasized unity, warmth, and a strong sense of belonging within the Rotaract family.

Held on the 14th of May at *Lagaan*, Cast 4 unfolded as an electrifying evening of celebration. With music echoing under the open sky and lights setting a magical mood, the event was packed with joy-filled moments—singing, dancing, and interactive games that brought smiles to every face. The relaxed and lively environment allowed participants to unwind and engage with one another on a personal level, laying the foundation for lasting friendships and memorable experiences.

The main objective of Cast 4 was to instill a deeper understanding of Rotaract's core values: fellowship, teamwork, and service, through informal and engaging means. It provided new members a glimpse into the culture and spirit of the club, not through lectures or presentations, but through laughter, creativity, and meaningful interactions. By fostering collaboration and shared joy, the event helped every participant feel truly connected to the club's mission and community.

The success of Cast 4 was a result of the passion, creativity, and dedication of its project chairpersons and directors. Their meticulous planning and commitment ensured every detail contributed to an inclusive and unforgettable evening. Through their leadership, Cast 4 became more than a continuation of the orientation process, it became a celebration of belonging, togetherness, and the vibrant spirit of Rotaract.

SUWAPETHA

Date : 18th March 2025 - 24th April 2025
Chairpersons : Rtr. Sanduni Wijenayaka , Rtr.Senara Devasurendra , Rtr. Ulindu Mallawaarachchi
Venue : Old Gymnasium at University of Moratuwa
Secondary Avenue : Membership Development and Retention

Blood donation remains a critical element in supporting healthcare systems and saving lives, particularly in countries like Sri Lanka where the demand often exceeds supply. In response to this ongoing challenge, the Rotaract Club of University of Moratuwa organized Suwapetha 2025, a blood donation drive held on April 24th, 2025, at the University's Old Gymnasium. Conducted in collaboration with the Central Blood Bank, Narahenpita, the project was led by the Membership Development Avenue and aimed at increasing donor participation while promoting awareness on the importance of voluntary blood donation.

This initiative placed strong emphasis on encouraging first-time donors to cultivate a long-term commitment to regular blood donation. Beyond being a collection drive, Suwapetha 2025 served as an awareness platform, incorporating educational flyers, such as the popular "*Did You Know*?" series—and on-site materials to dispel myths and inform donors about the safety and health benefits of blood donation. The event was designed to ensure a smooth and donor-friendly experience.

From registration and medical screening to donation and recovery, each step was professionally managed. Donors were provided with refreshments and rest areas, and gifted with Suwapetha-branded appreciation stickers to recognize their contribution.

The campaign saw over 60 successful donations, directly supporting the national blood bank while instilling a deeper sense of civic duty among university students. Many first-time donors expressed willingness to participate in future campaigns, affirming the project's long-term impact.

The project aspires to expand its outreach by engaging more non-donating groups and training Rotaractors in health-focused event management, ensuring the continued growth of service and leadership within the university community.

PREMIO FORMALITA

Date : 21st May 2025 - 29th May 2025
Chairpersons : Rtr. Mohamad Roshan , Rtr. Minura Mihijaya , Rtr. Ishara Dilshan
Venue : ENTC Hall 1, University of Moratuwa.
Secondary Avenue : Membership Development and Retention

Premio Formalita stood as the crowning event of the Rotaract Mora calendar, a distinguished and heartfelt Annual Awards Ceremony organized by the Rotaract Club of the University of Moratuwa. Aligned with the Public Image avenue, this grand occasion was held on the 29th of May.. More than a formal gathering, Premio Formalita was designed to celebrate excellence and honor the relentless dedication, commitment, and perseverance demonstrated by Rotaractors throughout the Rotaract year.

The ceremony served as a meaningful platform to recognize and appreciate the selfless efforts and collaborative spirit that had propelled the club to remarkable achievements. It transcended the notion of a typical awards night, standing instead as a vibrant testament to the power of community, volunteerism, and leadership that defines the essence of Rotaract Mora. Over 80 Rotaractors came together in an elegant setting to commemorate the milestone, joined by esteemed dignitaries, including former club presidents whose legacies had shaped the club's journey.

The event commenced with the ceremonial ushering of the Senior Treasurer and Staff Advisor, Dr. Ranga Rodrigo, whose long-standing support has been instrumental to the club's continued success.An engaging video presentation took the audience through the impactful journey and achievements of the outgoing Board of Directors. This was followed by a special moment of appreciation, where each board member was honored with a certificate, acknowledging their invaluable service and contributions over the past year. In her presidential address, Club President Rtr. Hiruni Praveesha extended her deepest thanks to the entire membership for their unwavering support and collective commitment that enabled the club to reach new heights of excellence.

The evening progressed into its awards segment, beginning with the Active Participation category. This recognized members who consistently showcased dedication through their frequent involvement in club initiatives and events. These individuals were celebrated with certificates of appreciation, highlighting their vital role in sustaining the energy and momentum of the club throughout the year.

Next, the *Spirit of Service* awards were presented to Rotaractors who personified the true values of volunteerism and leadership. Their contributions not only met but exceeded expectations, reflecting exceptional commitment to the ideals of Rotaract. These honorees were recognized with certificates of appreciation, serving as a testament to their unwavering service and impact within the club and beyond.

In a compelling keynote speech, Dr. Ranga Rodrigo urged members to continue embodying the values of Rotaract and to approach service with passion and humility. As a token of appreciation for his continued mentorship and guidance, Club President Rtr. Hiruni Pravesha presented him with a commemorative gift, marking a heartfelt moment of gratitude.

Adding a touch of celebration to the evening, a musical performance was presented as the entertainment segment.

This interlude offered attendees a refreshing moment of joy and togetherness, enriching the spirit of the event. The atmosphere was one of unity and celebration, further enhancing the emotional resonance of the evening.

A memorable highlight of the night was the address delivered by incoming president Rtr. Shehan Lokuwella. In his speech, he shared his vision and aspirations for the forthcoming Rotaract year, encouraging members to continue striving for excellence and upholding the club's legacy through united efforts and inspired service.

The event was formally concluded with a gracious vote of thanks delivered by Secretary Rtr. Brinstan Peries. His words of appreciation encompassed the dedication of the organizing committee, the support of advisors, and the commitment of every Rotaractor present. Finally, the evening was officially adjourned by the club president, bringing to a close a night filled with celebration, recognition, and the enduring camaraderie that defines Rotaract Mora.

ROTARY FOCUS AREAS AND SDGS COVERED

Project Name	SDG	Rotary Focus Areas
Jam Room	-	-

Although Jam Room was not directly linked to any specific development frameworks, its impact was clear in strengthening collaboration, communication, and leadership within the club. By encouraging teamwork, trust, and inclusive participation, the initiative helped build a foundation for effective cooperation and mutual support among members. This positive environment will contribute significantly to the club's future success and sustained growth.

Project Name	SDG	Rotary Focus Areas
Binara Padura	• 5.5 Ensure full participation in leadership and decision-making. • 16.6 Develop effective, accountable and transparent institutions. • 16.7 Ensure responsive, inclusive and representative decision-making.	-

Binara Padura achieved these SDGs by actively involving the entire 23rd batch in every stage of the event, from planning to execution, ensuring youth leadership and participation (SDG 5.5). The organizing team maintained clear communication, accountability, and transparency throughout the process, building trust and efficiency (SDG 16.6). Additionally, by welcoming students from diverse backgrounds and encouraging their voices in decision-making, the event fostered an inclusive and representative environment that strengthened community unity and empowered young leaders (SDG 16.7).

Project Name	SDG	Rotary Focus Areas
29th Installation Ceremony	-	-

The 29th Installation Ceremony of Rotaract Mora was a significant milestone that celebrated nearly three decades of dedicated service and leadership. It not only marked the seamless transition of responsibility to new leaders but also reinforced the club's commitment to community engagement and youth empowerment. The event fostered a strong sense of unity, inspiration, and renewed motivation among members, setting a positive tone for the upcoming year of impactful projects and collaborations.

Project Name	SDG	Rotary Focus Areas
Monster Mash 3.0	• 7.3 Double the improvement in energy efficiency. • 9.8 Universal access to information and communications technology. • 12.5 Sustainable reduce waste generation.	-

Monster Mash 3.0 achieved these SDGs by implementing energy-saving measures in lighting and equipment to boost efficiency (SDG 7.3). The event leveraged digital platforms and interactive communication tools to engage a wide student audience, enhancing access to information and participation (SDG 9.8). Additionally, organizers focused on waste reduction through careful planning, use of reusable materials, and proper waste segregation during the celebration (SDG 12.5). This combination of creativity, technology, and sustainability made the event both fun and responsible.

Project Name	SDG	Rotary Focus Areas
RAC Hike	• 11.4 Protect the world cultural and natural heritage. • 12.8 Promote universal understanding of sustainable lifestyles.	-

RAC HIKE beautifully aligned with global efforts to protect cultural and natural heritage by immersing participants in the scenic beauty of Kabaragala, fostering appreciation and respect for nature (SDG 11.4). Additionally, the initiative promoted universal understanding of sustainable lifestyles (SDG 12.8) by encouraging members to connect with the environment through outdoor activity while strengthening fellowship and collaboration across clubs. This event exemplified how shared experiences can nurture wellness, unity, and a deeper commitment to sustainability among youth leaders.

Project Name	SDG	Rotary Focus Areas
Lailat' 25	• 3.4 Reduce mortality from non-communicable diseases and promote mental health. • 10.2 Promote universal social, economic and political inclusion. • 16.7 Ensure responsive, inclusive and representative decision-making. • 17.7 Promote sustainable technologies to developing countries.	• Economic and Community Development • Disease Prevention and Treatment • Peace and Conflict Prevention/Resolution

The success of "Lailat 25" was achieved through strong collaboration among 22 Rotaract clubs, creating an inclusive environment that welcomed diverse members and fostered social unity (SDG 10.2). The event's focus on faith and community support contributed to promoting mental well-being and awareness about health (SDG 3.4). Inclusive planning and decision-making ensured that voices from all clubs were heard, reinforcing responsive leadership (SDG 16.7). Additionally, the event highlighted sustainable practices and the use of technology to coordinate efforts efficiently, supporting sustainable development partnerships (SDG 17.7). This collective effort exemplified how community engagement and shared values can drive meaningful impact aligned with Rotary's focus areas.

Project Name	SDG	Rotary Focus Areas
Induction Ceremony	• 10.2 Promote universal social, economic and political inclusion. • 10.3 Ensure equal opportunities and end discrimination.	-

The Rotaract Club of University of Moratuwa promoted SDG 10.2 by creating an inclusive environment where all members had equal opportunities to participate and be recognized through a transparent digital platform, LinkR. This ensured diverse social and economic representation within the club. By basing inductions solely on merit and commitment, the club also supported SDG 10.3, actively working to end discrimination and foster equality among its members.

Project Name	SDG	Rotary Focus Areas
Rota Novatos	• 5.5 Ensure full participation in leadership and decision-making.	-

Rota-Novatos achieved SDG 5.5 by actively ensuring the full participation of new members in leadership and decision-making processes from the very start of their journey. The event's comprehensive introduction to the club's structure and opportunities empowered the 22nd batch to understand and engage with leadership roles. By featuring personal stories from current leaders and providing clear pathways for involvement, the orientation motivated and prepared newcomers to take on active roles, fostering an inclusive environment where youth leadership is nurtured and encouraged. This approach helped build confidence and readiness among new members to participate meaningfully in the club's future decisions and activities.

Project Name	SDG	Rotary Focus Areas
Suwapetha	• 3.3 Fight communicable diseases. • 3.8 Achieve universal health coverage. • 4.7 Education for sustainable development and global citizenship. • 17.17 Encourage effective partnerships.	• Disease Prevention and Treatment

Suwapetha 2025 successfully advanced SDGs 3.3 and 3.8 by organizing a well-coordinated blood donation drive that helped fight communicable diseases and support universal health coverage through increased blood supply. The event promoted SDG 4.7 by educating donors about the importance and safety of blood donation, fostering awareness and responsible citizenship. Additionally, it embodied SDG 17.17 by partnering effectively with the Central Blood Bank, ensuring a strong collaboration that enhanced the initiative's impact and reach within the community.

Project Name	SDG	Rotary Focus Areas
Kowul Wasanthaya	• 10.2 Promote universal social, economic and political inclusion. • 10.3 Ensure equal opportunities and end discrimination. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Peace and Conflict Prevention/ Resolution

Kowul Wasanthaya 2025 effectively advanced Sustainable Development Goals 10.2 and 10.3 by promoting social, economic, and political inclusion and ensuring equal opportunities without discrimination, fostering unity and respect among diverse ethnic groups within the university. Aligned with the Rotary Focus Areas of Economic and Community Development and Peace and Conflict Prevention/Resolution, the event strengthened community bonds and nurtured harmony through shared cultural celebrations. By collaborating with university departments, student groups, and cultural performers, it also exemplified SDG 17.17 and the RFA of building effective partnerships, creating a more inclusive, cohesive, and peaceful campus community.

Project Name	SDG	Rotary Focus Areas
Premio Formalita	-	-

Even if Premio Formalita is not explicitly tied to specific SDGs or RFAs, it inherently contributes to key development themes such as leadership development by recognizing and encouraging volunteerism, thereby nurturing future leaders essential for long-term community growth. The event also promotes community engagement and inclusion by celebrating diverse members equally, fostering a strong sense of belonging and social cohesion. Additionally, by bringing together current members, past leaders, and advisors, Premio Formalita strengthens the club's network and collaboration, building valuable partnerships. This foundational support plays a crucial role in sustaining the club's culture and capacity to create meaningful impact across all broader development goals it pursues.

Project Name	SDG	Rotary Focus Areas
Rota Spark	• 4.7 Education for sustainable development and global citizenship. • 5.5 Ensure full participation in leadership and decision-making. • 16.7 Ensure responsive, inclusive and representative decision-making. • 17.17 Encourage effective partnerships.	• Basic Education and Literacy

Rota Spark 2025 achieved SDG 4.7 by promoting education for sustainable development and global citizenship, introducing new members to the club's values of service, leadership, and community engagement. It fostered inclusive participation and leadership opportunities aligned with SDG 5.5 and 16.7 by encouraging full involvement of all participants in decision-making and teamwork through its creative, team-based activities. The event also exemplified SDG 17.17 and the Rotary Focus Area of Basic Education and Literacy by building strong partnerships within the club, creating a supportive environment that nurtures youth leadership and collaboration.

COMMUNITY SERVICE

TEAM MESSAGE

Community Service

The Community Service Avenue of the Rotaract Club of the University of Moratuwa has consistently strived to foster unity, empower individuals, and uplift communities across Sri Lanka. With a strong foundation rooted in inclusivity, empathy, and sustainable development, our projects have created meaningful, lasting impacts, bridging social divides, addressing pressing societal issues, and inspiring hope in underserved populations.

We have made significant strides in promoting harmony and peace through initiatives like Connecting the Dots, aimed at strengthening unity among Sri Lanka's diverse communities. Through Vanakkam, we empowered undergraduates from underrepresented backgrounds by conducting online English sessions that built language proficiency and essential life skills like CV writing. In Sabandi, Sinhala, Tamil, Muslim, and Catholic school children came together for a day of cultural bonding and tech learning, fostering mutual respect and understanding.

Our project Hand in Hand focused on cancer care, primarily at the Apeksha Hospital in Maharagama. We raised over Rs. 500,000 through campaigns selling wristbands, stickers, and T-shirts, along with stalls at events like the BMICH Shopping Festival. Deliveries extended island-wide, with dedicated drives at both the University of Moratuwa and ITUM. The Colours initiative brought happiness to young patients through interactive games and magical experiences, while a Sago Donation provided nutritious food to over 800 patients. In Galle, we donated essential medical equipment to improve care. Educational efforts included awareness sessions like Pinkoctober and a six-part video series on types of cancer, shared widely via social media making knowledge more accessible and life-saving.

Our flagship initiative, Grama Prabodhaya, focused on empowering rural communities like Kirimatiyawa and Ambanpola in Kurunegala. With support from Concent AI, we conducted site visits and collaborated with local leaders to tailor interventions.

In Senehe Yathra, we provided essential baby products and dry rations to 23 pregnant and new mothers, addressing maternal health and nutrition. Contaminated water in local schools prompted Aqua Safe, where we installed a Reverse Osmosis filter, ensuring clean drinking water and reducing disease risk. To encourage education, Akuru donated over 1500 books and built a library, while projects like Intellect, Heta, Star Seekers, and Sihina conducted math seminars, leadership sessions, and career guidance to inspire students and break cycles of poverty.

We also focused on early childhood education and well-being. In collaboration with the Leo Club and Sumbal Surf, Punchi Rasa Padamata empowered children from the LOLC Child Care Center through fun cooking sessions and music, teaching them about healthy eating, teamwork, and self-expression.

Education accessibility for visually impaired students was prioritized through Manusath Handa. We created audio resources and past papers for O/L and A/L students at the Rathmalana Blind School and organized leadership camps and talent shows to boost their confidence. Through Andurata Athwelak, we extended support to visually impaired adults, organizing platforms for showcasing talents and selling handcrafted products. Events like Unseen Harmonies, a Christmas carol concert at One Galle Face, and See Beyond Market at the university provided income, visibility, and confidence to these individuals—promoting dignity and inclusion.

Hope4Hearts, our heartfelt campaign for children with congenital heart disease, partnered with the Little Hearts Project and Rotary. Through sticker sales and storytelling campaigns, we raised both funds and awareness—highlighting how small actions can save lives and ignite hope.

Our commitment to inclusivity culminated in Dream Cricket, a collaborative effort with the Rotaract West Family and Rotary, which brought joy to over 70 differently abled children. Held at the Uni Sports Center in Colombo, the event combined cricket-based games with fun activities like a DJ, bouncy castle, and refreshments. Rotaractors ensured the children felt empowered, included, and celebrated.

Each project stands as a testament to our belief in service above self. From health care and education to inclusivity and rural development, our journey has been one of compassion, collaboration, and transformation. These milestones wouldn't have been possible without the relentless dedication of our volunteers, the guidance of our chairpersons, and the generous support of sponsors like Concent AI and Global Shapers.

As we look ahead, we entrust the future to the next generation of changemakers. We are confident that you will carry this legacy forward with even greater purpose and innovation. Let's continue serving today, to inspire a brighter tomorrow—together.

Warm Regards,

DREAM CRICKET

Date : 06th August 2024 - 13th March 2025
Chairpersons : Rtr. Hiruni Praveesha, Rtr. Brinstan Pieris
Venue : Uni Sports Center, Colombo 05
Secondary Avenue : N/A

Dream Cricket is a signature collaborative initiative organized by the West Family, a collective of Rotaract clubs from the University of Moratuwa Alumni, American National College, Colombo West, NSBM Green University, University of Moratuwa, and Ratmalana, with generous sponsorship and support from the Rotary Club. This inspiring project is dedicated to supporting differently-abled children by encouraging their participation in physical activities, with a special focus on cricket, to enhance their cognitive and motor skills in a fun, inclusive environment.

On March 13th, 2025, from early morning at the Uni Sports Center in Colombo 05, Dream Cricket brought together over 70 children from various centers dedicated to children with special needs across the Colombo area. Alongside the children, parents, guardians, and center staff were also present, creating a supportive community atmosphere for the day's activities.

The event was meticulously organized and facilitated by a committed team of Rotaractors and Rotarians who designed and led a series of engaging cricket-based exercises tailored to each child's unique abilities.

These activities focused on developing critical motor skills such as hand-eye coordination, muscle movement, throwing, catching, and aiming. The tasks were thoughtfully crafted to be inclusive, ensuring that every child could participate comfortably and confidently, regardless of their physical or cognitive challenges.

Beyond the sporting activities, Dream Cricket embraced a holistic approach to well-being. The event featured various recreational elements including a lively DJ, a bouncy castle, and other fun-filled attractions, all aimed at promoting mental health, happiness, and social interaction among the children. These additions helped create an uplifting and joyous atmosphere that encouraged smiles, laughter, and new friendships.

To ensure the well-being of all attendees throughout the day, lunch was provided for children, parents, guardians, and volunteers, fostering a sense of community and care. The day concluded with children happily departing with their families, having experienced a meaningful, joyful, and empowering event.

Dream Cricket was much more than a day of sport and play, it was a celebration of inclusivity, compassion, and the limitless potential of every differently-abled child. Through sport, music, and joyful engagement, this project reaffirmed the belief that every child deserves opportunities to grow, shine, and be celebrated for who they are.

HAND IN HAND

Date : 14th August 2024 - 31st May 2025
Chairpersons : Rtr. Tharindu Jayasekara, Rtr. Sineth Wickramarathna, Rtr. Yesara Wijerathne, Rtr.Hansaka Randimal, Rtr.Minoli Himanshi, Rtr. Madusha Gunathilake, Rtr. Thivanga Adithya, Rtr. Biyoni Minsandi, Rtr. Senuthi Kariyawasam, Rtr. Subath Kathriarachchi, Rtr. Chamudi Liyanage, Rtr.Sandun Sanjaya, Rtr.Risindi Dinethma

Venue : University of Moratuwa, BMICH , Apeksha Hospital-Maharagama CCC House, Maharagama

The "Hand in Hand" initiative is a signature community service project organized by the Rotaract Club of the University of Moratuwa, dedicated to supporting cancer patients in Sri Lanka especially children and raising nationwide awareness about cancer-related issues. Primarily benefiting patients at Apeksha Cancer Hospital and other key institutions such as CCC House and the National Hospital in Galle, the project offers both financial and emotional support, while addressing gaps in access to essential medications, medical equipment, and psychosocial care.

Through various fundraising campaigns—including T-shirt sales, wristband promotions, and sticker drives—the project funds vital amenities like playrooms, counselling services, and patient-family lounges. Simultaneously, it runs impactful awareness programs, including webinars, social media campaigns, and educational sessions, in collaboration with organizations like the National Cancer Control Program.

Since its inception under Rotary's disease prevention and treatment focus area, "Hand in Hand" has grown into a multi-dimensional initiative that empowers individuals and communities with knowledge, compassion, and care. As it continues to expand its reach, the project remains committed to improving the lives of cancer patients and creating a more informed and supportive society.

Fund Raising Phases

"Hand in Hand" successfully conducted two impactful fundraising phases at the BMICH shopping festival. These initiatives were crucial in gathering the necessary financial support for our project's mission.

Christmas Card Campaign -Dec

This impactful phase of the project took place from December 13th to December 22nd, 2024, showcasing the unwavering dedication of our volunteers. During this period, specially designed wristbands and stickers were sold to raise funds, while also serving as symbols of solidarity with cancer patients. Embracing the spirit of the festive season, we introduced exclusive Christmas cards featuring heartfelt artwork created by the children at CCC House, adding a deeply personal and touching element to the campaign. Alongside fundraising, the initiative also played a vital role in raising public awareness about cancer, with strategically placed banners sparking important conversations and spreading knowledge within the community.

Sticker Card Campaign -April

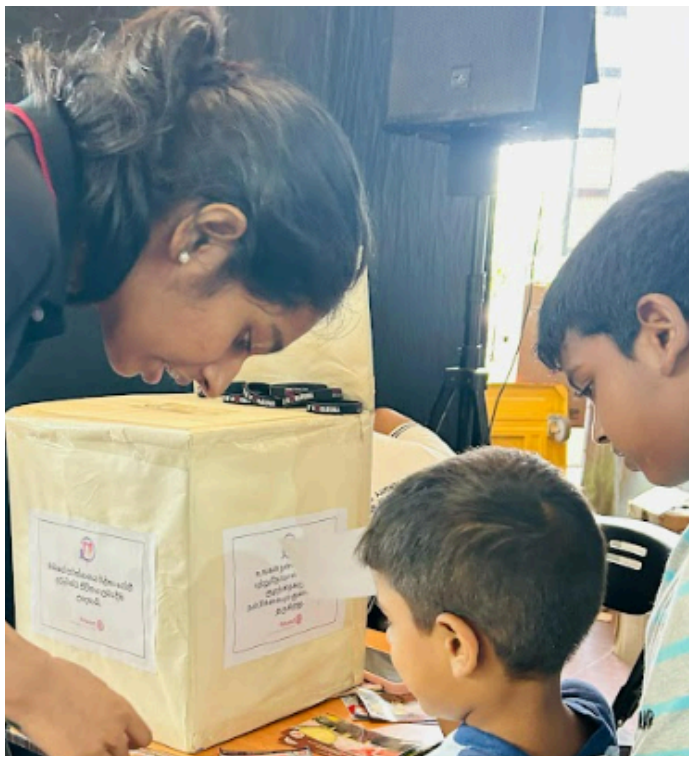

Building on the success of our December campaign, the second phase of “Hand in Hand” took place from April 4th to April 11th, 2025. During this week, our dedicated volunteers once again took to the BMICH Shopping Festival, passionately selling wristbands and stickers to continue raising essential funds in support of cancer patients.

Across both fundraising phases, a remarkable team of around 80 committed volunteers lent their time and energy to the cause, exemplifying the true spirit of compassion and community service. Their presence at the event not only enabled direct public engagement but also played a key role in spreading awareness about cancer. Strategically placed banners further amplified our message, encouraging the public to join the fight against cancer and support those affected.

Sticker Card Campaign -General

In addition to the sales carried out at the BMICH Shopping Festival, "Hand in Hand" launched a dedicated Sticker Selling Campaign led by our passionate Organizing Committee members. Taking individual initiative, these members extended their efforts beyond the event by reaching out to undergraduates within the university as well as individuals outside the university community. This hands-on, personalized sales approach significantly broadened our reach, allowing us to connect with a wider audience and make a meaningful contribution toward achieving our fundraising goals.

Wristband Selling Campaign

Beyond the significant success at the BMICH Shopping Festival, our Wristband Selling Campaign strategically leveraged multiple channels to maximize both reach and fundraising impact. A dedicated Google Form was published to facilitate online orders, allowing individuals from across the country to conveniently purchase wristbands. These orders were promptly fulfilled and delivered to customers' doorsteps via Sri Lanka Post, ensuring accessibility and efficiency.

To further engage the university community, we set up physical stalls within the University of Moratuwa, creating an on-campus sales hub that encouraged student involvement. Additionally, outreach efforts were extended to the Institute of Technology, University of Moratuwa (ITUM), where a dedicated Organizing Committee member coordinated and led wristband sales.

This multi-faceted approach not only broadened our audience but also played a crucial role in driving the success of our fundraising efforts, reinforcing the strong support behind "Hand in Hand."

T-Shirt Selling Campaign

To further expand our fundraising initiatives and amplify cancer awareness, "Hand in Hand" launched a dedicated T-Shirt Selling Campaign. A uniquely designed T-shirt was introduced, prominently featuring the "Hand in Hand" theme along with the impactful message "Support the fight against cancer" on the front, while proudly showcasing the University of Moratuwa name on the back.
The campaign was conducted primarily online, where pre-orders were efficiently collected through a Google Form.

Upon completion of the printing process, we ensured prompt delivery to customers who could not collect their orders in person, utilizing the trusted services of Sri Lanka Post.

This initiative not only allowed individuals to visibly express their support for our cause but also contributed meaningfully to our overall fundraising goals, with a total of 50 orders successfully placed.

Colours

The "Colours" project, a heartfelt initiative under the broader Hand in Hand campaign, was successfully held on February 21st, 2025, at CCC House, Maharagama. This project was thoughtfully designed to bring joy, hope, and emotional support to children battling cancer, recognizing that their struggles extend far beyond medical treatments. For these young warriors, cancer often means being confined to hospital environments, missing out on the simple joys of childhood. Colours aims to momentarily lift this burden by creating an atmosphere filled with laughter, creativity, and companionship.

Understanding that emotional well-being plays a crucial role in recovery, the project centered around engaging activities that allowed children to momentarily escape the stress of treatments. Whether through games, crafts, storytelling, or interactive performances, each element of the day was carefully curated to bring happiness and ease feelings of isolation. The event also fostered a sense of community among the children and their families, allowing them to connect with others who share similar experiences and challenges.

The driving force behind *Colours* was the dedicated team of Rotaractors from the University of Moratuwa, who gave their time and energy to create meaningful moments for the children. Their compassionate presence, cheerful engagement, and willingness to be part of each child's journey served as a powerful reminder that these children are not alone. The event not only left lasting memories but also reaffirmed our club's commitment to spreading compassion, resilience, and solidarity.

Ultimately, Colours was more than just a day of celebration, it was a testament to the strength of these young fighters and the power of human connection. It showcased how small acts of kindness can brighten lives and contribute to healing in ways that go beyond medicine.

Sago Donation

The Sago Donation project, carried out under the Hand in Hand initiative, was a heartfelt act of compassion aimed at supporting cancer patients at Apeksha Hospital, Maharagama. Conducted on April 12th, 2025, the project successfully reached 800 cancer patients, offering not only physical nourishment but emotional comfort as well. The donation consisted of sago, a soft, easily digestible, and nutritious food that is particularly suitable for individuals undergoing intensive medical treatments.

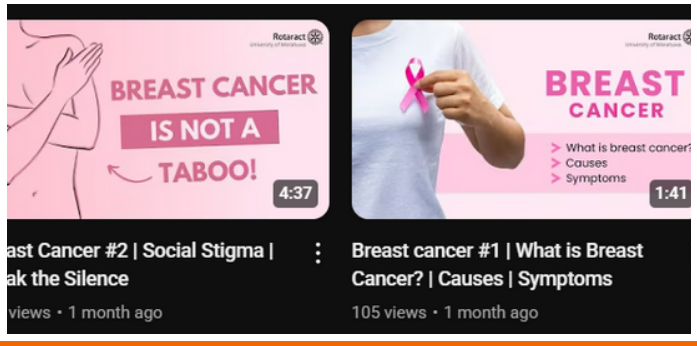

Recognizing the physical and emotional toll that cancer treatment imposes on patients, this initiative sought to ease their burden with a small yet meaningful gesture. Our team ensured the careful preparation and distribution of the sago, reflecting our commitment to dignity and respect in every act of service. It was not just about providing food—it was about sharing strength, love, and hope with those in a vulnerable stage of life.

The Sago Donation project stood as a testament to the power of empathy. It reminded us all that sometimes, the simplest actions—a warm meal, a gentle smile, or a thoughtful gift—can create moments of light in the midst of struggle. Through this initiative, Hand in Hand reaffirmed its mission to uplift and support cancer patients, one kind gesture at a time.

Cancer Awareness Campaign

The Cancer Awareness Campaign '25, a vital sub-initiative under Hand in Hand, is dedicated to educating the public on cancer prevention, early detection, and the importance of timely intervention. Recognizing that awareness is a powerful tool in the fight against cancer, the project takes a comprehensive approach by combining expert-led sessions with engaging digital content to reach a broad audience.

A highlight of the campaign was the Breast Cancer Awareness Session, held on October 30th, 2024, in observance of Pink October. This online Zoom session was conducted by Dr. J. Thujeevan, a respected registrar in surgery at the National Hospital, Colombo. The session targeted younger individuals who often overlook the risks of breast cancer and focused on early detection, recognizing symptoms, understanding risk factors, treatment options, and lifestyle modifications. The initiative empowered participants with actionable knowledge and encouraged open conversations about breast health.

To further enhance outreach, the campaign introduced a video series comprising six educational episodes. These videos, distributed widely through YouTube, Instagram, Facebook, and WhatsApp, covered key cancer types—breast cancer, lung cancer, and blood cancer. Each episode was designed to demystify cancer-related topics, addressing questions such as: What is cancer? How does it spread? What are the symptoms and causes? and What preventive measures can be taken? The content was curated to be clear, credible, and accessible to all, regardless of age or background.

In tandem with the video series, digital flyers summarizing each episode's key points were created and shared to reinforce the messages and serve as quick reference materials. By combining medical accuracy with user-friendly formats, the campaign ensured that vital information reached the public in an engaging and digestible manner.

Overall, the Cancer Awareness Campaign '25 played a pivotal role in cultivating a more informed and health-conscious community. It emphasized the life-saving importance of early detection and proactive health decisions, striving to reduce stigma, dispel myths, and build resilience in the face of cancer.

Equipment Donation

As the core activities of the project cycle came to a close, Hand in Hand successfully completed its final major donations in April and May 2025. Following the Sago Donation on April 12th, which provided nutritious support to 800 cancer patients, the team made a substantial contribution to the National Hospital in Galle on May 25th. This donation included essential medical equipment, such as a syringe pump, Accoson BP monitor, and pulse oximeter—along with crucial medicines, amounting to nearly Rs. 260,000.

Overall, Hand in Hand proudly raised over Rs. 500,000 in donations during this project cycle. These funds were effectively utilized across various impactful initiatives, including the Colours Project, the Sago Donation, and the critical medical equipment contribution. Each effort embodies our dedication to improving the quality of life for cancer patients and equipping them with vital resources throughout their treatment journey.

Though the specific plan to support Apeksha Hospital directly with this last donation did not materialize, the team's flexible approach ensured that vital aid reached patients at the National Hospital in Galle, reinforcing our commitment to serving those in need across multiple centers.

Beyond addressing immediate nutritional and medical needs, these initiatives foster a strong sense of community and compassion, providing comfort and support to patients and their families during challenging times. The collective efforts of volunteers, donors, and supporters demonstrate the powerful impact of kindness and unity in making a tangible difference in the lives of cancer patients.

The Hand in Hand initiative, led by the Rotaract Club of the University of Moratuwa, continues to stand as a beacon of hope and assistance, particularly for the paediatric patients at Apeksha Cancer Hospital, where economic hardships and the rigors of treatment create significant challenges. By offering financial aid and funding crucial amenities, such as patient lounges, playrooms, counselling, and support groups, Hand in Hand strives to bring dignity, care, and relief to those affected by cancer across Sri Lanka.

GRAMA PRABODHAYA

Date : 20th August 2024 - 31st May 2025
Chairpersons : Rtr. Shakil Ilham, Rtr. Ishara Dilshan, Rtr. Oshani Perera, Rtr.Vishmi Bulathasinhala, Rtr. Benadi Bawanya, Rtr. Nethmina Dissanayaka, Rtr. Natasha Gunathilaka, Rtr. Hiran Shanuka

Venue : Kirimatiyawa Village, Ambanpola Village, K/Embulgiriya Prathamika Vidyalaya, Abakolawewa Knishta Vidyalaya, MOH Abanpola, University of Moratuwa

At the heart of Grama Prabodhaya lies a deep-rooted commitment to uplifting rural communities in Sri Lanka that continue to face enduring socio-economic challenges. Often overlooked in national development, these villages are trapped in cycles of poverty, lacking access to essential services and opportunities. Grama Prabodhaya is not just about temporary aid—it envisions long-term, self-sustaining transformation where each village is empowered to thrive independently.

Each Grama Prabodhaya initiative begins with in-depth research and community engagement, ensuring every project aligns with the actual needs of the people. Whether it's infrastructure, education, healthcare, or livelihood support, every action is carefully crafted to spark meaningful and lasting change.

In 2025, Grama Prabodhaya focused its efforts on Kirimatiyawa and Ambanpola, two villages in the Kurunegala district, selected after extensive site visits and consultations with Rotaract members across districts such as Kurunegala, Anuradhapura, and Batticaloa. In addition to the villages, two rural schools : Abakolawewa Kanishta Vidyalaya and Embulgiriya Prathamika Vidyalaya were identified for targeted support.

Senehe Yathra

Senehe Yathra 2025 was a compassionate community service initiative organized with the primary aim of supporting pregnant and new mothers in vulnerable rural communities. Despite facing significant time and financial constraints, the project was successfully executed within just one month,

demonstrating the resilience, unity, and dedication of our team. This year, the village of Kirimatiyawa in the Kurunegala District was selected as the project location due to its high percentage of low birth weight babies , a serious indicator of maternal and child health challenges in the region.

Without any external sponsorship, the team mobilized internal resources through peer fundraising, student contributions, and the support of generous educators. Funds were used to purchase essential baby care items and nutritional dry rations from wholesale markets, which were then carefully packed into 23 individual parcels to be distributed to selected mothers. The project was implemented in collaboration with the MOH office of Ambanpola, where 15 pregnant women and 8 mothers of newborns received the aid.

In addition to the care packages, a JBL speaker was donated to the community, symbolizing our collective commitment to supporting their wellbeing in creative ways. The project concluded with a meaningful and emotional exchange between the volunteers and recipients, highlighting the impact even a modest gesture can make. Senehe Yathra 2025 stands as a testament to the transformative power of youth-led action, compassion, and community spirit, proving that impactful service can still be achieved despite adversity.

Aqua Safe

The Aqua Safe project, implemented on May 17th, was a targeted initiative aimed at solving a critical health and wellbeing issue at Embulgiriya Prathamika Vidyalaya, the lack of access to clean and safe drinking water for students. Before this project, students often had to rely on a single bottle of water brought from home to last them through an entire school day, which was both inadequate and unhygienic. This not only impacted their physical health but also hindered their concentration and academic performance.

To address this, the project introduced a Reverse Osmosis (RO) filtration system within the school premises. This advanced system now ensures a continuous supply of clean, safe drinking water for all students and staff. The initiative significantly reduces the risk of waterborne illnesses and promotes better hygiene and hydration habits among the children.

By fulfilling a basic yet vital need, Aqua Safe has made a direct and lasting impact on the school community. The project not only enhances students' health but also contributes to better attendance and improved learning outcomes. It stands as a powerful example of how addressing fundamental needs can create a ripple effect of positive change in the lives of young learners.

Intellect

The Intellect project was a two-day educational seminar series focused on enhancing mathematical proficiency among students preparing for the GCE Ordinary Level examinations. Conducted on March 1st and 2nd at Abakolawewa Kanishta Vidyalaya, the program was designed specifically for Grades 9, 10, and 11 students, addressing their academic needs in a rural setting where access to quality exam preparation is often limited.

With nearly 100 enthusiastic students in attendance, the sessions blended structured learning with interactive engagement. The seminar included simplified explanations of key mathematical concepts, collaborative discussions based on past and model exam papers, and practical, hands-on activities aimed at improving analytical thinking and problem-solving abilities. These elements not only helped demystify complex theories but also boosted the students' confidence and interest in the subject.

By providing a platform for meaningful learning, Intellect empowered students to better prepare for their examinations and approach mathematics with renewed enthusiasm. The project stands as a testament to the transformative power of educational outreach, helping bridge learning gaps and inspire academic growth in under-resourced communities.

Heta

HETA, held on March 1st, 2025, was a dynamic leadership development program conducted for Grades 9, 10, and 11 students at Abakolawewa Kanishta Vidyalaya. Rooted in the vision of nurturing the next generation of leaders, the project aimed to empower students by instilling vital leadership qualities, enhancing self-confidence, and developing soft skills essential for personal and academic growth.

The day-long program featured a series of interactive group activities designed to promote teamwork, critical thinking, and effective communication. Through these engaging tasks, students were encouraged to explore their potential, express their individuality, and learn the value of collaboration in achieving shared goals.

A key highlight of the program was the evening campfire session, which created a warm and reflective atmosphere. Students came alive through performances in singing, dancing, and team-based creative showcases, allowing them to express themselves freely and joyfully. Under the stars, the team facilitated casual yet meaningful discussions on leadership, encouraging students to reflect on how they can lead in their daily lives.

HETA was more than just a workshop, it was a transformative experience that sparked confidence, connection, and inspiration. The project left a lasting impression, building a sense of community, self-belief, and purpose among the participants, and reinforcing the importance of early leadership education in rural school environments.

Star Seekers

Star Seekers, conducted from the evening of May 17th to the morning of May 18th, was a captivating astronomy-themed camp organized for students of Embulgiriya Prathamika Vidyalaya, specifically targeting those in Grades 2 to 5. The initiative was designed to ignite scientific curiosity and a sense of wonder in young minds by offering them a rare opportunity to explore the night sky through guided stargazing and interactive learning.

The event witnessed an enthusiastic turnout, with approximately 50 students and around 100 local civilians participating. The camp featured a variety of engaging, child-friendly activities related to astronomy and space science. These were paired with live observation sessions, allowing attendees to witness celestial bodies through telescopes. A standout moment of the evening was the sighting of a meteor, which thrilled participants and made the experience truly unforgettable.

More than just an educational event, Star Seekers also served as a platform for community bonding, bringing together students, their families, and local residents to collectively share in the awe of the cosmos. The event successfully combined education, exploration, and entertainment, making astronomy approachable and inspiring for young learners. By bridging the gap between classroom learning and real-world experiences, the project planted seeds of curiosity that may one day grow into a deep-seated passion for science and discovery.

Akuru

The ‘Akuru’ project, carried out on May 17th, was a significant book donation initiative focused on enhancing the educational infrastructure of Abakolawewa Kanishta Vidyalaya. Understanding the profound impact a well-stocked library can have on a student’s academic journey and love for reading, the project aimed to address the school’s pressing need for better literary resources. Through a coordinated effort, the team successfully collected and donated approximately 2000 books, marking a transformative step in enriching the school's learning environment.

The books donated represented a wide spectrum of subjects, genres, and difficulty levels, ensuring inclusivity and relevance for students across multiple grade levels. From educational texts to storybooks and general knowledge materials, the collection was curated to stimulate interest, promote reading habits, and support the academic curriculum.

Beyond simply increasing the quantity of books, Akuru aspired to cultivate a culture of reading, encouraging students to discover joy and knowledge through books. It empowered students to engage in self-learning, broaden their horizons, and develop essential literacy skills. The initiative contributes meaningfully to bridging educational inequalities faced by rural schools and reflects the deep commitment of youth-led service to long-term educational upliftment. The success of Akuru highlights how targeted, community-driven actions can leave a lasting imprint on the lives and futures of young learners.

Sihina

The ‘Sihina’ project, held on May 17th, was a dedicated career guidance program aimed at supporting grade 10 and 11 students, as well as recent GCE O/L graduates in the village. At a pivotal moment in their academic journeys, many of these students face uncertainty about their future career paths and educational opportunities. The program sought to address this by providing valuable insights and broadening their understanding of diverse career options beyond traditional roles. Around 60 students actively engaged in the one-day event, which featured interactive sessions, discussions about various professions, and guidance on higher education pathways.

The project also facilitated opportunities for students to connect with professionals from different industries, offering real-world perspectives. The primary goal of Sihina was to empower these young individuals with the knowledge and confidence needed to make informed decisions about their futures, encouraging them to explore careers aligned with their passions and strengths. By challenging conventional expectations and inspiring ambition, the initiative plays an important role in fostering personal growth, long-term success, and socio-economic development within the community.

The GramaPrabodhaya project stands as a powerful and multifaceted community development initiative that has profoundly impacted the lives of rural students and families across multiple dimensions. Through a diverse range of carefully tailored sub-projects ranging from essential health support in Senehe Yathra, access to clean water via Aqua Safe, educational enrichment in Akuru, to inspiring future leaders with Heta and sparking curiosity in science with Star Seekers, this comprehensive effort has addressed critical needs and nurtured holistic growth within the community. The project's emphasis on education, health, leadership, and empowerment reflects a deep commitment to fostering sustainable progress, enhancing opportunities, and improving quality of life for all participants. Despite facing challenges such as limited resources and tight timelines, the unwavering dedication of volunteers, students, and community members has demonstrated the extraordinary impact of collective action and student-led initiatives. GramaPrabodhaya not only bridges gaps in infrastructure and knowledge but also ignites hope, ambition, and resilience, laying a strong foundation for a brighter, more empowered future for the rural communities it serves.

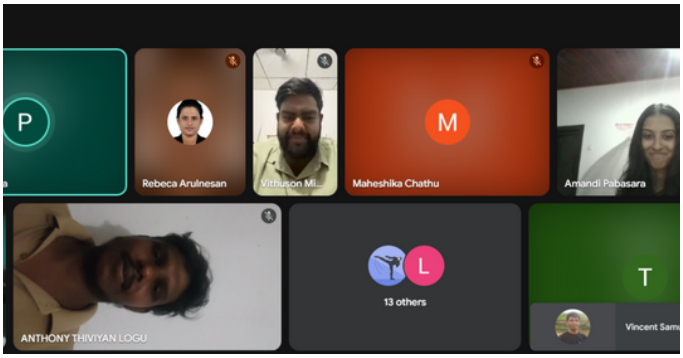

CONNECTING THE DOTS

Date : 14th September 2024 - 25th May 2025
Chairpersons : Rtr. Sayuranga Liyanage , Rtr. Oshadi Liyanage, Rtr. Ashan Bandara, Rtr.Thulani Thehara
Venue : via Zoom, Prince Of Wales College - Moratuwa.
Secondary Avenue : N/A

Connecting the Dots is a unifying initiative by the Rotaract Club of University of Moratuwa that aims to promote peace, unity, and coexistence among Sri Lanka's diverse ethnic and cultural communities. Rooted in the values of empathy and inclusivity, the project aligns with the Sustainable Development Goals (SDGs) and supports three of Rotary's main focus areas: peacebuilding and conflict prevention, basic education and literacy, and community economic development.

By fostering meaningful dialogue and collaboration across different communities, the project aspires to bridge gaps between Sri Lankan youth and build lasting friendships. The initiative is implemented through two impactful subprojects: Vanakkam and Sabandi, each focusing on a unique aspect of social connection and development.

Vanakkam

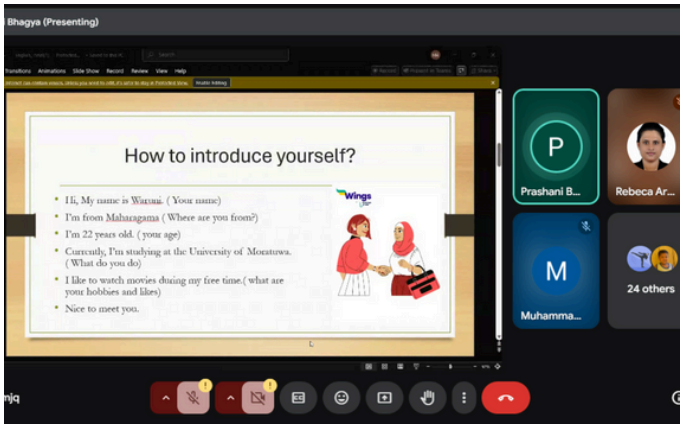

Vanakkam is a transformative project launched by the Rotaract Club of University of Moratuwa in collaboration with the Global Shapers Foundation, designed to empower undergraduates through the development of spoken English skills. The name "Vanakkam," a Tamil greeting that symbolizes respect and warmth, perfectly captures the project's mission to foster connection and inclusivity through communication.

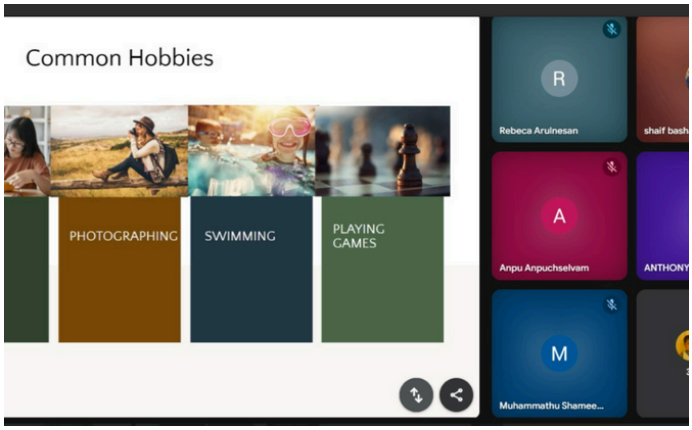

In Sri Lanka, language proficiency,particularly in English, often intersects with access to education, job opportunities, and self-expression. Many students, especially from underrepresented communities, face challenges in confidently using spoken English, which can restrict their academic and professional growth.

Understanding this, Vanakkam created a safe, inclusive platform for language learning aimed at bridging this gap. The project was structured as a multi-session online course that emphasized practical, real-world English communication. Participants engaged in lessons covering topics such as self-introduction, ordering food, casual conversations, and professional communication skills including CV writing. The sessions used a variety of interactive methods such as role plays, group discussions, and live tutor-led interactions, making the experience engaging and effective.

A passionate team of student volunteers took on diverse roles, from tutors and content creators to organizers and public relations leads , ensuring the program was vibrant, participant-focused, and well-managed. The inclusive environment encouraged learners to speak freely without fear of judgment, fostering confidence as they improved fluency and pronunciation over time.

The impact of Vanakkam extended beyond language acquisition; it built a supportive community where participants felt empowered to express themselves and connect with peers from various backgrounds. Certificates of participation were awarded to celebrate their achievements and motivate continued practice.

The program culminated in a warm farewell, highlighting Vanakkam not just as a language course but as a movement to uplift youth through education, communication, and connection.

Sabandi

Sabandi, meaning “connection,” is a heartfelt community service project by the Rotaract Club of University of Moratuwa aimed at fostering unity, mutual respect, and coexistence among Sri Lanka’s diverse youth. Recognizing the divisions often reinforced by ethnicity, religion, and tradition—particularly visible in segregated school systems—Sabandi sought to create a shared space for understanding and friendship.

The project took place at Prince of Wales College, Moratuwa, bringing together students from different religious and ethnic backgrounds, including Sinhala, Tamil, Muslim, and Roman Catholic schools from the local area. Participating schools included Ratmalana Hindu College, Prince of Wales College (Muslim and Catholic streams), and Moratuwa Maha Vidyalaya.

The core of the project was an engaging Robotics and Internet of Things (IoT) workshop organized in partnership with the Artificial Intelligence Department of the Faculty of Information Technology, University of Moratuwa.

Undergraduates from this department served as resource persons and mentors, sharing their expertise and inspiring curiosity about technology. The workshop featured a blend of theoretical concepts and practical activities that introduced the young participants to cutting-edge tech in an accessible way.

To encourage collaboration and break down social barriers, students were intentionally grouped to mix diverse backgrounds. Their first activity involved visually expressing what “robotics” meant to them, resulting in imaginative group drawings that sparked conversations about innovation and societal impact.

Throughout the day, students participated actively, absorbing knowledge and working together on hands-on sessions about IoT devices and robotics applications. This experience was not only educational but also fostered empathy, teamwork, and intercultural dialogue among participants.
At the event’s conclusion, a feedback session allowed students to express their reflections and feelings, revealing the positive impact on their understanding of different communities and technologies. Certificates of participation were awarded, symbolizing both their learning and the success of Sabandi’s mission.

Sabandi stands as a powerful example of how education, technology, and intentional social interaction can build bridges among youth, planting seeds of harmony for a more inclusive Sri Lanka.

NENA ARUNA

Date : 14th September 2024 - 20th April 2025
Chairpersons : Rtr.W.S.L.R. Perera , Rtr. W.V.C. Gunathilaka, Rtr. Kusal Pabasara, Rtr.Ravindu Vidushan
Venue : Schools in Anuradhapura, Colombo, Galle, Gampaha, Hambantota, Kalutara, Kegalle, Matale, Polonnaruwa, and Ratnapura, via Online

The Nena Aruna 24/25 initiative was launched as a comprehensive educational outreach program aimed at supporting students sitting for the 2024/2025 GCE Ordinary Level (O/L) examinations in Sri Lanka. Originally conceptualized as a series of physical seminars, the program quickly evolved into a multi-phased academic support system based on the overwhelming success and feedback received from early sessions. Its primary objective was to offer in-depth academic consultation and motivational guidance, helping students prepare more effectively for their exams. Over the course of the project, a total of 32 educational sessions were conducted, directly impacting more than 3,000 students across 51 schools in 10 districts: Anuradhapura, Colombo, Galle, Gampaha, Hambantota, Kalutara, Kegalle, Matale, Polonnaruwa, and Ratnapura.

The success of Nena Aruna was powered by a dedicated team of undergraduate tutors from the University of Moratuwa. These tutors not only shared academic knowledge but also served as role models, using their own life experiences to motivate and connect with the students on a personal level. The initiative's strength lay in its adaptability, expanding to include online platforms based on student needs and feedback. Whether through physical seminars or online sessions, the program ensured that quality education reached even the most remote parts of the island, offering inclusive and student-centered learning experiences. The collaborative spirit of students, teachers, parents, and university undergraduates made Nena Aruna a beacon of hope and inspiration for many young learners across the country.

Paper Discussion - Physical

The first sub-phase of the initiative, Physical Paper Discussions, aimed to provide students with focused and interactive academic support by engaging them in thorough discussions of past O/L exam papers. These sessions were guided by experienced facilitators who simplified complex subject areas and created a dynamic space for student interaction. The initial two sessions, held at Prince of Wales' College in Colombo on January 3, 2025, and Peellawatta David De Silva Kanishta Vidyalaya in Gampaha on January 9, 2025, marked the beginning of this hands-on academic engagement. These discussions primarily focused on Mathematics and Science, subjects that many students found challenging. By demystifying difficult concepts and encouraging open dialogue, these sessions built a strong foundation of understanding and confidence among participants.

Online Kuppiya

To ensure continuity and expand reach, the program transitioned into its second sub-phase: Nena Aruna Online Kuppiya.

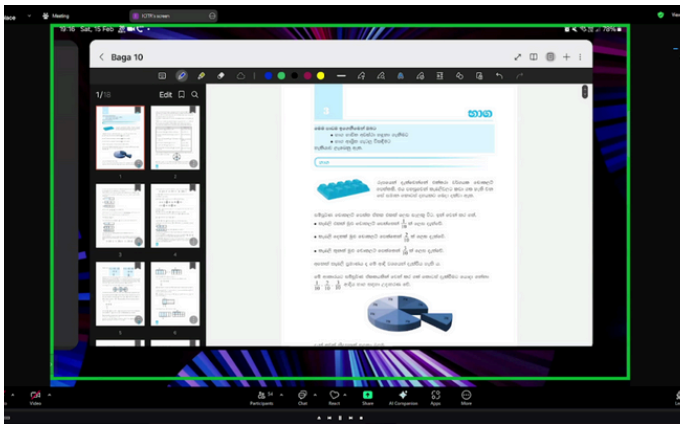

This phase consisted of 25 virtual learning sessions, strategically designed to replicate the effectiveness of the physical sessions. The online platform enabled greater flexibility, allowing students to learn at their own pace while managing their busy schedules. Students could invite peers from other schools and access sessions without the logistical burden of travel. These sessions included structured lesson plans, live Q&A interactions, and comprehensive content coverage for O/L Mathematics and Science. The use of innovative teaching techniques—such as storytelling, gamified quizzes, and real-life exam strategies—helped students internalize knowledge more effectively. Frequent feedback mechanisms allowed tutors to address individual weaknesses, fine-tune lesson plans, and personalize instruction for optimal impact.

Hari Paara

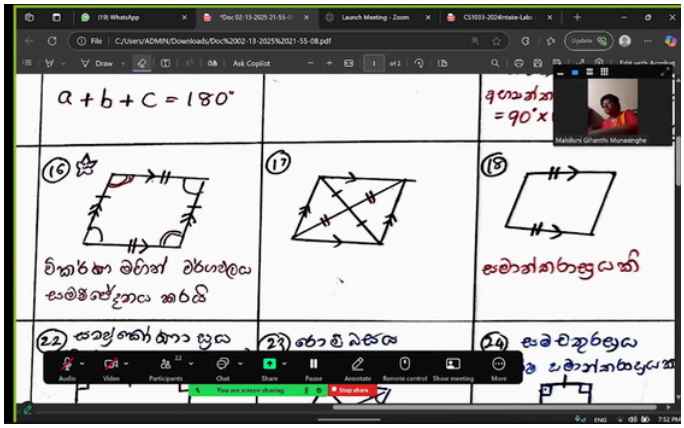

The third and final sub-phase of the Nena Aruna program, titled Hari Paara, focused on providing students with comprehensive guidance in selecting Advanced Level (A/L) subjects and mapping out future career paths. This phase acknowledged that academic success at the O/L level is only one part of a student's journey, and that informed decisions post-O/L are crucial for long-term educational and professional outcomes. A total of seven Hari Paara sessions were conducted, featuring expert-led presentations, interactive workshops, and one-on-one counseling opportunities.

These sessions addressed a wide spectrum of topics including the differences between subject streams, how to align subjects with career aspirations, university admissions processes, and opportunities for scholarships and vocational training.

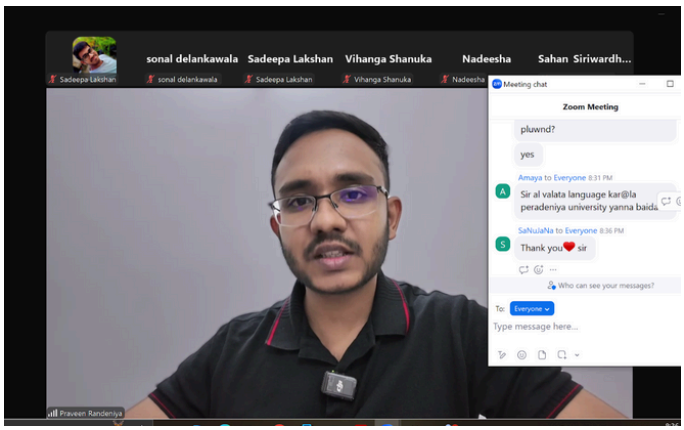

Students were encouraged to reflect on their personal interests, strengths, and long-term goals. The interactive nature of the sessions made them highly engaging and valuable, as students felt heard and supported. Recognizing the stress and anxiety students often face during this transitional phase, Hari Paara also incorporated motivational elements and stress-management tips, fostering both confidence and clarity. The success of this sub-phase further reinforced the holistic approach of the Nena Aruna initiative—ensuring not just academic excellence, but also personal development and informed future planning.

The Nena Aruna 24/25 program concluded with immense appreciation and heartfelt recognition from students, parents, and schools across the country. Its success was rooted in its adaptability, its empathetic and student-centric approach, and the passion of the undergraduate tutors who served as both educators and mentors. Through its three-tiered structure—paper discussions, online learning, and career guidance—the program addressed every critical stage of a student's O/L journey. It transformed perceptions of Mathematics and Science, instilled motivation and self-belief, and laid the groundwork for future academic and career success.

One of the program's most transformative impacts was the shift in student attitudes. Many students who previously felt discouraged about Mathematics and Science developed newfound confidence, often remarking that they now found these subjects enjoyable and manageable. The interactive nature of the sessions, including games, quizzes, and personal stories from university life, helped foster a strong sense of community and belonging among participants. As exam dates approached, the program intensified efforts with daily sessions, reinforcing content and motivation at a crucial time.

MANUSATH HANDA

Date : 02nd October 2024 - 11th March 2025
Chairpersons : Rtr. Pipuni Promoda , Rtr. Ravindu Wijesiri, Rtr. Chathulya Kisagothami
Venue : via Zoom, Rathmalana Blind School
Secondary Avenue : N/A

Manusath Handa is the flagship community service initiative of the Rotaract Club of the University of Moratuwa, dedicated to empowering visually impaired students through innovative educational resources and personal development opportunities. The project's core mission is to ensure equal access to education, helping students overcome traditional barriers and achieve both academic success and personal growth.

Recognizing the challenges faced due to limited access to conventional learning materials, Manusath Handa develops audio-based resources tailored for O/L and A/L students, including recordings of past exam papers, novels, articles, and stories. These materials make learning more accessible and engaging, enhancing exam preparation and broadening knowledge. For younger students in Grades 3, 4, and 5, the project emphasizes leadership development by organizing camps and activities focused on building confidence, teamwork, and leadership skills.

All activities are held at Rathmalana Blind School, where the project leverages technology and community participation to foster inclusivity and independence.

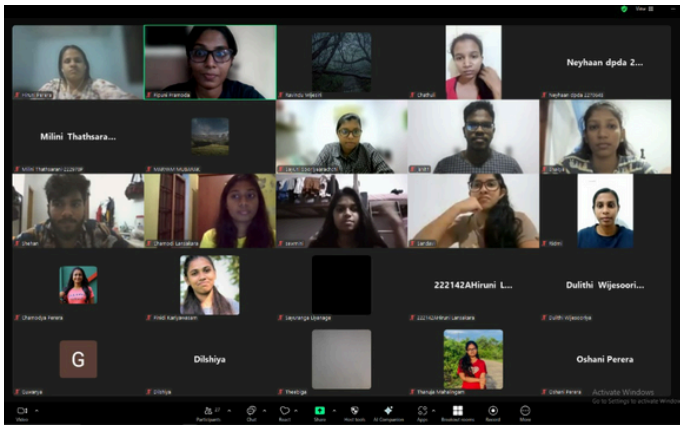

By doing so, Manusath Handa creates an empowering environment that enables visually impaired students to thrive throughout their educational journeys.
The initiative benefits a broad range of stakeholders. Visually impaired O/L and A/L students gain vital academic support through accessible learning materials, while younger students develop crucial life skills that prepare them for future success. The Rathmalana Blind School receives customized resources and programs that enrich both education and personal development. Meanwhile, volunteers and Rotaractors acquire valuable experience in community service, teamwork, and project management while making a meaningful contribution. The broader community also benefits by embracing inclusivity and supporting equal opportunities for visually impaired individuals, promoting a more equitable society.

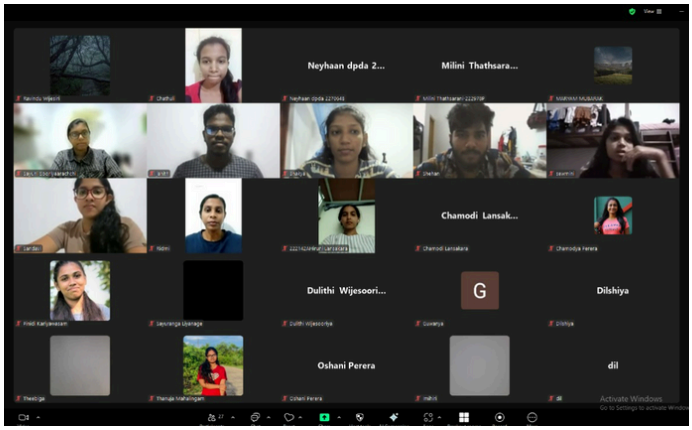

ScriptWriting Phase

Script Writing is a vital sub-phase of the Manusath Handa project, focused on creating high-quality, accessible content for audio recordings that support visually impaired O/L and A/L students. Conducted from December 13, 2024, to January 17, 2025, this phase involved dedicated Rotaractors and volunteers who prepared scripts based on 2022–2024 past examination papers across all relevant subjects. This ensured that the material was academically relevant and aligned with exam preparation needs.

Beyond exam content, the team enriched the scripts with novels, articles, magazines, and short stories to foster intellectual growth, critical thinking, and a genuine love for learning. The script-writing process was collaborative and meticulous, prioritizing accuracy, clarity, and well-organized structure. Each script included questions, answers, and detailed explanations, while non-academic content provided engaging, age-appropriate literature and current affairs information.

This diverse and thoughtfully crafted content significantly reduced reliance on printed materials and laid the groundwork for the next sub-phase, Voice Donation by enabling the production of clear and engaging audio recordings that benefit visually impaired students academically and recreationally.

Voice Donation Phase

The Voice Donation sub-phase converted the carefully prepared scripts into audio recordings, making educational content accessible to visually impaired students. Running from October 25, 2024, to January 28, 2025, this phase involved dedicated volunteers—including Rotaractors and students—who narrated the scripts with clear pronunciation and a natural, easy-to-understand tone.

Using a hybrid approach, recordings were made via Zoom in real-time sessions and also directly uploaded through the Manusath Handa website , fostering convenience and inclusivity. The audio content included O/L and A/L past examination papers as well as novels, articles, and stories, providing both academic support and enriching recreational materials.

All recordings were compiled into a centralized digital library accessible to students at Rathmalana Blind School and beyond. This initiative leveraged volunteer enthusiasm and technology to significantly enhance educational resources and opportunities for visually impaired learners.

Leadership Campaign

Held on March 11, 2025, at Rathmalana Blind School, the Leadership Campaign was a pioneering one-day camp designed for younger visually impaired students in Grades 3, 4, and 5. This initiative aimed to foster confidence, teamwork, and logical thinking through a variety of engaging activities.

he camp included team-building exercises such as group challenges and games that encouraged collaboration and peer bonding. Logical thinking was stimulated with puzzles and problem-solving tasks that promoted creativity and critical thinking. A talent showcase allowed students to present skills like singing and storytelling, boosting their self-esteem and providing a platform for self-expression.

The day concluded with a musical event, creating an inclusive and joyful environment. Facilitated by volunteers and Rotaractors, the campaign offered a memorable experience for students and deepened the facilitators' understanding of the challenges faced by visually impaired individuals, reinforcing their dedication to community service.

ANDURATA ATHWELAK

Date : 24th November 2024 - 10th April 2025
Chairpersons : Rtr. Dinura Jayawardhana, Rtr. Sanduni Chamodya
Venue : One Galle Face, University of Moratuwa
Secondary Avenue : N/A

Andurata Athwelak is a heartfelt and holistic social initiative designed to uplift the visually impaired community through emotional expression, public recognition, and economic empowerment. Recognizing the resilience and potential of visually impaired individuals, the project aimed to bridge the gap between society and this often-underrepresented group by fostering meaningful engagement and challenging societal perceptions. Rooted in empathy, creativity, and purpose, Andurata Athwelak focused on creating platforms that showcase talent and enable financial independence. By emphasizing ability over disability, the project sought to promote inclusion and dignity for all. It was structured around two impactful sub-projects : Unseen Harmonies and See Beyond Marke, each addressing different yet complementary needs of the community, ultimately working together to create lasting change.

Unseen Harmonies

Unseen Harmonies was a deeply moving musical initiative developed to highlight the emotional and artistic talents of the visually impaired community while fostering social inclusion and awareness. Taking place on December 22, 2024, at One Galle Face Mall—one of Sri Lanka's premier public venues—this sub-project featured a group of visually impaired individuals performing traditional Christmas carols to a large, diverse audience during the festive season. The event was strategically timed and located to maximize visibility, create public engagement, and amplify the voices of those often overlooked in mainstream society.

The primary objective of Unseen Harmonies was to challenge societal perceptions by emphasizing the performers' capabilities rather than their disabilities. It sought to create a platform for emotional expression, enabling the visually impaired to connect with the public not just as recipients of charity, but as artists who have something meaningful to share. Their music served as a universal language—one that transcended barriers and fostered a shared human experience.

The event was organized in collaboration with Global Shapers Colombo, whose partnership brought credibility, resources, and a wider reach to the initiative. Public response was overwhelmingly positive, with generous donations amounting to Rs. 25,000 collected during the event. These funds, along with donations from the Rotaract Club of University of Moratuwa and Global Shapers, were distributed among the performers as a gesture of appreciation and support.

Beyond the immediate financial benefit, the event left a lasting emotional impact. Many audience members expressed admiration and a newfound respect for the performers, and the participants themselves reported increased confidence and motivation to continue nurturing their artistic abilities. Unseen Harmonies thus became not only a moment of festive celebration but also a milestone in advancing inclusion, compassion, and recognition for the visually impaired.

See Beyond The Market

See Beyond Market was an empowering entrepreneurial initiative designed to provide visually impaired individuals with a platform to exhibit and sell their handcrafted products, thereby promoting their financial independence and societal integration. Conducted on April 3, 2025, at the University of Moratuwa, the event transformed the university grounds into a lively and inclusive market space. Visually impaired entrepreneurs, many of whom possess vocational skills but lack access to traditional markets, set up individual booths to display and sell items such as candles, incense sticks, brooms, and other locally crafted goods.

This initiative responded to a core challenge: despite having valuable skills, many visually impaired individuals are unable to reach mainstream consumers due to mobility restrictions, lack of digital presence, and limited visibility in economic spaces. See Beyond Market aimed to bridge this gap by connecting them directly with a diverse audience that included students, faculty, staff, and other visitors. By enabling face-to-face interaction, the market allowed buyers to appreciate not only the products but also the personal stories, effort, and dedication behind each item.

The initiative also served as a powerful awareness-building tool, helping the university community recognize the talent and resilience of visually impaired entrepreneurs. Visitors to the market were often surprised by the quality and craftsmanship of the products, which helped challenge the misconception that disability equates to dependency or lower quality output. These positive interactions helped foster empathy and support within the academic community.

From the participants' perspective, the event was more than just a marketplace. It was a source of pride and a significant boost in confidence. Managing stalls, interacting with customers, and making sales helped them gain practical experience in business, build networks, and consider entrepreneurship as a sustainable livelihood. Many expressed interest in continuing or expanding their ventures, inspired by the encouragement they received.

See Beyond Market promoted the principle of inclusive commerce a belief that everyone, regardless of ability, should have equal access to economic opportunities. The event stood as a vibrant example of how society can be reimagined to support diversity and equity in meaningful, action-driven ways.

PUNCHI RASATA – RASA PADAMATA

Date : 17th December 2024 - 19th January 2025
Chairpersons : Rtr. Hasarangi Withanawasam
Venue : LOLC Child Care Center, Madiwela
Secondary Avenue : N/A

The community service initiative "Punchi Rasta Rasa Padamata" organized meals for LOLC Child Care Center children through a program that combined healthy nutrition with enjoyable dining experiences. Interactive sessions that allowed children to actively participate in meal preparation instead of basic food service were developed where they received their lunch before participating in a practical meal preparation session during which they made burgers and mocktails for tea time.

Project sponsor, Sumbal Surf donated all necessary ingredients and materials for meal preparation through and provided support to children who assembled the burgers. They were given the freedom to choose their preferred fillings vegetarian, egg, or chicken allowing them to personalize their snacks as they liked. Some children expressed their dislike towards certain ingredients like carrots and cabbages but encouragement were given by their friends through teachings about the nutritional value of those ingredients.

This collaborative process fostered teamwork and allowed them to make meals while learning about the importance of balanced nutrition. The preparation process was a meaningful experience for the team as it provided an opportunity to contribute beyond just serving food.

The initiative's main purpose included serving meals while simultaneously creating an enjoyable emotional environment. The project obtained musical instruments to conduct a singing session with students. The unplanned musical exchange between the children created an additional sense of excitement that made this experience more remarkable for everyone involved. The activity fostered active involvement to enable children to join in and actively participate in an energetic way.

In addition to providing food, the aim of this project was to create a positive and enjoyable atmosphere. Hence musical instruments were obtained to conduct a singing session with the children. The unplanned musical exchange created an additional sense of excitement that made this experience more remarkable for everyone involved. Thus the project's purpose was to foster happiness and social connection among children while addressing both their nutritional and emotional needs was established.

HOPE4HEARTS

Date : 01st May 2025 - 30th May 2025
Chairpersons : Rtr. Sahan Siriwardhana
Venue : University of Moratuwa
Secondary Avenue : N/A

Hope4Hearts is a meaningful fundraising initiative launched by the Rotaract Club of the University of Moratuwa, driven by compassion and a deep sense of responsibility toward children suffering from congenital heart disease. These young lives face serious heart conditions requiring urgent medical intervention, but in Sri Lanka, many endure long waiting periods for surgery, and the high costs often place an unbearable burden on their families.

Recognizing this critical need, our club helped the Rotary's Little Hearts Project to launch Hope4Hearts, with the mission to raise vital funds and increase public awareness. Central to our efforts was the sale of thoughtfully designed stickers, each symbolizing a heartbeat we hoped to heal. These stickers were more than decorative items; they embodied kindness, solidarity, and hope.

Beyond fundraising, our volunteers actively engaged the university community by sharing heartfelt stories and educating students from all faculties about the challenges these children face. This initiative nurtured empathy and compassion, inspiring a collective spirit of care and support throughout the campus.

Every sticker purchased represented a small but powerful act of kindness, a promise to help and a beacon of hope. Together, we created an impact far greater than any individual effort could achieve, proving that even amidst busy academic lives, we can make a meaningful difference.

Through Hope4Hearts, we didn't just raise funds; we raised awareness, gave voice to a critical cause, and fostered hope for the future. When we handed over the collected donations to support these children, we knew we were contributing to something truly transformative,saving lives and strengthening the power of human kindness.

ROTARY FOCUS AREAS AND SDGS COVERED

Project Name	SDG	Rotary Focus Areas
Hand In Hand	• 3.4 Reduce mortality from non-communicable diseases and promote mental health. • .8 Achieve universal health coverage. • 17.17 Encourage effective partnerships.	• Basic Education and Literacy • Maternal and Child Health • Disease Prevention and Treatment

The "Hand in Hand" initiative successfully advanced SDG 3.4 and 3.8 by providing critical support to cancer patients through fundraising, medical donations, and emotional care, while its comprehensive cancer awareness campaigns promoted health education aligned with the Basic Education and Literacy focus area. By collaborating with hospitals, healthcare professionals, volunteers, and the wider community, the project fostered strong partnerships in line with SDG 17.17, creating a multi-dimensional effort that reduces disease burden, enhances mental well-being, and strengthens health coverage for vulnerable populations in Sri Lanka.

Project Name	SDG	Rotary Focus Areas
Hope4Hearts	• 3.2 End all preventable deaths under 5 years of age. • 3.4 Reduce mortality from non-communicable diseases and promote mental health.	• Maternal and Child Health • Disease Prevention and Treatment

The Hope4Hearts initiative significantly contributed to SDG 3.2 by supporting efforts to end preventable deaths of children under five suffering from congenital heart disease through urgent medical aid. It also aligns with SDG 3.4 by promoting mental health and well-being among affected families. Under the Rotary's focus areas of Maternal and Child Health and Disease Prevention and Treatment, this project combined fundraising, awareness, and community engagement to reduce the health burden on vulnerable children. By educating and involving the university community, Hope4Hearts fostered empathy and strengthened collective action toward saving young lives and improving child health outcomes in Sri Lanka.

Project Name	SDG	Rotary Focus Areas
Grama Prabodhaya	1.4 Equal rights to ownership, basic services, technology and economic resources. 1.5 Build resilience to environmental, economic and social distances. 1.6 Mobilize resources to implement policies to end poverty. 2.1 Universal access to safe and nutritious food. 2.2 End all forms of malnutrition. 3.1 Reduce maternity mortality. 3.2 End all preventable deaths under 5 years of age. 3.4 Reduce mortality from non-communicable diseases and promote mental health. 4.2 Equal access to qualify pre-primary education. 4.3 Equal access to affordable technical, vocational, and higher education. 4.4 Increase the number of people with relevant skills for financial success. 4.5 Eliminate all discrimination in education. 6.1 Safe and affordable drinking water. 6.2 End open defecation and provide access to sanitation and hygiene. 6.3 Improve water quality, wastewater treatment and safe reuse. 6.5 Implement integrated and water resources management. 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy • Maternal and Child Health • Water and Sanitation • Disease Prevention and Treatment

Grama Prabodhaya advances Economic and Community Development by mobilizing local resources and encouraging partnerships (SDG 1.5, 1.6, 17.17), fostering resilience and poverty reduction through youth-led initiatives like Senehe Yathra. It supports Basic Education and Literacy (SDG 4.2, 4.3, 4.4, 4.5) with projects such as Intellect, Akuru, and HETA, which improve access to quality education, skills development, and leadership training in rural schools. The focus on Maternal and Child Health (SDG 3.1, 3.2, 2.1, 2.2) is realized through Senehe Yathra, which supplies nutritional aid and essential baby care, targeting vulnerable mothers and newborns to reduce mortality and malnutrition. The Aqua Safe initiative addresses Water and Sanitation (SDG 6.1, 6.2, 6.3) by providing safe drinking water and promoting hygiene among students. Finally, the project's health awareness and support activities contribute to Disease Prevention and Treatment by reducing risks related to waterborne diseases and malnutrition.

Collectively, these efforts embody the Rotaract Focus Areas and Sustainable Development Goals by delivering sustainable, grassroots empowerment that transforms rural Sri Lankan communities.

Project Name	SDG	Rotary Focus Areas
Connecting The Dots	• 4.1 Free primary and secondary education. • 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 4.5 Eliminate all discrimination in education. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy • Peace and Conflict Prevention/Resolution

Connecting the Dots, led by the Rotaract Club of University of Moratuwa, supports key SDGs and Rotary Focus Areas by promoting peace, education, and inclusion. Vanakkam enhanced spoken English skills among undergraduates, addressing SDGs 4.3, 4.4, and 4.5, while advancing Basic Education and Literacy. Sabandi united students from diverse backgrounds through a robotics workshop, fostering mutual respect and understanding, aligning with Peace and Conflict Prevention and SDGs 4.1 and 17.17. Together, both projects built bridges across communities and empowered youth for a more inclusive Sri Lanka.

Project Name	SDG	Rotary Focus Areas
Nena Aruna	• 4.1 Free primary and secondary education. • 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 4.5 Eliminate all discrimination in education. • 8.6 Promote youth employment, education and training. • 10.3 Ensure equal opportunities and end discrimination.	• Economic and Community Development • Basic Education and Literacy

The Nena Aruna initiative effectively contributed to several Sustainable Development Goals (SDGs) and Rotary Focus Areas (RFAs) through its well-structured, inclusive educational outreach. By supporting over 3,000 O/L students across 10 districts, the project directly addressed SDG 4.1 (free primary and secondary education), 4.3 (equal access to quality technical and vocational education), 4.4 (skills for employment), 4.5 (eliminate gender disparities in education), 8.6 (promote youth employment and career guidance), and 10.3 (ensure equal opportunities and reduce inequalities). It also aligned with Rotary's Areas of Focus on Basic Education and Literacy and Economic and Community Development. These goals were achieved through three key phases: Paper Discussions, offering in-person academic support; Online Kuppiya, delivering 25 interactive virtual sessions led by undergraduates; and Hari Paara, guiding A/L subject selection and career planning. This blended learning approach ensured equitable access, built academic confidence, and empowered students to make informed decisions, fostering a more inclusive and educated society.

Project Name	SDG	Rotary Focus Areas
Manusath Handa	• 4.1 Free primary and secondary education. • 4.5 Eliminate all discrimination in education. • 4.8 Build and upgrade inclusive and safe schools. • 10.2 Promote universal social, economic and political inclusion. • 10.3 Ensure equal opportunities and end discrimination.	• Economic and Community Development • Basic Education and Literacy

Manusath Handa successfully addressed several Sustainable Development Goals (SDGs) and Rotary's focus areas by promoting inclusive education for visually impaired students. By providing free audio-based learning materials, it supported SDG 4.1 (free primary and secondary education) and 4.5 (eliminating discrimination in education). The project enhanced the learning environment at Rathmalana Blind School, aligning with SDG 4.a (inclusive and safe schools). Leadership development activities empowered younger students, promoting SDG 10.2 (social inclusion) and 10.3 (equal opportunities). Overall, the initiative advanced Rotary's Basic Education and Literacy and Economic and Community Development focus areas.

Project Name	SDG	Rotary Focus Areas
Punchi Rasata - Rasa Padamata	-	-

The Punchi Rasta Rasa Padamata project was a successful community service event that combined nutritious meal provision with fun, hands-on activities for children at the LOLC Child Care Center. Rather than simply serving food, the children actively participated in preparing burgers and mocktails, fostering teamwork and personal choice in their meals. The addition of an impromptu singing session created a joyful and engaging atmosphere, enhancing social connection and emotional well-being. This holistic approach made the event memorable and meaningful for everyone involved, achieving its goal of nurturing both the physical and emotional needs of the children.

Project Name	SDG	Rotary Focus Areas
Andurata Athwelak	• 1.4 Equal rights to ownership, basic services, technology and economic resources. • 8.5 Full employment and decent work with equal pay. • 10.2 Promote universal social, economic and political inclusion. • 11.7 Provide access to safe and inclusive green and public spaces. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy

The Andurata Athwelak initiative successfully achieved key Sustainable Development Goals and Rotary Focus Areas by fostering equal rights, inclusion, and empowerment for the visually impaired community. It addressed SDG 1.4 by promoting access to economic resources and basic services through the See Beyond Market, which provided a safe, inclusive space for visually impaired entrepreneurs to showcase and sell their handcrafted products, supporting their financial independence and employment opportunities (SDG 8.5). The project advanced SDG 10.2 by actively promoting social and economic inclusion, breaking down barriers of stigma and exclusion through public engagement events like Unseen Harmonies held in a prominent public venue (SDG 11.7). Additionally, strong partnerships with organizations like Global Shapers Colombo exemplified SDG 17.17, enhancing the project's reach and impact. Together, these efforts strengthened community development and basic education by raising awareness, celebrating abilities, and creating sustainable platforms that uplift the visually impaired, embodying Rotary's commitment to economic and community development as well as equal rights and inclusion.

Project Name	SDG	Rotary Focus Areas
Dream Cricket	• 3.4 Reduce mortality from non-communicable diseases and promote mental health. • 4.5 Eliminate all discrimination in education. • 4.8 Build and upgrade inclusive and safe schools. • 10.2 Promote universal social, economic and political inclusion. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy • Maternal and Child Health • Disease Prevention and Treatment

The Dream Cricket initiative supported SDGs by promoting health, inclusion, and education for differently-abled children. It helped reduce mortality and improve mental health through physical activity (SDG 3.4), eliminated discrimination by ensuring all children could participate (SDG 4.5), and provided a safe, inclusive environment (SDG 4.8, 10.2). The collaborative effort among multiple Rotaract clubs and Rotary strengthened partnerships (SDG 17.17) while fostering community development and holistic well-being for children with special needs.

INTERNATIONAL SERVICE

SDGs & Rotary Focus Areas Covered

TEAM MESSAGE

International Service

In a world more connected than ever, the International Services Avenue of the Rotaract Club of University of Moratuwa has worked to build bridges across cultures, ideas, and communities. This year, we proudly upheld the values of global understanding and international collaboration through a series of dynamic and meaningful initiatives that transcended borders and created lasting impact.

Our journey began with RMMUN (Rotaract Mora Model United Nations), under which we introduced UN Days, a digital campaign in two phases that commemorated significant United Nations observances. Through thoughtfully designed blog posts and social media flyers, we aimed to educate and inspire our audience about global challenges and shared human values. From human rights to sustainable development, each post reminded us of the role we can all play in shaping a better world.

The pinnacle of our year was SLRMUN, a full-scale Model United Nations conference that brought together over 100 school students from across Sri Lanka. Across five simulated UN committees, delegates debated, negotiated, and drafted impactful resolutions—highlighting the best insights and solutions proposed by these bright young minds. We are grateful to have witnessed the power of dialogue and diplomacy among our youth.

As a follow-up to this flagship event, we launched Cognizant, an initiative to implement the values and resolutions born at SLRMUN. A key milestone was the revamping of the Boondigiti learning platform, where we redesigned the site and added a new collection of educational courses to support school students and lifelong learners across the island.

We were also privileged to host Consuelo, a transformative workshop featuring renowned philosopher and peace researcher Dr. Henrik Syse. His session on respectful dialogue and conflict resolution encouraged

us to see these values not just as ethical ideals, but as practical tools for building cohesive societies. Senior Advisor Hanna Syse complemented the discussion with her expertise in policy-making and governance, reminding us of the responsibility we all share in protecting democracy and social wellbeing

International friendships continued to blossom through our twin club agreements. Our partnership with the Rotaract Club of Lala Lajpatrai (RACLALA) gave life to ONDAIRE, a podcast featuring renowned media personality Mariella Vandort, in honor of World Radio Day. We also published a joint bulletin that highlighted the impactful projects carried out by both clubs—a celebration of our shared spirit of service.

With the Rotaract Club of Mumbai Mulund South, we explored the cultural richness of our nations through a special Food Bulletin, sharing traditional recipes from Sri Lanka and India. We also conducted an engaging virtual robotics workshop using the Webots simulation platform, bringing students closer to the world of robotics and innovation.

Every project, every collaboration, and every conversation this year has reminded us of the immense value of international service. We are deeply thankful to our fellow Rotaractors, twin clubs, guest speakers, and volunteers whose support made all this possible. Your belief in our vision helped turn ideas into impact.

As we reflect on a year of growth, gratitude, and global connection, we look forward to continuing this journey—building bridges, embracing diversity, and creating lasting change across borders.

Warm Regards,
International Services Team 2024–25

RMMUN

Date : 01st August 2024 - 20th May 2025
Chairpersons : Rtr.Rashi Edirimanna , Rtr. Ashen Randira,Rtr. Oshan Imaduwage, Rtr. Sumudu Wijebandara, Rtr. Nagitha Dilshan, Rtr. Benul Wijayarathna, Rtr.Rasini Vimukthi
Venue : Social Media Platform and University of Moratuwa
Secondary Avenue : N/A

RMMUN (Rotaract Mora Model United Nations) is the flagship diplomacy and advocacy initiative organized by the Rotaract Club of University of Moratuwa. With a vision to empower youth to be informed global citizens, RMMUN provides a platform to explore global issues through the lens of the United Nations. The project spans several impactful phases, including digital advocacy campaigns on UN International Days, a large-scale Model UN conference—SLRMUN, and Cognizant, an action-oriented initiative to implement youth-led resolutions. RMMUN uniquely bridges awareness, dialogue, and real-world action, cultivating leadership, empathy, and social responsibility among young Sri Lankans.

UN Days - Phase 1

This initiative aims to raise awareness about important United Nations International Days by creating an informative flyer and blog series. The project highlights global issues related to human rights, peace, environmental conservation, and social justice, while emphasizing their relevance to the Sustainable Development Goals (SDGs).

The flyer series presents concise, visually engaging summaries of selected observances, including their history, significance, and practical ways individuals and communities can get involved. Meanwhile, the accompanying blog posts offer more in-depth content, exploring the

origins, objectives, and worldwide impact of each day.

To ensure maximum visibility and engagement, the flyers were widely distributed through platforms such as Instagram, WhatsApp, Facebook, and the official website of Rotaract Mora. The project encourages active participation and global responsibility by informing and inspiring individuals to support these vital international causes.

Complementing the flyers, a blog series was launched on the Rotaract Mora blog page. Each blog provides a deeper exploration of a specific UN Day—discussing its purpose, key themes, and meaningful actions that individuals can take to address the highlighted global challenges. This approach helps readers gain a more comprehensive understanding of each observance and inspires them to be agents of positive change.

The blogs were thoughtfully crafted by talented Rotaractors, and the accompanying flyers were also designed by the team to ensure visual appeal and coherence.

UN Days - Phase 2

UN Days Phase 2 is a focused awareness campaign built around a visually impactful flyer series, highlighting key United Nations International Days observed in March and April. This phase places particular emphasis on themes such as global empathy, social inclusion, gender equality, and health equity. The initiative seeks to spark meaningful dialogue and proactive engagement within the Rotaract community and the broader public.

Each flyer is thoughtfully designed to be both eye-catching and informative, offering concise yet powerful insights into the significance of the day and its connection to the United Nations Sustainable Development Goals (SDGs). The aim is to educate, inspire, and motivate individuals to take action in support of these global causes.

All flyers follow a consistent visual identity, combining compelling imagery, bold typography, and color schemes that reflect the spirit of each observance. Designed for both digital sharing and physical display, this series enhances visibility and encourages greater awareness and participation in advancing global equity and well-being.

SLRMUN Conference

SLRMUN 2025, organized by the Rotaract Club of the University of Moratuwa, was one of Sri Lanka's most prestigious and impactful Model United Nations (MUN) conferences. Held physically on the 22nd of February 2025, it brought together over 130 delegates from universities, schools, and independent backgrounds to engage in meaningful debate, diplomacy, and decision-making. Hosted at the Department of Textile and Clothing Technology, with opening and closing ceremonies held at the Department of Civil Engineering, the conference served as a dynamic platform for youth engagement in global affairs.

What truly set SLRMUN apart was its unique approach of translating debates into actionable Rotaract projects, thereby transforming the outcomes of simulated discussions into real-world community impact. This not only distinguishes SLRMUN from other conferences in Sri Lanka but also highlights Rotaract Mora's commitment to combining dialogue with delivery. The conference maintained its mission of promoting leadership, diplomacy, critical thinking, and global citizenship through comprehensive simulations, fostering a collaborative and intellectually enriching environment for participants.

SLRMUN 2025 simulated five UN committees: UNSC, UNCSW, UNEP, UNGA4, and IPC. Each committee tackled globally relevant and complex topics such as UN peacekeeping reforms, gender-based violence among female refugees, marine conservation, justice in the DRC conflict, and press freedom. Each session was moderated by experienced chairs, and informative workshops were conducted online in the lead-up to the event to ensure that delegates —especially first-timers—were well prepared. Delegates also received detailed handbooks on their respective committee topics, aiding them in effective research and participation.

The event featured a well-structured schedule, beginning with registration and the opening ceremony, followed by simultaneous committee sessions. Delegates engaged in various parliamentary procedures, including formal speeches, caucuses, resolution drafting, and voting. Three significant draft resolutions were debated during the sessions, highlighting innovative and pragmatic approaches to global issues, such as peacekeeping reform and environmental sustainability.

With participants representing over 25 educational institutions from across the island, SLRMUN 2025 achieved remarkable inclusivity and diversity. Delegates demonstrated high levels of engagement and diplomacy, contributing to the event's overall success. The closing ceremony was a formal and celebratory occasion that honored outstanding delegate performances and was graced by distinguished guests including Mr. Shehan Paul, Dr. Ranga Rodrigo, and Rtr. Hiruni Praveesha.

Beyond being a simulation, SLRMUN 2025 served as a transformative learning experience, nurturing skills such as public speaking, research, policy writing, and negotiation. It inspired young leaders to take initiative and reinforced the values of empathy, global cooperation, and sustainability. In every sense, the conference stood as a powerful testament to the potential of Model UNs in empowering youth to be proactive global citizens.

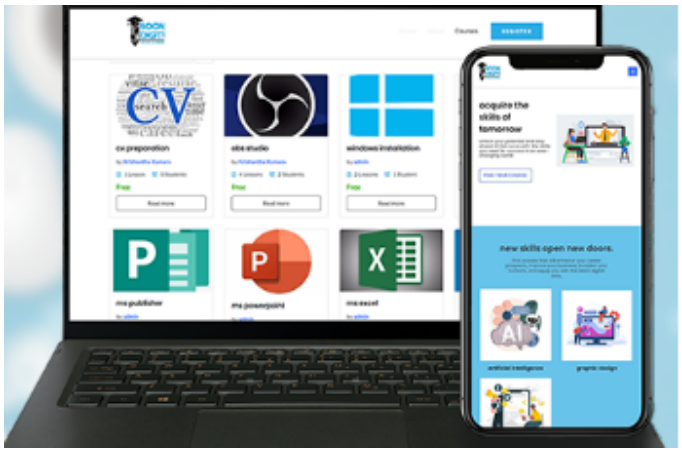

Cognizant

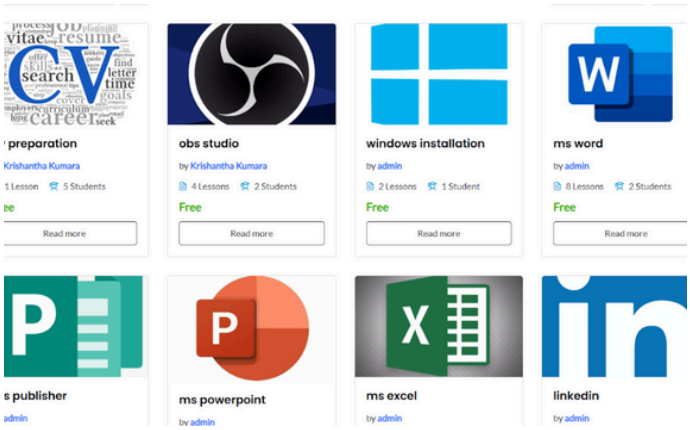

At the core of RMMUN (Rotaract Mora Model United Nations) is a distinctive dedication to ensuring that youth-led dialogue transcends debate and actively drives real-world impact. This commitment is embodied in Cognizant, the flagship implementation arm of RMMUN, which takes resolutions from conference discussions and transforms them into actionable community projects. Unlike traditional Model UN initiatives that conclude with the closing ceremony, RMMUN extends its influence beyond the event through Cognizant, creating a bridge between ideas and tangible change.

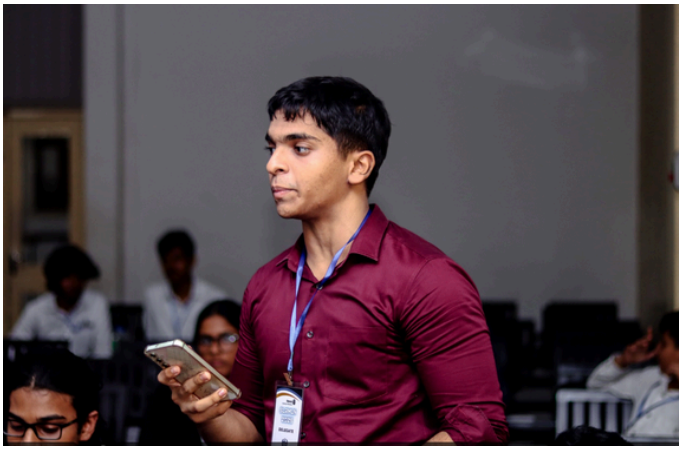

In 2025, Cognizant's foundation was solidified during the SLRMUN conference, particularly through the work of the United Nations Commission on the Status of Women (UNCSW) delegates. They tackled urgent issues faced by displaced and underserved women, advocating for educational programs, vocational training, and accessible online platforms to empower marginalized communities. In response, Cognizant 2025 focused on developing a diverse and inclusive learning platform designed to enhance employability and digital literacy among these groups.

Boondigiti underCognizant, serves as an educational platform, offering university students and underserved populations free access to essential digital skills often absent from formal curricula. Although initially launched under the International Services Avenue, Boondigiti was largely dormant until revitalized by Cognizant 2025. The platform now features an expanded suite of self-paced courses, a user-friendly interface, and a practical curriculum focused on career-ready skills, making digital literacy accessible and relevant.

Cognizant 2025 exemplifies RMMUN's philosophy that meaningful dialogue must lead to meaningful action. By expanding the reach and impact of Boondigiti, the initiative transforms the ideas debated within conference halls into real, scalable opportunities that equip individuals to confidently navigate the digital world. This approach not only amplifies youth-led efforts to address global challenges but also underscores the power of Model UN platforms to foster practical solutions with lasting community benefits.

CONSUELO

Date : 01st November 2024 - 20th November 2024
Chairpersons : Rtr.Illampoornan Raguparan , Rtr. Navindu Prabath
Venue : ENTC HALL, University of Moratuwa
Secondary Avenue : N/A

"Consuelo," organized by the Rotaract Club of University of Moratuwa on November 20, 2024, was a transformative initiative aimed at fostering ethical leadership, sustainable peace, and societal harmony. Set against a backdrop of increasing polarization and complex governance challenges, the workshop provided a timely platform for meaningful intellectual engagement. It brought together a diverse audience of Rotaractors, university students, and academic professionals to explore some of the most pressing issues facing modern society.

The workshop featured two distinguished speakers from Norway: Dr. Henrik Syse, Research Professor at the Peace Research Institute Oslo and former Vice Chair of the Norwegian Nobel Committee, and Senior Advisor Hanna Syse from Norway's Ministry of Defence. Their combined expertise in peacebuilding, governance, and policy-making offered participants a rich blend of academic insight and practical wisdom. Through compelling presentations and interactive discussions, the speakers delved into themes such as conflict resolution, the rule of law, moral responsibility, and the critical roles individuals and institutions play in safeguarding democracy.

A highlight of the workshop was its interactive nature, which encouraged participants to actively engage with the speakers, ask questions, and share perspectives. This collaborative learning environment sparked critical thinking and self-reflection, urging attendees to consider their own responsibilities as citizens and future leaders. The session emphasized the transformative power of education in nurturing empathy, promoting civic responsibility, and instilling democratic values.

"Consuelo" left a lasting impact, inspiring attendees to adopt a more thoughtful, ethical approach to leadership and governance in their personal and professional lives. More than just a knowledge-sharing event, it served as a call to action—motivating young minds to be agents of peace and positive change in society. The initiative demonstrated the power of dialogue and shared learning to address contemporary challenges and promote a more harmonious and ethically grounded world.

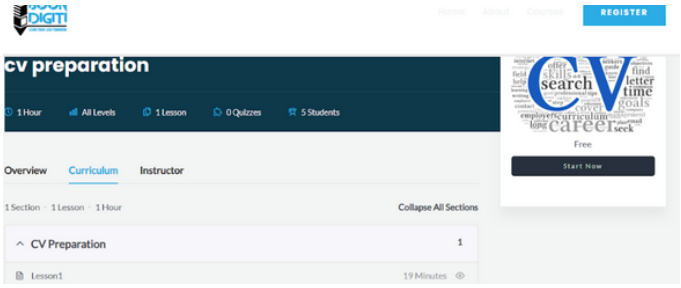

BOON DIGITI

Date : 09th April 2025 - 19th May 2025
Chairpersons : Rtr. Dhanuja Kahatapitiya , Rtr. Siluni Dissanayake
Venue : Online
Secondary Avenue : N/A

Boondigiti is a transformative digital education platform developed by the Rotaract Club of University of Moratuwa under the Avenue of International Service. Recognizing that digital literacy is no longer optional but essential in today's world, Boondigiti was designed to bridge the digital divide by offering free, beginner-friendly learning resources to individuals - especially undergraduates and underserved communities—who lack access to practical technology education.

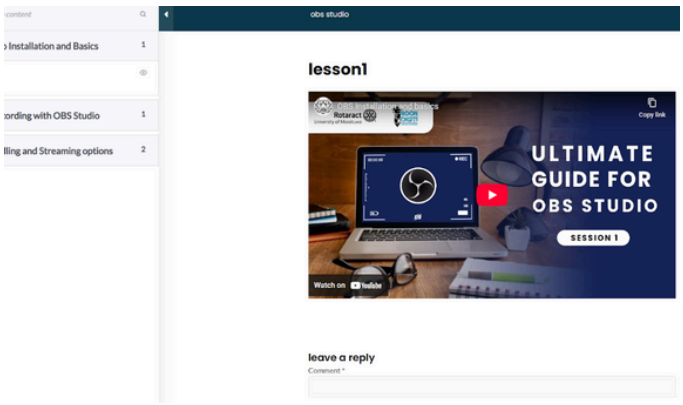

In 2025, the platform underwent a significant transformation, aligning with the global resolutions passed at SLRMUN 2025, particularly those by the United Nations Commission on the Status of Women (UNCSW) advocating for accessible education and vocational training. The relaunch marked more than a routine update; it was a strategic enhancement aimed at broadening the platform's reach, impact, and relevance in today's digital era.

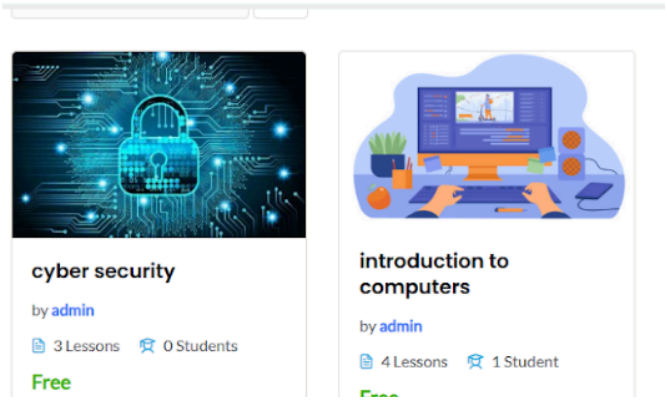

The redesigned Boondigiti platform now features a modern, user-friendly interface and a suite of new self-paced courses. These include essential modules such as building a professional CV, optimizing LinkedIn profiles, mastering Microsoft Office tools (Word, Excel, PowerPoint, Publisher), basic cybersecurity practices, introductory OBS Studio for content creation, and foundational skills in computer literacy and Windows installation. All courses are hands-on, easy to follow, and tailored for complete beginners, ensuring that no prior technical knowledge is required.

A key strength of Boondigiti lies in its global accessibility. Hosted entirely online and available free of charge, the platform allows anyone with internet access—regardless of location—to learn at their own pace. This inclusive model removes geographical and financial barriers, empowering learners everywhere to gain skills that enhance their employability, confidence, and digital competence.

Though initially planned as part of Cognizant 2025, Rotaract Mora's broader initiative to implement Model UN resolutions, Boondigiti continued as an independent project. Its revitalization reflects a strong commitment to promoting educational equity and digital empowerment across borders.

At its core, Boondigiti is more than just an educational tool—it is a platform for opportunity, inclusion, and transformation. By providing free, skill-based digital education, it paves the way for individuals from all backgrounds to thrive in the digital economy and shape brighter futures for themselves and their communities.

CULTIVARE

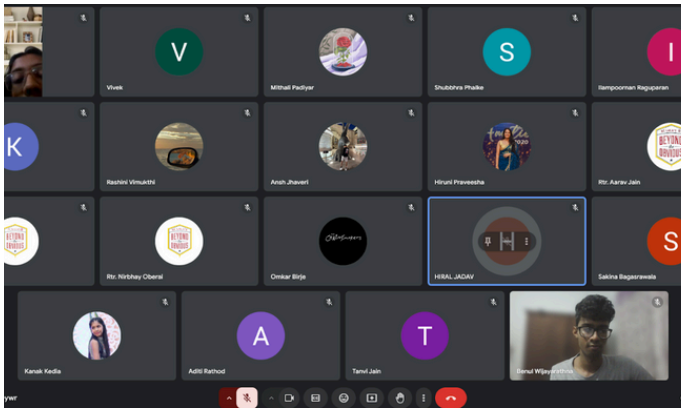

Date : 09th March 2025 - 22nd March 2025
Chairpersons : Rtr. Benul Wijeyarathna , Rtr. Rasini Vimukthi
Venue : Online
Secondary Avenue : N/A

Cultivare, a joint initiative by the Rotaract Club of University of Moratuwa and the Rotaract Club of Lala Lajpatrai College, was an immersive cultural exchange project aimed at promoting understanding, camaraderie, and global connectivity among international Rotaract clubs. Cultivare 2025 celebrated the richness of cultural diversity and individuality, serving as a vibrant platform for meaningful interaction across borders.

Held on March 22, 2025, via Google Meet, Cultivare brought together enthusiastic Rotaractors from both Sri Lanka and India for an evening of learning, connection, and celebration. The event featured colorful and engaging cultural presentations from each club, showcasing national traditions, religious diversity, cuisine, festivals, and traditional dances. These presentations offered participants a firsthand look into the unique cultural heritages of both countries, enriching their understanding of different civilizations in a lively and interactive setting.

More than just a presentation-based event, Cultivare encouraged dialogue, participation, and exchange of perspectives. Attendees actively contributed to discussions, asked questions, and shared reflections, which made the session both dynamic and engaging. This interaction transformed the event into a platform for genuine connection and cultural appreciation, exemplifying the Rotaract spirit of unity and global fellowship.

In essence, Cultivare was more than a cultural event, it was a celebration of global unity through diversity.It reinforced Rotaract's mission to bring together young leaders who are eager not only to learn but also to foster lasting friendships that transcend geographical boundaries. It stood as a testament to the power of cultural exchange in building bridges, nurturing empathy, and creating a more connected and harmonious world within the Rotaract community.

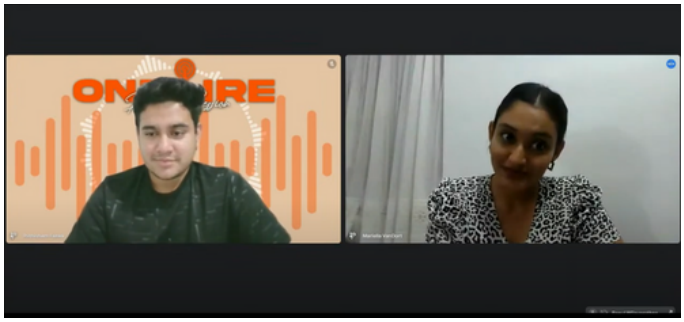

ONDAIRE

Date : 03rd February 2025 - 13th February 2025
Chairpersons : Rtr. Benul Wijeyarathna , Rtr. Rasini Vimukthi
Venue : via Google Meet
Secondary Avenue : N/A

Rotaract Club of University of Moratuwa united with the Rotaract Club of Lala Lajpatrai College in India to launch a collaborative project titled “Ondaire” to celebrate World Radio Day. This project demonstrated the importance of radio as a tool for information, education, and entertainment while showcasing its continued relevance to modern times.

The Rotaract clubs established this initiative through the twin club agreement creating an opportunity for international cooperation that enabled members to share thoughts across borders. This project helped both clubs to offer essential content which all type of people could understand and gain knowledge from.

The main highlight of the project consisted of a live-streamed podcast interview with Ms. Mariella VanDort, who is a recognized professional from the Sri Lankan media field. Throughout the interview she demonstrated her role as a broadcaster, news anchor, and public speaker while sharing her experiences and thoughts on how radio has changed over time. Additionally, she presented an informative and dynamic presentation about communication and media content particularly beneficial for young people.

One of the aims of the project involved initiating discussions about radio’s current position in today’s public domain. Even though more media options are available, radio maintains its significance as a mass communication tool. The podcast motivated listeners to reassess radio capability in educational learning alongside storytelling and public discussions.

Through the live stream broadcast on the Rotaract Mora YouTube Channel the event offered access to anybody who wish to attend. This helped to reach a broader audience outside the membership and enable more individuals to participate in the dialogue. Further, this event gave visibility to the united efforts of the two Rotaract clubs. All stages of the project including planning, designing work and promotional functions happened jointly by strengthening the relationship between the two clubs.

The project was supported by a well-planned public relations strategy. A regular schedule of content dissemination occurred through Instagram, Facebook, and WhatsApp to spread awareness. The podcast launch featured a sequence of announcements about the speakers along with constructed countdown materials and visual promotional content. The team distributed crucial event highlights along with appreciation messages to maintain audience connection following the event.

The Ondaire event proved to be a meaningful way to celebrate World Radio Day while bridging the two Rotaract clubs together highlighting how collaboration across borders can lead to something impactful. The session highlighted how radio still matters today and the project sparked important conversations, built new friendships, and showed what can be achieved through teamwork and a shared purpose.

FLAVOURS OF THE WORLD

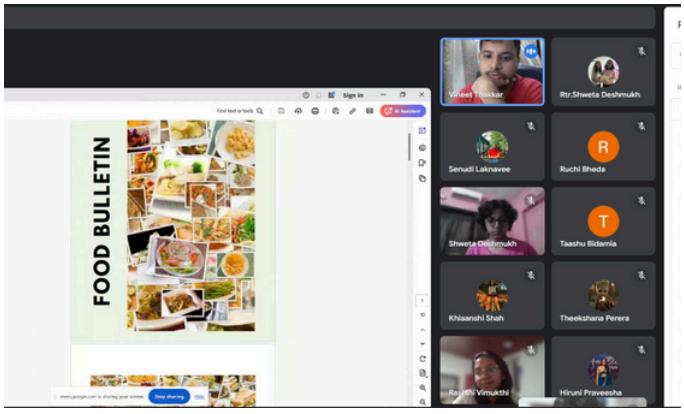

Date : 04th March 2025 - 15th March 2025
Chairpersons : Rtr. Benul Wijeyarathna , Rtr. Rasini Vimukthi
Venue : Online
Secondary Avenue : N/A

Flavours of the World was a vibrant cultural exchange programme jointly organized by the Rotaract Club of University of Moratuwa and the Rotaract Club of Mumbai Mulund South, centered around the rich and diverse culinary traditions of Sri Lanka and India. Recognizing the pivotal role of food in shaping cultural identity, this initiative aimed to bridge cultural divides and foster mutual understanding through a shared appreciation for traditional cuisine, unique ingredients, and regional cooking techniques.

Conducted virtually via Google Meet, the event invited participants from both clubs to showcase a traditional dish from their respective countries. Each member prepared and presented a culinary item, accompanied by an engaging presentation that explored other popular dishes, their origins, and cultural significance. The event also featured lively discussions on the history behind each recipe, ingredients used, and the customs associated with food preparation and consumption. Recipe sharing and an open invitation to recreate each other's dishes added a practical and interactive dimension to the experience.

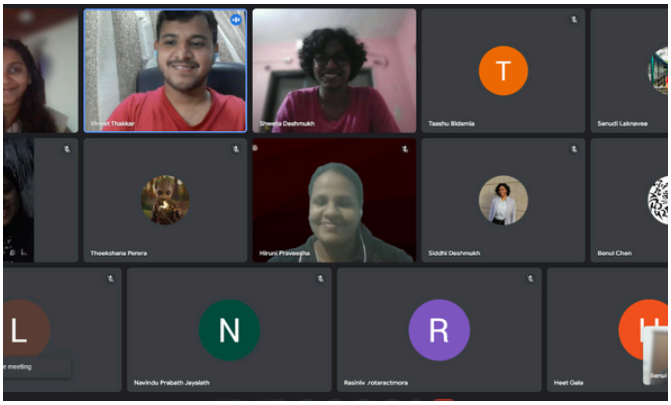

Beyond the surface of culinary exchange, the project served as a platform for cross-border friendship and deeper cultural understanding. Participants enthusiastically explored how food reflects the values, histories, and lifestyles of their communities. Discussions on regional variations and the influence of climate, geography, and tradition offered a comprehensive insight into how national cuisines evolve and adapt over time.

The clubs also placed a strong emphasis on sustainability and health. Presenters highlighted the importance of using locally sourced ingredients and preserving traditional cooking methods. This approach not only supports local economies and ecosystems but also promotes healthy eating by steering away from artificial additives and processed foods.

In essence, Flavours of the World was more than a culinary event—it was an exploration of identity, heritage, and unity through food. The initiative deepened the bond between the two clubs and cultivated a greater appreciation for food as a medium of storytelling and cultural expression. The project concluded with a thoughtful reflection session, where participants shared their experiences, discussed the dishes they had recreated, and acknowledged how food continues to act as a powerful unifier across cultures and communities.

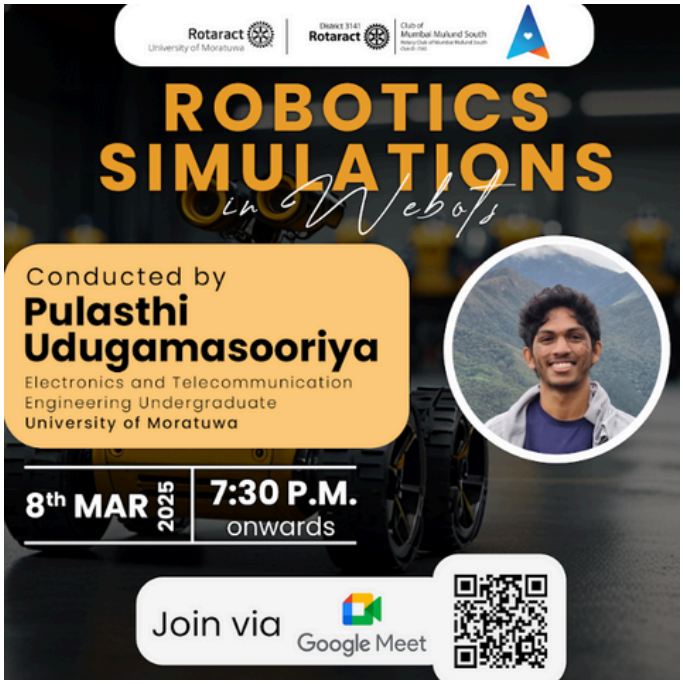

VBOTS

Date : 25th January 2025 - 08th March 2025
Chairpersons : Rtr. Benul Wijeyarathna , Rtr. Rasini Vimukthi
Venue : via Google Meet
Secondary Avenue : N/A

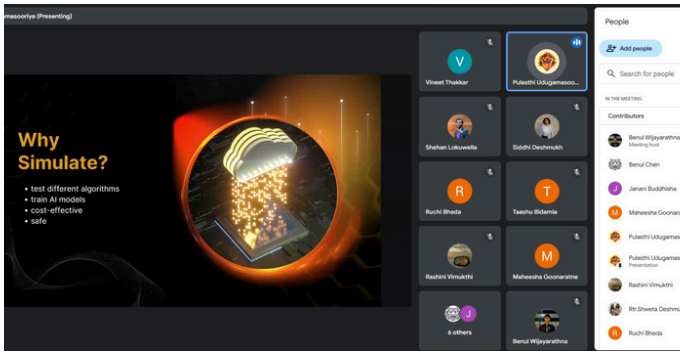

VBots was a pioneering initiative collaboratively organized by the Rotaract Club of University of Moratuwa and the Rotaract Club of Mumbai Mulund South, aimed at introducing participants to the dynamic field of robotics simulations. In an age characterized by rapid technological advancement, robotics simulations have emerged as crucial tools in research, development, and education, offering a safe, efficient, and cost-effective means to test robotic systems virtually before deploying them in real-world scenarios.

The primary objective of the VBots initiative was to provide an informative and hands-on session on robotics simulations, with a particular emphasis on Webots, a powerful and open-source robotics simulation software. The session bridged the gap between theoretical learning and practical application, enabling participants to understand complex robotic behaviors, sensor integrations, and motion planning strategies within a simulated environment. Webots, as a platform, allowed attendees to model, simulate, and experiment with robotic systems, preparing them to address real-world challenges using simulated insights.

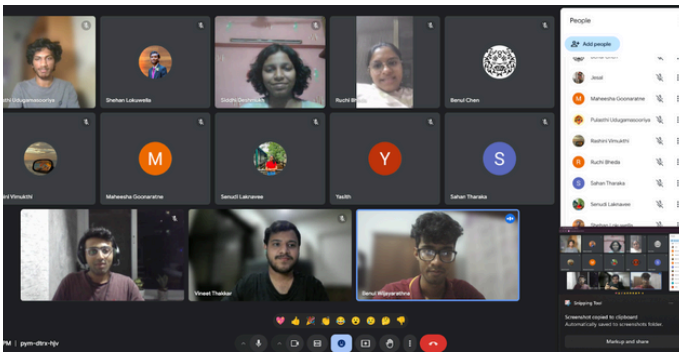

More than just a technical workshop, VBots was rooted in the shared commitment of both clubs to empower students and young professionals with the knowledge and tools necessary to thrive in the evolving robotics landscape. The initiative encouraged participants to cultivate technical expertise and fostered a passion for innovation in the field of robotics. By engaging with simulation-based learning, attendees were inspired to pursue deeper explorations into robotics and related technologies.

The session, held virtually on March 8th at 7:30 p.m. via Google Meet, drew an enthusiastic audience. Attendees not only gained valuable practical knowledge of Webots and its capabilities but also participated in interactive discussions, shared perspectives, and envisioned the future of robotics simulation. The event's collaborative nature also facilitated cross-border knowledge exchange and strengthened the camaraderie between the two organizing clubs.

Ultimately, VBots stood as a testament to the power of education, innovation, and collaboration. It successfully provided participants with both the inspiration and tools to explore the field of robotics simulations, while reinforcing the values of global partnership and shared learning within the Rotaract movement.

ROTARY FOCUS AREAS
AND SDGS COVERED

Project Name	SDG	Rotary Focus Areas
RMMUN	• 3.4 Reduce mortality from non-communicable diseases and promote mental health. • 4.3 Equal access to affordable technical, vocational, and higher education. • 5.5 Ensure full participation in leadership and decision-making. • 5.8 Promote empowerment of women through technology. • 6.2 End open defecation and provide access to sanitation and hygiene. • 6.3 Improve water quality, wastewater treatment and safe reuse. • 6.4 Increase water-use efficiency and ensure freshwater supplies. • 8.3 Promote policies to support job creation and growing enterprises. • 8.8 Protect labour rights and promote safe working environments. • 13.1 Strengthen resilience and adaptive capacity to climate related disasters. • 13.3 Build knowledge and capacity to meet climate change. • 13.5 Promote mechanisms to raise capacity for planning and management. • 16.1 Reduce violence everywhere. • 16.2 Protect children from abuse, exploitation, trafficking and violence. • 16.3 Promote the rule of law and ensure equal access to justice. • 16.10 Ensure public access to information and protect fundamental freedoms. • 16.12 Promote and enforce non-discriminatory laws and policies. • 17.17 Encourage effective partnerships	• Supporting the Environment • Economic and Community Development • Basic Education and Literacy • Maternal and Child Health • Water and Sanitation • Disease Prevention and Treatment • Peace and Conflict Prevention/Resolution

RMMUN achieves its goals by actively promoting and advancing multiple Sustainable Development Goals (SDGs) through a comprehensive approach that blends education, advocacy, and action. It addresses SDG 3 (Good Health and Well-being) by raising awareness on mental health and peace (16.1, 16.2) through dialogue and campaigns that reduce violence and protect vulnerable groups. It supports SDG 4 (Quality Education) by ensuring equal access to education and vocational training via initiatives like Boondigiti, which empowers underserved youth with digital skills (4.3, 5.8). The project champions SDG 5 (Gender Equality) by promoting women's leadership and empowerment, especially through UNCSW-led resolutions and Cognizant's targeted programs. Through climate-focused discussions and capacity-building workshops, it contributes to SDG 13 (Climate Action) by strengthening resilience and climate knowledge. RMMUN promotes SDG 16 (Peace, Justice and Strong Institutions) by simulating UN committees that debate rule of law, justice, and public freedoms, fostering youth leadership in governance. Finally, the initiative embodies SDG 17 (Partnerships for the Goals) by bringing together diverse educational institutions, Rotaract clubs, and community stakeholders to collaborate on sustainable development solutions, thus turning dialogue into effective, inclusive partnerships and real-world impact.

Project Name	SDG	Rotary Focus Areas
Consuelo	-	• Peace and Conflict Prevention/Resolution

"Consuelo" advanced Peace and Conflict Prevention/Resolution by educating participants on conflict resolution, the rule of law, and moral responsibility through expert-led discussions. It fostered dialogue and critical thinking, encouraging ethical leadership and civic responsibility. The workshop's interactive format helped nurture empathy and democratic values, empowering attendees to promote peace and harmony in their communities.

Project Name	SDG	Rotary Focus Areas
Ondaire	-	-

The "Ondaire" project, while fostering international collaboration and promoting the relevance of radio as a communication tool, did not directly target or achieve specific Sustainable Development Goals (SDGs) or Rotary Focus Areas (RFAs). Its primary focus was on cultural exchange, awareness-raising, and strengthening ties between two Rotaract clubs rather than addressing particular developmental or social objectives outlined by the SDGs or RFAs.

Project Name	SDG	Rotary Focus Areas
VBots	• 9.7 Support domestic technology development and industrial diversification.	-

VBots supported SDG 9.7 by equipping young professionals with practical skills in robotics simulation, fostering local tech talent and innovation. The collaborative workshop promoted knowledge sharing and helped strengthen domestic technology development and industrial diversification in robotics and automation.

Project Name	SDG	Rotary Focus Areas
Cultivare	• 4.7 Education for sustainable development and global citizenship. • 11.4 Protect the world cultural and natural heritage.	-

Cultivare achieved SDG 4.7 by promoting education for sustainable development and global citizenship through its cultural exchange, encouraging participants to appreciate diversity, engage in meaningful dialogue, and develop empathy across borders. It fostered a deeper understanding of different cultures, nurturing responsible global citizens. Additionally, it supported SDG 11.4 by celebrating and sharing the rich cultural heritage of Sri Lanka and India, raising awareness of the importance of protecting and valuing world cultural traditions within the Rotaract community.

Project Name	SDG	Rotary Focus Areas
Flavours of the World	• 4.7 Education for sustainable development and global citizenship. • 12.7 Promote sustainable public procurement practices.	-

Flavours of the World supported SDG 4.7 by teaching sustainable development and global citizenship through cultural exchange of traditional cuisines, promoting respect and understanding of diverse cultures. It also advanced SDG 12.7 by encouraging the use of locally sourced ingredients and traditional cooking methods, fostering sustainable and responsible food practices.

Project Name	SDG	Rotary Focus Areas
Boon Digiti	• 4.1 Free primary and secondary education. • 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 4.5 Eliminate all discrimination in education. • 4.7 Education for sustainable development and global citizenship. • 4.8 Build and upgrade inclusive and safe schools. • 5.5 Ensure full participation in leadership and decision-making. • 5.8 Promote empowerment of women through technology. • 8.6 Promote youth employment, education and training. • 10.3 Ensure equal opportunities and end discrimination.	• Economic and Community Development • Basic Education and Literacy

Boondigiti achieved multiple SDG targets by providing free, accessible digital education, ensuring equal opportunity (4.1, 4.3, 4.5, 10.3) for undergraduates and underserved communities regardless of background. Its beginner-friendly, self-paced courses increase relevant skills for financial success (4.4) and promote youth employment through practical training (8.6). The platform fosters inclusive learning environments online, supporting safe and inclusive education (4.8) and encourages empowerment, especially of women, through technology (5.5, 5.8). By aligning with global UN resolutions and offering globally accessible content, Boondigiti advances education for sustainable development and global citizenship (4.7), promoting economic and community development through digital literacy.

PROFESSIONAL DEVELOPMENT

SDGs & Rotary Focus Areas Covered

TEAM MESSAGE

Professional Development

The Professional Development Avenue is dedicated to empowering Rotaractors, undergraduates, and our community through holistic growth. Beyond career readiness, we focus on personal branding, leadership, academic support, industry exposure, mentorship, networking, entrepreneurship, inclusivity, and confidence building — preparing individuals for life both in and beyond university.

This year's theme, "Serve today, Inspire tomorrow," truly reflects our mission. By addressing today's needs, we aim to inspire tomorrow's leaders. It has been a year of growth, learning, and impact, and we proudly share highlights from our journey.

Project "Are You Ready? 2025" remained at the heart of our avenue, continuing to empower undergraduates with one of its strongest editions yet. Designed to prepare students for professional life, it featured well-structured sessions.

The "Image" session included iconic artists Bathiya and Santhush and Mr. Dhanika Perera, who inspired students on self-branding, career resilience, and growth. The "Global Pathways" session guided students toward international opportunities, scholarships, and global work cultures, with insights from Dr. Prathapasinghe, Mr. Sandushan Ranweera, and Ms. Dimithri De Mel. The practical "Heads Up" session led by Ms. Dinusha Gunewardhane and Mr. Ranga Rodrigo equipped students with resume writing and interview skills essential for today's job market. A major milestone was the Mock Interview sessions at the university's Resume Center, where HR professionals reviewed over 400 CVs and conducted more than 1,900 interviews. This provided invaluable live feedback and exposure. The program culminated in a Career Fair featuring 45 leading companies across diverse sectors, offering jobs and internships to more than 800 participating students. This event beautifully showcased the power of collaboration between academia and industry.

“The Scholar” Project marked its fifth year by continuing to support financially disadvantaged undergraduates. In partnership with the Mosvold Martinus Foundation, we focused this year on first- and second-year students, easing their transition into university life. This initiative reaffirms our commitment to ensuring economic hardship never limits a student’s potential.

“Project Transform” was a landmark initiative on a national scale, carried out with the Sri Lanka National Commission for UNESCO and the YKG Foundation. Its mission: to integrate 21st-century skills into Sri Lanka’s K–12 education system. Through the Principals Leadership Program (PLP), Skills for Life (SFL) program, and a dedicated website, we are advancing education by empowering school principals and students alike. PLP focused on leadership and strategic planning, while SFL developed crucial competencies like communication, creativity, critical thinking, and collaboration, laying the groundwork for sustainable educational reform.

To prepare the incoming leadership of Rotaract Mora, “Catalyst ’24” was organized as a comprehensive board training program. Led by President Rtr. Hiruni Praveesha and the Professional Development Avenue, it combined an online session featuring guest speakers Mr. Yukthi Gunasekara and Rtr. PP Paveen Perera, who spoke on leadership and team dynamics, with a physical outbound training day that emphasized trust, collaboration, and decision-making through hands-on activities.

Recognizing the need to empower female STEM undergraduates, “MentHer?” targeted students from specialized departments such as Fashion Design, Textile and Apparel Engineering, and Transport and Logistics Management. Mentoring by professionals from MAS Holdings and Ceylon Tobacco Company offered insights into overcoming challenges in male-dominated industries, fostering confidence, resilience, and ambition.

Our commitment to academic upliftment continued through the “Kuppi Program”, a peer-led educational support initiative for the 23rd batch of the Faculty of Engineering. Running from September to November 2024, it covered core subjects including Mathematics, Programming, Mechanics, and Electrical AC Theory. With over 1,000 students benefiting through live sessions and YouTube recordings, the program combined academic rigor with effective outreach, notably through creative public relations efforts.

We were honored to co-host the 34th Rotaract District Conference in February 2025 at Pledge Scape, Negombo. The event featured panel discussions, speeches, and networking, offering a valuable platform for members to connect with Rotaractors nationwide and draw inspiration from professionals across sectors.

Expanding our industry engagement, we collaborated with AIESEC at the University of Colombo on “INSIGHT”, an event bridging students and professionals. Our team managed promotions, ensuring strong student participation. We also took part in “Skillxcellerator”, a professional development project by the Rotaract Club of Colombo North, which offered free sessions on topics like Artificial Intelligence, Software Engineering, Business Analytics, and Legal Awareness.

Highlighting entrepreneurship, “Agora Link” showcased university students running businesses alongside academics. Through video interviews and articles, we celebrated their innovative spirit and real-world applications of their learning, inspiring peers to pursue similar ventures.

We extend heartfelt gratitude to all volunteers, mentors, professionals, and partner organizations who made these milestones possible. Your support has been invaluable.

Looking forward, we remain committed to empowering undergraduates to realize their full potential personally and professionally. Through innovation, collaboration, and dedication, we aim to create lasting impact and nurture tomorrow’s leaders.

Best Regards,
Professional Development Team 2024–25

THE SCHOLAR

Date : 01th July 2024 - 30th April 2025
Chairpersons : Rtr. Ilampoornan Ragupuran ,Rtr. Navindu Jayalath
Venue : N/A
Secondary Avenue : N/A

In Sri Lanka, university admission is granted based on merit through the Z-score system following the highly competitive G.C.E. Advanced Level exams. While tuition is free, undergraduates still face significant expenses for daily living, such as food, transportation, accommodation, and study materials. The rigorous academic demands, especially at institutions like the University of Moratuwa, make it difficult for students to pursue part-time work, leaving those from low-income families particularly vulnerable.

To support financially challenged students, the Rotaract Club of University of Moratuwa launched "The Scholar", a flagship initiative under its Professional Development avenue. Now in its fifth consecutive year, the project provides direct financial aid to undergraduates who are not sufficiently covered by existing scholarships such as Mahapola or bursaries.

During the RI year 2024–25, in partnership with the Mosvold Martinus Foundation, the project supported 50 students—21 new recipients were selected following the graduation of the previous year's cohort. Each beneficiary received a monthly stipend of Rs. 7500 for 10 months (July 2024 – April 2025) to help cover essential expenses.

A team of 10 Board of Directors ensured transparent and consistent fund distribution. With Sri Lanka's economic instability continuing to affect higher education, this support has become increasingly vital.

Over just three years, 100 unique students have been financially supported through "The Scholar," empowering them to complete their studies without financial distress.

This sustained initiative reflects the unwavering commitment of Rotaract Mora and the Mosvold Martinus Foundation to ensuring equal access to education and fostering academic success despite economic challenges.

PROJECT TRANSFORM

Date : 01th July 2024 - 31st May 2025
Chairpersons : Rtr. Maryam Mubarak ,Rtr. Dinithi Thilakrathne, Rtr. Janushan Arunasalam
Venue : Online, President's College, Devi Balika Vidyalaya, and Muslim Ladies College Colombo

Project Transform is a visionary national initiative spearheaded by the Rotaract Club of University of Moratuwa, in collaboration with the Sri Lanka National Commission for UNESCO and the YKG Foundation. This transformative project seeks to embed 21st Century Skills into Sri Lanka's K–12 education system to better equip students for the demands of a fast-evolving, globalized world. With a long-term vision of contributing to Sri Lanka's advancement toward first-world status by 2048, Project Transform focuses on empowering both educators and students.

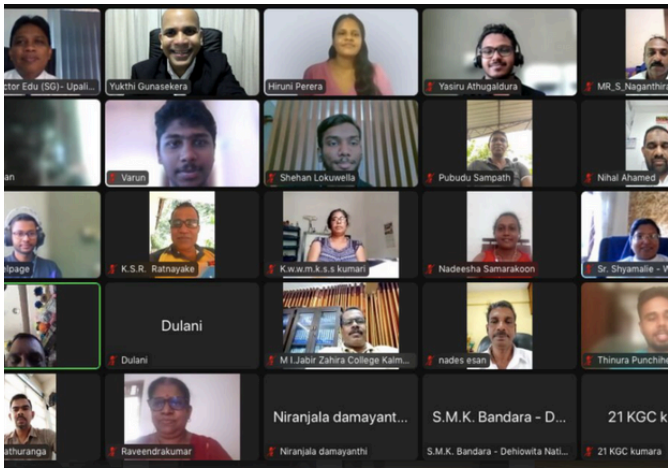

The initiative is strategically structured into three phases: the Skills for Life program to foster essential competencies among students, the Principals Leadership Program to enhance school leadership across the country, and the Project Transform Website to ensure sustainability and access to resources. Together, these components drive systemic change by bridging the gap between traditional education and future-ready learning.

Skills For Life

The Skills for Life (SFL) program is a cornerstone of Project Transform, aimed at cultivating essential 21st Century Skills such as critical thinking, creativity, communication, collaboration, and problem-solving among school and university students. Developed in partnership with education expert Mr. Yukthi Gunasekara, the program includes a series of engaging video lessons and a trilingual speaking manual that equips students with practical communication and public speaking tools.

Initial implementation discussions took place with several leading schools in Colombo, including Devi Balika Vidyalaya, Gothami Balika Vidyalaya, Presidents' College, and Muslim Ladies College. Alongside these efforts, a Train the Trainer model was introduced to empower teachers to deliver the content using the provided resources, ensuring sustainable delivery and long-term impact within the education system.

Principles Leadership Program

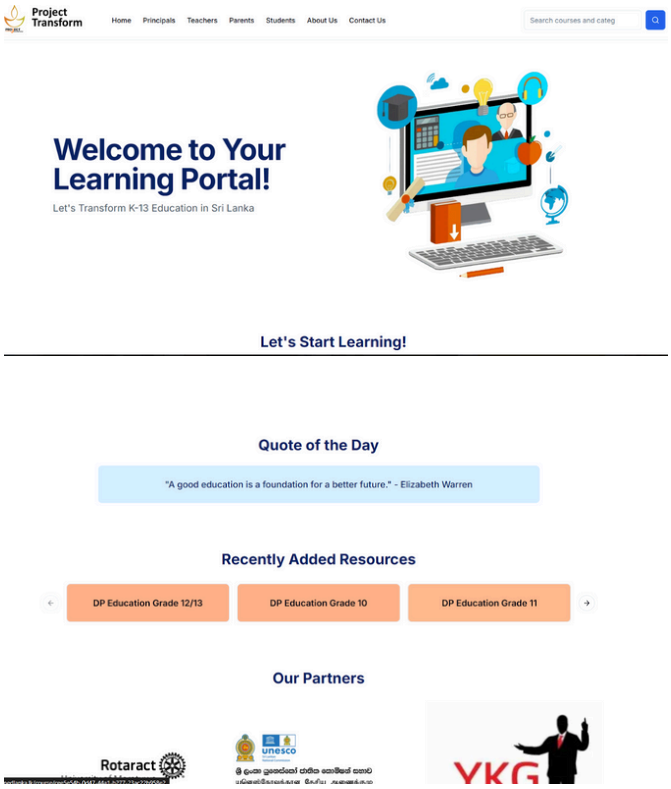

The Principals Leadership Program (PLP) is a pioneering online capacity-building initiative designed to strengthen school leadership across all 25 districts of Sri Lanka. With the aim of fostering strategic school management and embedding 21st Century learning principles, PLP empowers principals to become transformative leaders in their institutions.

Launched with a webinar in June 2024 and moderated by President-Elect Rtr. Hiruni Praveesha, the PLP has since conducted a series of impactful sessions. These webinars featured key figures such as Mr. Gamini Gunawardana and Mrs. Nirmali Wickremesinghe, who shared leadership strategies and educational innovations. The program emphasized inclusivity, providing multilingual support during sessions and creating a dynamic WhatsApp group for ongoing discussion and idea exchange. A feedback session in January 2025 allowed for the refinement of future phases, reinforcing the program's commitment to relevance and responsiveness.

Project Transform Website

A major step toward ensuring the continuity and accessibility of Project Transform was the launch of its official website in May 2025. Led by Rtr. Shehan Lokuwella and the IT team, the website serves as a centralized platform for both students and educators. It hosts all core video content from the Skills for Life series, downloadable resources such as the speaking manual, and recordings of all Principals Leadership Program webinars.

This digital resource hub allows learners and school leaders to revisit training material at their own pace and stay updated with new content. By offering easily accessible tools and fostering independent learning, the website reinforces Project Transform's mission of long-term educational transformation and ensures that its impact extends far beyond the scope of individual sessions.

In conclusion, Project Transform stands as a pioneering effort to reshape the landscape of education in Sri Lanka by embedding future-ready skills into the core of both teaching and learning. Through its three comprehensive phases—the Skills for Life program, the Principals Leadership Program, and the launch of a dedicated online platform—the project has laid a strong foundation for sustainable, systemic change. By equipping students with essential competencies and empowering school leaders to drive innovation, Project Transform not only addresses current gaps in the education system but also paves the way for a more dynamic, inclusive, and forward-thinking academic future. As the initiative continues to grow, its impact will echo across generations, contributing meaningfully to the nation's vision of becoming a knowledge-driven society by 2048.

CATALYST '24

Date : 01th August 2024 - 31st August 2024
Chairpersons : Rtr. Ilampoornan Ragupuran ,Rtr. Navindu Jayalath
Venue : Sense Pavillion,Horana , via Zoom
Secondary Avenue : N/A

Catalyst'24 was launched with the objective of enhancing the leadership skills of the newly appointed board members of Rotaract Club of University of Moratuwa through interactive workshops, mentorship sessions, and practical training. The initiative sought to give the board members necessary skills and knowledge to perform effective leadership execution while creating a team of strong and confident youth leaders.

The delivery structure of the project followed a blended model, by conducting a session via zoom platform and another session at an outdoor venue. This hybrid approach combined physical and virtual elements as it created an exciting learning space which delivered a broad range of topics critical to leadership development.

The online session was conducted by two eminent personalities from the Rotaract community, on 25th of August. Mr. Yukthi Gunesekara, a Rotarian, Toastmaster, a true spellbinder as well as a long-standing collaborator of Rotaract Mora, guided participants in developing daily habits through his session titled "Recipe for Success". His speech was followed by Rtr. Paveen Perera, who shared valuable insights as the Past President of Rotaract Mora and the former Assistant District Rotaract Representative of District 3220, while also having seven years of experience as a Rotaractor.

The second session of the project happened on 31st of August at Sense Pavilion, Horana as an outbound training session. Since the purpose of this program involved developing teamwork skills the board members faced activities such as capture the flag, scavenger hunts, and charades to build trust, enhance communication, and increase collaboration. Members created bonds beyond their professional roles, through this relaxed environment leading to better team unity. Members concluded the day by enjoying meals, recreational games, and taking a group photo which served as a long lasting memory.

The promotional campaign accompanied the project by the creative organizing team along with designing and executing. The campaign materials included themed flyers and detailed captions to reach the board members. Milestone updates were shared on August 21st, 25th, and 30th including a teaser material as well as speaker introductions, and expressions of appreciation.

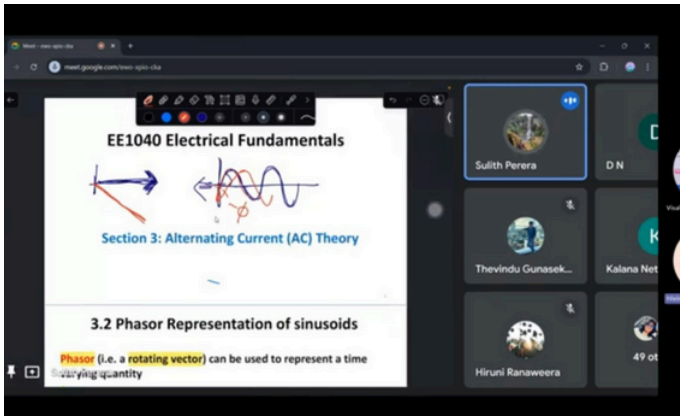

Through Catalyst'24 Rotaract club of University of Moratuwa created an all encompassing and meaningful leadership development opportunity for its newly appointed board members. By integrating expert guidance, practical exposure, and interactive learning, the project not only strengthened individual competencies but also reinforced collective unity within the board. Catalyst'24 successfully established the foundation for a cohesive, prepared, and empowered leadership team for the year ahead enriched with a well structured promotional campaign.

ROTA KUPPIYA

Date : 16th August 2024 - 28th December 2024
Chairpersons : Rtr. Sasindi Peiris, Rtr. Visal Chamuditha
Venue : Online
Secondary Avenue : N/A

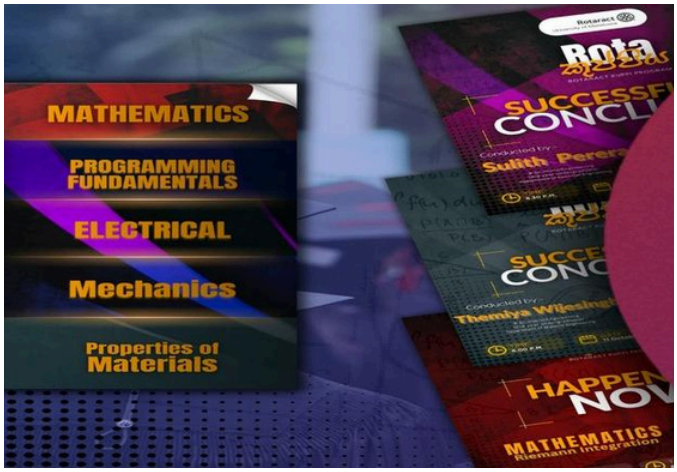

The Rotaract Club of University of Moratuwa proudly launched the second edition of Rota Kuppiya, a flagship academic support initiative aimed at assisting the 23rd batch of Engineering Faculty students. Designed to address the challenges posed by the rigorous first-year coursework, Rota Kuppiya provided a collaborative learning platform that focused on clarifying theoretical concepts, offering assignment guidance, and analyzing past exam papers. The initiative sought to boost students' academic performance while fostering confidence in tackling difficult subjects.

A key enhancement in this year's program was the early commencement of sessions—several months ahead of the final examinations. This proactive scheduling allowed students to approach their studies at a steady pace, promoting a more relaxed and effective learning environment. The Kuppi Program comprehensively covered all core modules relevant to the critical examination that determines the students' selection into their desired engineering disciplines. Key subjects included Mathematics, Programming Fundamentals, Fundamentals of Electricity, Mechanics, and Properties of Materials.

The first session, held on September 6th, focused on Real Analysis within the Mathematics module. From there, the program progressed in alignment with the academic calendar of the 23rd batch, concluding on November 15th with a comprehensive session on Programming Fundamentals. To ensure inclusivity and maximum accessibility, all Kuppi sessions were conducted online. Each live session hosted over 100 participants via the main platform, while additional students joined through YouTube live streams. These streams garnered significant engagement, with over 500 viewers per session and the Programming Fundamentals session reaching approximately 1,600 views—making it one of the most-watched videos on the Rotaract Mora YouTube channel.

The success of Rota Kuppiya was largely attributed to the dedication of senior students from the Engineering Faculty who led the sessions. These facilitators, often from departments related to the specific modules, brought with them a deep understanding of the content and valuable firsthand experience. Their relatable teaching approach and willingness to share practical knowledge greatly enhanced the effectiveness of each session.

Ultimately, the Rota Kuppiya initiative emerged as a cornerstone of academic support within the university, enabling students to navigate their coursework with confidence and clarity. By beginning earlier in the term and offering focused guidance across key subjects, the program not only contributed to academic success but also strengthened the culture of peer-led learning at the University of Moratuwa.

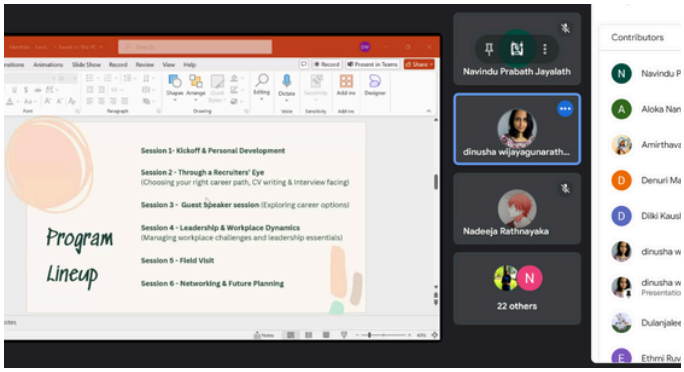

MENT HER

Date : 123rd August 2024 - 31st May 2025
Chairpersons : Rtr. Siluni Dissanayake, Rtr. Sanjani Perera, Rtr. Senithi Vihara
Venue : Online
Secondary Avenue : N/A

The sight of a working woman today is common, but it wasn't always this way. Women have faced a long struggle to achieve equal participation in the workforce, and challenges still persist. Gender-based discrimination remains a major obstacle, especially in fields like STEM and finance. These challenges can negatively impact women's well-being and limit their professional growth.

To address this, it's vital to empower young women to overcome such barriers. As Sri Lanka's leading technical university, the University of Moratuwa plays a key role in supporting its female undergraduates. In line with this, the Rotaract Club of University of Moratuwa launched MentHer, a professional development initiative that offers mentoring from successful female professionals in the corporate sector.

MentHer promotes the idea of "Women Supporting Women," encouraging female leaders to guide young women in achieving their goals. The project addresses the challenges women face in the workplace and creates a platform for undergraduates to learn directly from experienced professionals

It aims to expose mentees to career possibilities, help them develop essential skills, and promote a balanced approach to professional and personal life.

Applications were open to all female undergraduates, with a focus on first- and second-year students. Selected mentees were grouped and paired with mentors from relevant industries, including engineering, IT, architecture, apparel, and logistics. Mentors were chosen for their experience and willingness to share insights from their own journeys, making the sessions highly relatable and impactful.

Each group held four mentoring sessions covering goal-setting, overcoming gender-specific workplace challenges, and career development. The sessions helped mentees build confidence and gain a clearer vision for their future. Strong relationships were formed between mentors and mentees, extending beyond the sessions through continued communication and guidance.

To complement the mentoring sessions, two field visits were organized to provide real-world exposure. These visits aimed to strengthen the mentor-mentee bond and give students a better understanding of industry environments.

MentHer has proven to be a valuable initiative for both mentees and mentors. It empowers young women to confidently pursue their careers while allowing mentors to give back by guiding the next generation. Through this project, the Rotaract Club of University of Moratuwa continues to equip female undergraduates with the tools, skills, and inspiration needed to break barriers and thrive in the workforce.

ARE YOU READY? 2025

Date : 24th September 2024 - 05th March 2025
Chairpersons : Rtr. Navindu Jayalath, Rtr. Shehan Lokuwella
Venue : Online, University of Moratuwa
Secondary Avenue : N/A

The Rotaract Club of the University of Moratuwa, in collaboration with the Career Guidance Unit, proudly presents the 2025 edition of the university's official career fair – Are You Ready?. Continuing its legacy of over 27 years, this flagship initiative remains a vital bridge between academia and industry, empowering more than 1,000 undergraduates from across all faculties to discover their potential and take confident steps toward their professional futures.

Are You Ready? 2025 is designed to ignite career aspirations, foster entrepreneurial thinking, and equip students with the tools they need to succeed in an ever-evolving job market. Through one-on-one interactions with industry leaders, exclusive recruitment opportunities, and skill-enhancing sessions, the event ensures that students are not only employable but also future-ready.

The planning for this monumental initiative began in September 2024, and the event spans several months of dedicated effort, featuring a series of impactful sub-projects. These components are curated to provide students with holistic career preparation while connecting them with some of the most reputed companies in Sri Lanka.

Heads Up

Date : 25th, January 2025 - 10th, February 2025
Venue : via Zoom
Chairpersons : Rtr.Zeenath Rahma, Rtr. Sanduni Wijenayaka

Heads Up was organized as the inaugural sub-project of Are You Ready? 2025, the flagship career guidance initiative of the Rotaract Club of University of Moratuwa in collaboration with the Career Guidance Unit. Designed to empower undergraduates with essential employability skills, the project aimed to provide practical knowledge in two vital areas of professional development—curriculum vitae (CV) writing and interview skills.

The event took place on the 10th of February 2025 via Zoom and witnessed the enthusiastic participation of over 150 students.

The first session focused on crafting an impactful CV aligned with current industry standards and was conducted by Dr. Ranga Rodrigo, Senior Lecturer at the Department of Electronic and Telecommunication Engineering, University of Moratuwa. The second session, led by Ms. Dinusha Wijayagunarathna, Deputy Manager of HR and Talent Development at Hutchison Telecommunications Lanka (Pvt) Ltd, provided valuable insights into mastering interviews and making strong impressions on potential employers.

Both sessions were conducted in an interactive format, combining presentations with real-world tips and practical advice. The resource persons also addressed frequently encountered challenges faced by students when entering the job market. To ensure long-term impact, session recordings were made available to all participants, allowing them to revisit and reflect on the content at their own pace. *Heads Up* successfully laid the foundation for the rest of the *Are You Ready?* series, equipping students with the confidence and tools to embark on their career journeys.

Global Pathway

Date : 5th, January 2025 - 5th, March 2025
Venue : via Zoom, University of Moratuwa
Chairpersons : Rtr.Samuditha Damseth, Rtr. Lakshitha Karunarathne,Rtr.Chamoda Ruvinduni

Global Pathway, a flagship sub-project of Are You Ready? 2025, continued its legacy as a transformative platform designed to empower final-year undergraduates of the University of Moratuwa. The project aimed to provide valuable insights into foreign employment opportunities, international internships, and higher education prospects abroad. With a commitment to preparing students for global exposure, this year's edition was conducted in a hybrid format integrating both online and physical sessions and impacted over 100 enthusiastic participants.

The online session, held on the 15th of February via Zoom, featured three distinguished speakers: Dr. Prathapasinghe Dharmawansa (Senior Lecturer, Department of Electronic and Telecommunication Engineering, University of Moratuwa), Mr. Sandushan Ranaweera (Ph.D. candidate, University of Technology, Sydney), and Ms. Dimithri De Meraal (Ph.D. candidate, RMIT University, Melbourne).

hese experts offered deep insights into global trends in employment, postgraduate education, and research. The session also included an engaging Q&A segment where students were encouraged to ask questions and gain clarity on various global career and education paths.

Following the virtual engagement, the physical session on 5th March created a unique opportunity for undergraduates to interact directly with organizations that support international academic advancement. Representatives from the AIESEC Club of University of Moratuwa and a reputed international education consultancy provided students with information on study programs, scholarships, and academic collaborations available worldwide.

Overall, Global Pathway 2025 stood out as a beacon for students aiming to explore the world beyond borders. It not only provided access to vital resources and professional networks but also inspired students to take confident strides toward their global ambitions.

The Image

Date : 6th, January 2025 - 19th, February 2025
Venue : University of Moratuwa
Chairpersons : Rtr.Ravindu Shakya, Rtr. Sineli Malaviarachchi ,Rtr.Imal Wickrama Arachchi

The Image, a key sub-project under Are You Ready? 2025, was designed with the vision of preparing undergraduates not only to enter the workforce but to stand out in it. In today's dynamic and competitive world, academic qualifications alone no longer guarantee career success. Recognizing this, The Image focused on developing two essential pillars of modern employability : personal branding and entrepreneurial thinking, offering students an early start in building their professional identity.

Held on February 19th at the Rubert Peiris Auditorium, the event attracted a remarkable participation of over 250 students from all years of study. By opening its doors to undergraduates across different academic levels, the initiative emphasized the value of starting personal and professional development early. The sessions aimed to foster a mindset shift—encouraging students to actively shape their own career paths and not simply wait for opportunities to come to them.

The event featured two powerful sessions conducted by some of Sri Lanka's most well-known personalities. Bathiya and Santhush (B&S), Sri Lanka's iconic musical duo, delivered an engaging talk on Entrepreneurship & Personal Grooming, highlighting how they have seamlessly blended artistry with business acumen. Mr. Dhanika Perera, the visionary behind the Helakuru app, inspired the audience with his journey in Entrepreneurship & Personal Branding, detailing how a simple idea grew into a nationwide digital platform.

Interactive discussions, real-life insights, and audience engagement made *The Image* a highly impactful experience. It encouraged students to think beyond traditional job roles, explore innovative pathways, and embrace challenges with confidence and clarity. Overall, The Image – Are You Ready? 2025 succeeded in igniting ambition, nurturing bold thinking, and empowering undergraduates to navigate their futures with purpose.

Resume Centre

Date : 18th, February 2025 - 27th, February 2025
Venue : University of Moratuwa
Chairpersons : Rtr.Minoli Rathnayake, Rtr.Bavindu Abhilash

Resume Centre, a core sub-project of Are You Ready? 2025, played a pivotal role in preparing final-year undergraduates at the University of Moratuwa for their transition into the professional world. Conducted as a physical event on February 27, 2025, from 9:00 a.m. to 4:00 p.m. at the university premises, the initiative was met with overwhelming participation and enthusiasm, highlighting its significance and growing impact.

With over 400 CV submissions from final-year students, the Resume Centre was carefully curated to provide individualized, high-quality feedback. The initiative aimed not only to review resumes but to empower students with insights into what makes a CV industry-ready. Evaluators focused on key areas such as effective formatting, the strategic use of color coding, emphasizing relevant experiences, and including crucial yet often overlooked content.

The success of the Resume Centre was further elevated by the involvement of reputed corporate partners—Hayleys, eArrow, Colombo Dockyard, and Hutch. Each submitted CV was organized by academic department and forwarded to HR professionals from these partner companies, ensuring that feedback was relevant and discipline-specific. This industry collaboration ensured that students received guidance aligned with real-world expectations and recruitment standards.

One of the event's standout features was the one-on-one feedback sessions. Students were given the rare opportunity to engage directly with the same professionals who assessed their CVs. These 10–15 minute individual sessions allowed for tailored advice, personal queries, and career-related discussions, fostering a deeper understanding of how to present themselves in a competitive job market.

Ultimately, the Resume Centre served as an essential preparatory milestone for Are You Ready? 2025. It enabled undergraduates to refine their resumes, gain valuable industry perspectives, and enhance their confidence, giving them a strong head start as they embarked on their professional journeys.

Career Insights

Date : 25th, February 2025 - 03rd, March 2025
Venue : Online
Chairpersons : Rtr.Ihithisham Fazal

Career Insights, a pivotal sub-project of Are You Ready? 2025, served as a valuable bridge between academia and the professional world by offering graduating students firsthand exposure to the expectations and dynamics of leading companies in Sri Lanka. Conducted virtually via Zoom, the sessions featured informative presentations by Colombo Dockyard and Hutch, who shared details about their organizational cultures, current job openings, recruitment processes, and the skillsets they value most.

Each session was followed by an engaging Q&A segment, providing students with the opportunity to ask questions and receive personalized insights directly from company representatives. This interactive approach allowed participants to better understand industry demands and prepare accordingly.

The series was well-received by students, who appreciated the opportunity to gain real-world knowledge and clarity on potential career paths.

Career Insights ultimately empowered undergraduates to make informed decisions about their futures while equipping them with practical advice ahead of the career fair, making it a timely and impactful addition to the Are You Ready? initiative.

Flagship Fair

Date : 24th, September 2025 - 05th, March 2025
Venue : University of Moratuwa
Chairpersons : Rtr. Ashen Perera, Rtr. Thiniru Bandara, Rtr. Kaveesha Dilshan

The Flagship Fair of Are You Ready? 2025 marked the grand culmination of the University of Moratuwa's premier career development initiative, organized for the 27th consecutive year by the Professional Development Avenue of the Rotaract Club of University of Moratuwa. This long-standing and prestigious event continued its mission of bridging the gap between the undergraduate community and the corporate world, providing final-year students with a platform to connect with leading employers, explore career opportunities, and gain firsthand experience with industry expectations.

Held on March 5, 2025, the event took place across several key locations within the university, including the Boardroom of the Engineering Faculty, Exam Hall 1, Exam Hall 2, and the Old Gymnasium, to accommodate the large number of attendees. The fair drew the participation of over 1000 final-year undergraduates representing various faculties—Engineering, IT, Architecture, and Business—alongside 45 prominent corporate organizations from across Sri Lanka. This large-scale engagement emphasized the growing relevance and impact of the event.

The fair featured two core segments: the Opening Ceremony, which set an energizing and motivational tone for the day, and the Flagship Fair Interview Process, which proved to be the highlight of the event. During the interview segment, students had the opportunity to engage in one-on-one interviews with company representatives. These included both actual interviews and mock interviews, enabling students to gain practical experience, refine their interview techniques, and receive direct feedback from industry professionals.

A remarkable 2000+ interviews were conducted throughout the day. These interviews fell into various categories: matched interviews (based on submitted CVs and company preferences), walk-in interviews, and interviews with pre-shortlisted candidates. Each student attended an average of 2 to 6 interviews, significantly increasing their chances of securing job placements or internship opportunities. The hands-on nature of this experience made it one of the most impactful components of the entire initiative.

The success of the Flagship Fair was further amplified by the efforts of over 100 student volunteers, primarily first- and second-year undergraduates. More than 80 of them served as panel organizers, ensuring the smooth coordination of interview schedules and supporting the logistics for each participating company. To maintain efficiency, every company was assigned three panel coordinators who worked closely with the corporate representatives and ensured a professional, well-organized environment.

In conclusion, *Are You Ready? 2025 – Flagship Fair* solidified its status as a transformative experience for final-year undergraduates at the University of Moratuwa. By connecting students with real-world career opportunities and helping them understand the expectations of today's job market, the fair empowered them to take confident steps into their professional futures. The event not only facilitated career advancement but also reinforced the University's reputation for producing industry-ready graduates, making it a truly defining chapter in the students' academic journey.

INSIGHT

Date : 30th September 2024 - 01st November 2024
Chairpersons : Rtr. Ilampoornan Ragupuran, Rtr. Navindu Jayalath
Venue : University of Colombo
Secondary Avenue : N/A

Insight, the flagship corporate event organized by AIESEC at the University of Colombo, concluded successfully on November 1st, with the Rotaract Club of University of Moratuwa serving as the Official Networking Partner. Celebrating its eighth edition, the event empowered approximately 150 students and young professionals, creating a dynamic platform for career exploration, professional development, and meaningful networking.

This year's theme focused on bridging the gap between academia and the corporate world, a topic that resonated strongly with attendees. Through a series of workshops, keynote speeches, and interactive sessions, participants gained valuable insights into building personal brands, navigating career paths, and developing critical soft and professional skills essential for today's job market. The sessions were designed to foster confidence, enhance employability, and prepare young professionals to thrive in an ever-evolving professional landscape.

Distinguished speakers and industry leaders shared practical strategies on mentorship, networking, and continuous self-growth, drawing from their own career journeys. These talks were complemented by hands-on activities that encouraged delegates to practice real-time networking, receive personalized advice, and reflect on their aspirations in alignment with industry expectations. This multi-dimensional approach allowed attendees to absorb knowledge and apply it meaningfully within the event itself.

What truly set Insight apart was its role as a catalyst for building long-lasting professional relationships. Many participants explored new opportunities, from internships to mentorships and collaborative ventures. The supportive and collaborative environment enabled them to envision their future with clarity and ambition, while also fostering a sense of camaraderie among aspiring leaders across different fields.

The event received overwhelmingly positive feedback, with attendees commending the balance between theoretical learning and practical application. Many highlighted the value of gaining actionable takeaways and expanding their professional networks in a welcoming and structured setting. These aspects solidified Insight's reputation as a high-impact initiative for youth empowerment.

This year's edition was especially noteworthy for its strategic partnership with the Rotaract Club of University of Moratuwa, which significantly elevated the networking experience. The collaboration broadened the event's reach and introduced new opportunities for cross-organizational engagement, further enriching the experience for all involved.

In essence, Insight 2024 succeeded not only in providing knowledge but also in fostering a space where learning, growth, and connection converge—paving the way for a new generation of professionals ready to take on the challenges of the corporate world with confidence and purpose.

34TH ROTARACT DISTRICT CONFERENCE

Date : 15th November 2024 - 22nd March 2025
Chairpersons : Rtr. Ilampoornan Ragupuran
Venue : Pledge Scape Hotel, Negombo
Secondary Avenue : N/A

The 34th Rotaract District Conference, held on February 16, 2024, at Pledge Scape, Negombo, was one of the most prestigious and eagerly awaited events on the Rotaract calendar. This annual gathering brought together Rotaractors from across the district to engage in leadership development, networking, and community building. The conference was a collaborative hosting effort by six distinguished Rotaract clubs: APIIT, Colombo Reconnections, General Sir John Kotelawala Defence University, Royal Institute of Colombo, University of Colombo School of Computing, and University of Moratuwa. Together, they created an environment that fostered connection, learning, and inspiration.

From the outset, the venue buzzed with energy as attendees from diverse clubs and backgrounds came together. The program was thoughtfully curated to blend keynote speeches, panel discussions, interactive breakout sessions, and entertainment, ensuring that participants were engaged and inspired throughout the day.

A highlight of the conference was the keynote address by Dr. Kalpana Ambepitiya, Head of the UNESCO Entrepreneurship Education Network Sri Lanka National Chapter. Dr. Ambepitiya's session emphasized the critical role of entrepreneurship and leadership in shaping future changemakers, encouraging participants to embrace innovation and purposeful leadership.

Adding a unique emotional and cultural element to the event, Randhir Witana captivated the audience with his heartfelt speech and an impromptu musical performance, infusing joy and warmth into the conference atmosphere. Namini Panditha's reflective speech on liberal values sparked deep conversations about the principles that underpin meaningful leadership and service.

The conference's central panel discussion, moderated by Rtr Mandarika Jayasiri, featured notable industry leaders such as Dilupa Pathirana (CEO of Barista Coffee Lanka), Malaka Rubasinghe (Wave Bolgoda/Singhe Group), and Joel Thilakarathne (Founder of Carnage). The panelists shared their personal journeys and insights on leadership, innovation, and growth, inspiring young professionals and entrepreneurs with practical wisdom and motivational stories.

A significant segment of the conference was the "Ask the DRR" session, which fostered open dialogue between past, present, and future District Rotaract Representatives. This candid exchange offered valuable perspectives on leadership challenges, lessons learned, and visions for the Rotaract movement's future, enriching the audience's understanding of the organization's direction.

The conference also hosted the official election for the District Rotaract Representative Nominee (DRRN) for the 2026–27 term. Club presidents, secretaries, and proxies participated in a transparent voting process, resulting in the election of PHF Rtn. Rtr. PP Jude Shannon Lucian as the new DRRN. This milestone marked an important transition and energized the district's leadership trajectory.

Complementing the leadership sessions, Rtn. Farzana Khan, Youth Service Director, delivered an inspiring address on Rotaract's transformative impact on youth development, character-building, and service leadership. Her speech reinforced the broader purpose of the conference in nurturing empowered, socially responsible young leaders.

Beyond the formal program, the conference prioritized participant well-being and networking through a well-curated lunch buffet, refreshments, and a welcoming atmosphere at Pledge Scape. These elements fostered informal interactions, collaboration, and lasting connections among attendees.

The day concluded on a celebratory note with a lively awards segment, recognizing fun moments and unique contributions that added personality and joy to the conference. Group photos and candid moments captured the spirit of camaraderie, ensuring that the memories and bonds formed would endure well beyond the event.

Overall, the 34th Rotaract District Conference was a resounding success — a dynamic platform that combined learning, inspiration, leadership, and fellowship. It not only reminded attendees of the value and purpose of their involvement in Rotaract but also energized them to continue serving with passion and vision.

SKILLXCELERATOR

Date : 08th January 2025 - 08th May 2025
Chairpersons : Rtr. Ilampoornan Ragupuran ,Rtr.Navindu Jayalath
Venue : University of Colombo Premises / University of Peradeniya Premises
Secondary Avenue : N/A

Project SkillXcellerator was launched as a professional development initiative aimed at empowering young professionals and students in Sri Lanka by equipping them with in-demand skills across a variety of fields. Conducted entirely free of charge, the project featured two comprehensive phases that brought together expert speakers and eager participants to foster learning, networking, and practical skill-building.

Phase 01

Phase 1 of SkillXcellerator took place on March 8th at the Faculty of Arts, University of Colombo, following a successful PR campaign that generated widespread interest. The event featured a full day of engaging sessions across multiple domains. The morning began with a business management session by Ishani Mirihagalla and Maas Savanghan, focusing on practical strategies in talent development. In parallel, Dilmini de Silva and Senitha Senanayake conducted a dynamic session on journalism, offering real-world insights from their experience in media.

One of the most anticipated segments, the software engineering session, was delivered by Isuru Jayakody, Tech Lead at Axiata Digital Labs, who shared valuable industry knowledge. Simultaneously, a series of legal discussions were led by Janithri Pandithrathne, Namali Rathnayake, Yalinda de Almeida, and Binuri Weerasinghe, addressing current legal issues and implications. Post-lunch, sessions resumed with a deep dive into AI and analytics by Sandani Jayawardane and Lahiru Ariyasinghe, exploring data-driven innovation. Meanwhile, Rangika Perera facilitated an impactful session on project management. The day concluded with a powerful discussion on international relations and human rights, led by Chiranthi Senanayake, offering a global perspective on critical issues. Tokens of appreciation were presented to all speakers, marking a memorable conclusion to the day.

Phase 02

Phase 2 was held on April 26th at the University of Peradeniya and focused on the key areas of business analytics, business management, and software engineering. This phase continued the momentum of the first, featuring experienced professionals who brought practical insights to the table. The business analytics session was led by Malsha Mayadunne, Associate BA Lead, and Ramesh Peries, a Senior Business Consultant, offering knowledge on interpreting data and making strategic decisions. In the software engineering segment, Madhushan Adhikari, Associate Architect, shared insights into development practices and industry expectations. The business management session was conducted by Sasankaa De Zoysa, a Senior Executive in Talent Acquisition, who covered essential aspects of organizational leadership. Over 100 individuals registered for the event, with 60 participants actively attending and engaging with the content. Refreshments were provided throughout to ensure a comfortable experience for everyone.

Together, the two phases of Project SkillXcellerator offered an enriching platform for participants to gain professional insights, improve their competencies, and prepare for future career challenges. By covering a wide range of fields including journalism, law, international relations, software development, business analytics, and project management, the project made a meaningful contribution to the personal and professional growth of young individuals across Sri Lanka.

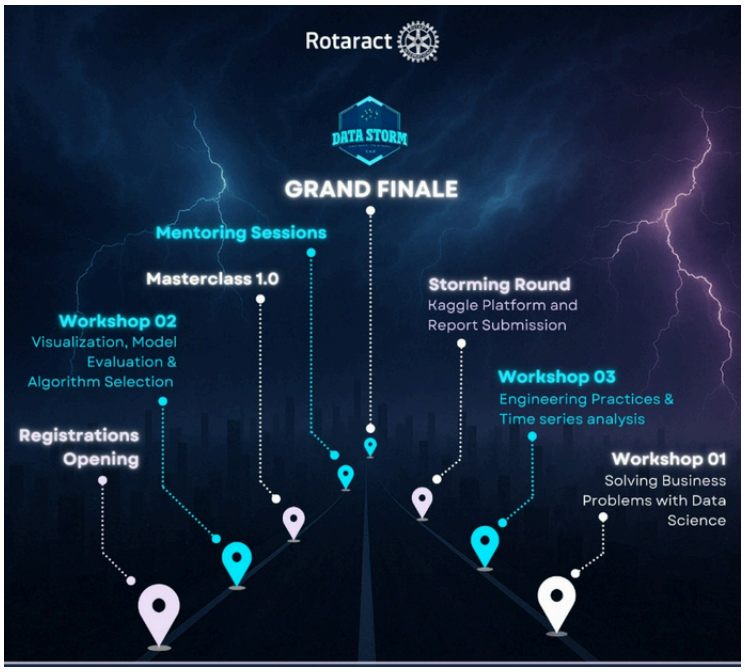

DATA STORM 6.0

Date : 28th February 2025 - 31st May 2025
Chairpersons : Rtr.Ramida Penuka ,Rtr. Minoli Rathnayake, Rtr. Dashintha Jaywardena
Venue : Kaggle Platform, Online, University of Moratuwa
Secondary Avenue : N/A

In today's digital era, data stands as one of the most valuable assets, driving innovation and informed decision-making across sectors. Recognizing the importance of harnessing data for meaningful impact, Data Storm was introduced as a flagship data analytics competition jointly organized by the Rotaract Club of University of Moratuwa and the Rotaract Club of Faculty of Science, University of Colombo. Since its inception in 2019-20, the initiative has grown into one of Sri Lanka's most recognized undergraduate-level analytics competitions, providing students with a platform to apply real-world data science and analytical techniques to solve pressing problems.

Data Storm 6.0, organized for the sixth consecutive year, was powered by OCTAVE – The Data and Advanced Analytics Division of the John Keells Group. The competition was carefully structured into several stages: introduction webinars, registrations, Masterclass 1.0, the Storming Round, Masterclass 2.0, personalized mentoring sessions, and the Grand Finale. Each stage was strategically crafted to enrich participants' understanding of data analytics while gradually preparing them for a rigorous and intellectually stimulating challenge.

The organizing committee initiated planning on February 28, 2025, dedicating more than two and a half months to ensure seamless execution. A strong digital infrastructure, including communication through WhatsApp and vibrant online publicity campaigns, ensured active engagement among organizers and participants. Webinars conducted by prominent industry experts such as Mr. Thenuwan Jayasinghe, Mr. Sandil Ranasinghe, and Dr. Sameera Vishwakula helped build foundational knowledge, especially for the many first- and second-year undergraduates taking part.

Following the surge in registrations, Masterclass 1.0 focused on Data Driven Insurance, conducted by specialists from OCTAVE. The Storming Round, hosted on Kaggle, took place over an intense 26-hour period (from May 8 to May 9), during which participants worked with real-world datasets under time pressure. After rigorous code evaluations, the top 10 teams were shortlisted for the final stage of the competition.

To prepare the finalists, Masterclass 2.0 on *Advanced Applications of Machine Learning in Business Analytics* was held by Mr. Aadil Illyas, followed by personalized mentoring sessions on May 27 and 28, during which each team received one-on-one guidance from industry experts. These sessions proved to be crucial in refining final presentations and deepening industry exposure.

The Grand Finale took place on May 31, 2025, at Rubert Peiris Hall, University of Moratuwa, judged by an esteemed panel including Dr. Sanadareka Wickremanayake, Dr. Sumani Rajadurai, Dr. Sameera Vishwakula, and Mr. Aadil Illyas. Finalists delivered live presentations followed by Q&A sessions. Team "Data Sync" emerged victorious, winning Rs. 90,000, while Team "Error 404" and Team "Cognic AI" were awarded Rs. 60,000 and Rs. 30,000, respectively.

With participation from over 220 students across various state and private universities in Sri Lanka, Data Storm 6.0 significantly expanded its reach and impact.

The initiative not only provided students with hands-on experience in data science but also promoted collaboration, innovation, and problem-solving under real-world conditions.

Through experiential learning and industry engagement, Data Storm 6.0 empowered youth with cutting-edge analytical skills crucial for the data-driven future.In conclusion, Data Storm 6.0 stood out as a transformative and rewarding initiative, uniting aspiring data scientists in the spirit of competition, learning, and innovation, cementing its place as one of Sri Lanka's most impactful student-led analytics challenges.

AGORA LINK

Date : 01st April 2025 - 31st May 2025
Chairpersons : Rtr. Ilampoornan Ragupuran, Rtr. Navindu Jayalath
Venue : Online
Secondary Avenue : N/A

Agora Link is a flagship community empowerment initiative by the Rotaract Club of the University of Moratuwa, inspired by the ancient Greek concept of the "Agora"—a dynamic space where individuals gather to trade goods, exchange ideas, and foster human connection. Translating this concept into a modern Sri Lankan setting, Agora Link seeks to strengthen local entrepreneurship by spotlighting small-scale businesses and connecting them with broader support networks.

Sri Lanka's current economic climate has placed immense pressure on micro-entrepreneurs and small businesses. Agora Link responds to this challenge by creating a platform that uplifts and promotes these ventures—particularly those rooted in traditional methods, unique craftsmanship, and innovative local solutions. The project operates on the principle that empowering communities at the grassroots level can drive sustainable, long-term economic recovery.

In its inaugural phase, Agora Link focused on student-led small businesses within the University of Moratuwa. Through a combination of professionally curated Instagram Reels, YouTube videos and written blog content, the project showcased the stories behind these ventures—highlighting their inspiration, operations, challenges, and impact. This approach not only gave visibility to budding entrepreneurs but also helped build appreciation for locally made products and traditional skills.

Beyond promotion, the project emphasized network building, connecting entrepreneurs with fellow business owners, professionals, customers, and potential mentors. By doing so, Agora Link fosters collaboration and knowledge exchange, contributing to the growth and resilience of these ventures.

Moving forward, Agora Link aims to expand its reach beyond the university and create a long-lasting digital platform that inspires people to shop local, celebrate Sri Lankan talent, and contribute to inclusive economic growth—one small business at a time.

ROTARY FOCUS AREAS AND SDGS COVERED

Project Name	SDG	Rotary Focus Areas
Rota Kuppiya	-	• Basic Education and Literacy

Rota Kuppiya successfully advanced the Rotary focus area of Basic Education and Literacy by providing structured academic support to first-year engineering students at the University of Moratuwa. Through early intervention, subject-focused sessions, and peer-led guidance, the initiative enhanced students' comprehension of complex concepts and improved their academic confidence. The inclusive online delivery model expanded access, reaching hundreds of learners and promoting a culture of collaborative, student-driven education.

Project Name	SDG	Rotary Focus Areas
Catalyst '24	-	-

The success of Catalyst'24 was achieved through a carefully designed blend of expert-led online sessions and engaging outdoor team-building activities. By combining theoretical knowledge with practical experiences, the initiative effectively developed leadership skills and fostered strong interpersonal bonds among board members. The involvement of respected Rotaract and Rotary leaders provided valuable mentorship, while interactive games and shared moments enhanced team cohesion. Additionally, a well-planned promotional campaign ensured active participation and maintained momentum throughout the program, resulting in a confident and unified leadership team ready to take on their roles.

Project Name	SDG	Rotary Focus Areas
Insight	-	-

Insight 2024 succeeded thanks to strong collaboration between AIESEC and the Rotaract Club of University of Moratuwa. The event combined expert talks, practical workshops, and networking opportunities to help students and young professionals connect with industry leaders. This mix of learning and real-world interaction empowered participants to build skills and create valuable professional relationships for their future careers.

Project Name	SDG	Rotary Focus Areas
MentHer	• 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 4.5 Eliminate all discrimination in education. • 5.1 End discrimination against women and girls. • 5.2 End all violence against and exploitation of women and girls. • 5.5 Ensure full participation in leadership and decision-making. • 5.7 Equal rights to economic resources, property ownership and financial services. • 5.8 Promote empowerment of women through technology. • 8.3 Promote policies to support job creation and growing enterprises. • 8.5 Full employment and decent work with equal pay. • 8.6 Promote youth employment, education and training. • 8.8 Protect labour rights and promote safe working environments. • 9.1 Develop sustainable, resilient and inclusive infrastructures. • 9.2 Promote inclusive and sustainable industrialization. • 10.2 Promote universal social, economic and political inclusion. • 10.3 Ensure equal opportunities and end discrimination. • 17.6 Knowledge sharing and cooperation for access to science, technology and innovation. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy

MentHer contributed to achieving several Sustainable Development Goals (SDGs) and their focus areas by promoting quality education (SDG 4) through mentorship and skill development, ensuring equal access to education and training for young women (4.3, 4.4). It advanced gender equality (SDG 5) by empowering women to overcome workplace discrimination and encouraging their full participation in leadership and decision-making (5.1, 5.5, 5.7, 5.8). The program supported decent work and economic growth (SDG 8) by preparing female undergraduates for successful careers, promoting youth employment, and fostering safe and inclusive workplaces (8.3, 8.5, 8.6, 8.8). Additionally, MentHer fostered inclusive economic development and social inclusion (SDG 10) by addressing gender-based barriers and promoting equal opportunities (10.2, 10.3). Through effective partnerships between the university, mentors, and the Rotaract Club, it also enhanced knowledge sharing and collaboration (SDG 17) to empower women in STEM and other sectors (17.6, 17.17).

Project Name	SDG	Rotary Focus Areas
Project Transform	• 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 4.7 Education for sustainable development and global citizenship. • 4.10 Increase the supply of qualified teachers in developing countries. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy

Project Transform advanced several Sustainable Development Goals (SDGs) and focus areas by embedding 21st Century Skills into Sri Lanka's education system. It promoted equal access to quality education (SDG 4.3) by working with multiple schools across districts and providing affordable, accessible resources through the online platform. The initiative increased the number of students equipped with relevant skills for financial and personal success (SDG 4.4) through the Skills for Life program, fostering critical thinking, communication, and collaboration. By training teachers and school leaders via the Train the Trainer model and Principals Leadership Program, it contributed to increasing qualified educators (SDG 4.10) and strengthened sustainable education leadership. Project Transform also embraced education for sustainable development and global citizenship (SDG 4.7) by focusing on skills that prepare learners for a rapidly changing world. Finally, the collaboration between the Rotaract Club, UNESCO Sri Lanka, and the YKG Foundation exemplified effective partnerships (SDG 17.17) crucial for large-scale, sustainable educational reform.

Project Name	SDG	Rotary Focus Areas
The Scholar	• 1.4 Equal rights to ownership, basic services, technology and economic resources. • 3.8 Achieve universal health coverage. • 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 4.5 Eliminate all discrimination in education. • 5.1 End discrimination against women and girls. • 10.2 Promote universal social, economic and political inclusion. • 17.5 Invest in least developed countries.	• Economic and Community Development • Basic Education and Literacy

"The Scholar" initiative directly contributed to equal access to affordable higher education (SDG 4.3) by providing financial support to students from low-income families, helping them cover essential living costs. By enabling 50 students in the 2024–25 year to continue their studies without financial hardship, the project increased the number of people gaining relevant skills for financial success (SDG 4.4) and promoted social and economic inclusion (SDG 10.2). The focus on supporting disadvantaged students also addressed eliminating discrimination in education (SDG 4.5) and ending discrimination against women and girls (SDG 5.1) by ensuring fair opportunities. The partnership with the Mosvold Martinus Foundation exemplified investment in least developed countries (SDG 17.5) through collaborative funding and sustainable community development. Overall, "The Scholar" fostered economic empowerment and educational equity in line with key global development goals.

Project Name	SDG	Rotary Focus Areas
SkillXcelerator	• 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 10.3 Ensure equal opportunities and end discrimination. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy

Project SkillXcellerator advanced equal access to affordable higher education and professional development (SDG 4.3) by providing free skill-building sessions to young professionals and students across Sri Lanka. By equipping participants with relevant skills in fields like software engineering, business analytics, law, and international relations, the project contributed to increasing the number of people with skills for financial success (SDG 4.4). The initiative fostered an inclusive environment ensuring equal opportunities and ending discrimination (SDG 10.3) by welcoming diverse participants nationwide. Furthermore, the collaboration between universities, industry experts, and professional leaders exemplified effective partnerships (SDG 17.17), strengthening networks for sustainable economic and community development while enhancing basic education and literacy.

Project Name	SDG	Rotary Focus Areas
34th Rotaract District Conference	• 4.7 Education for sustainable development and global citizenship. • 8.3 Promote policies to support job creation and growing enterprises. • 9.8 Universal access to information and communications technology. • 11.4 Protect the world cultural and natural heritage.	• Economic and Community Development

The 34th Rotaract District Conference embraced key Sustainable Development Goals including quality education for sustainable development and global citizenship (SDG 4.7), promoting job creation and enterprise growth (SDG 8.3), ensuring universal access to information and communications technology (SDG 9.8), and protecting cultural and natural heritage (SDG 11.4). These aligned closely with Rotary's focus on Economic and Community Development, as the event fostered leadership, innovation, and collaboration among young professionals to drive positive social and economic impact in their communities.

Project Name	SDG	Rotary Focus Areas
Are You ready? 2025	• 4.4 Increase the number of people with relevant skills for financial success. • 4.5 Eliminate all discrimination in education. • 4.6 Universal literacy and numeracy. • 4.7 Education for sustainable development and global citizenship. • 5.1 End discrimination against women and girls. • 5.5 Ensure full participation in leadership and decision-making. • 5.7 Equal rights to economic resources, property ownership and financial services. • 8.5 Full employment and decent work with equal pay. • 10.2 Promote universal social, economic and political inclusion. • 10.3 Ensure equal opportunities and end discrimination.	• Economic and Community Development • Basic Education and Literacy

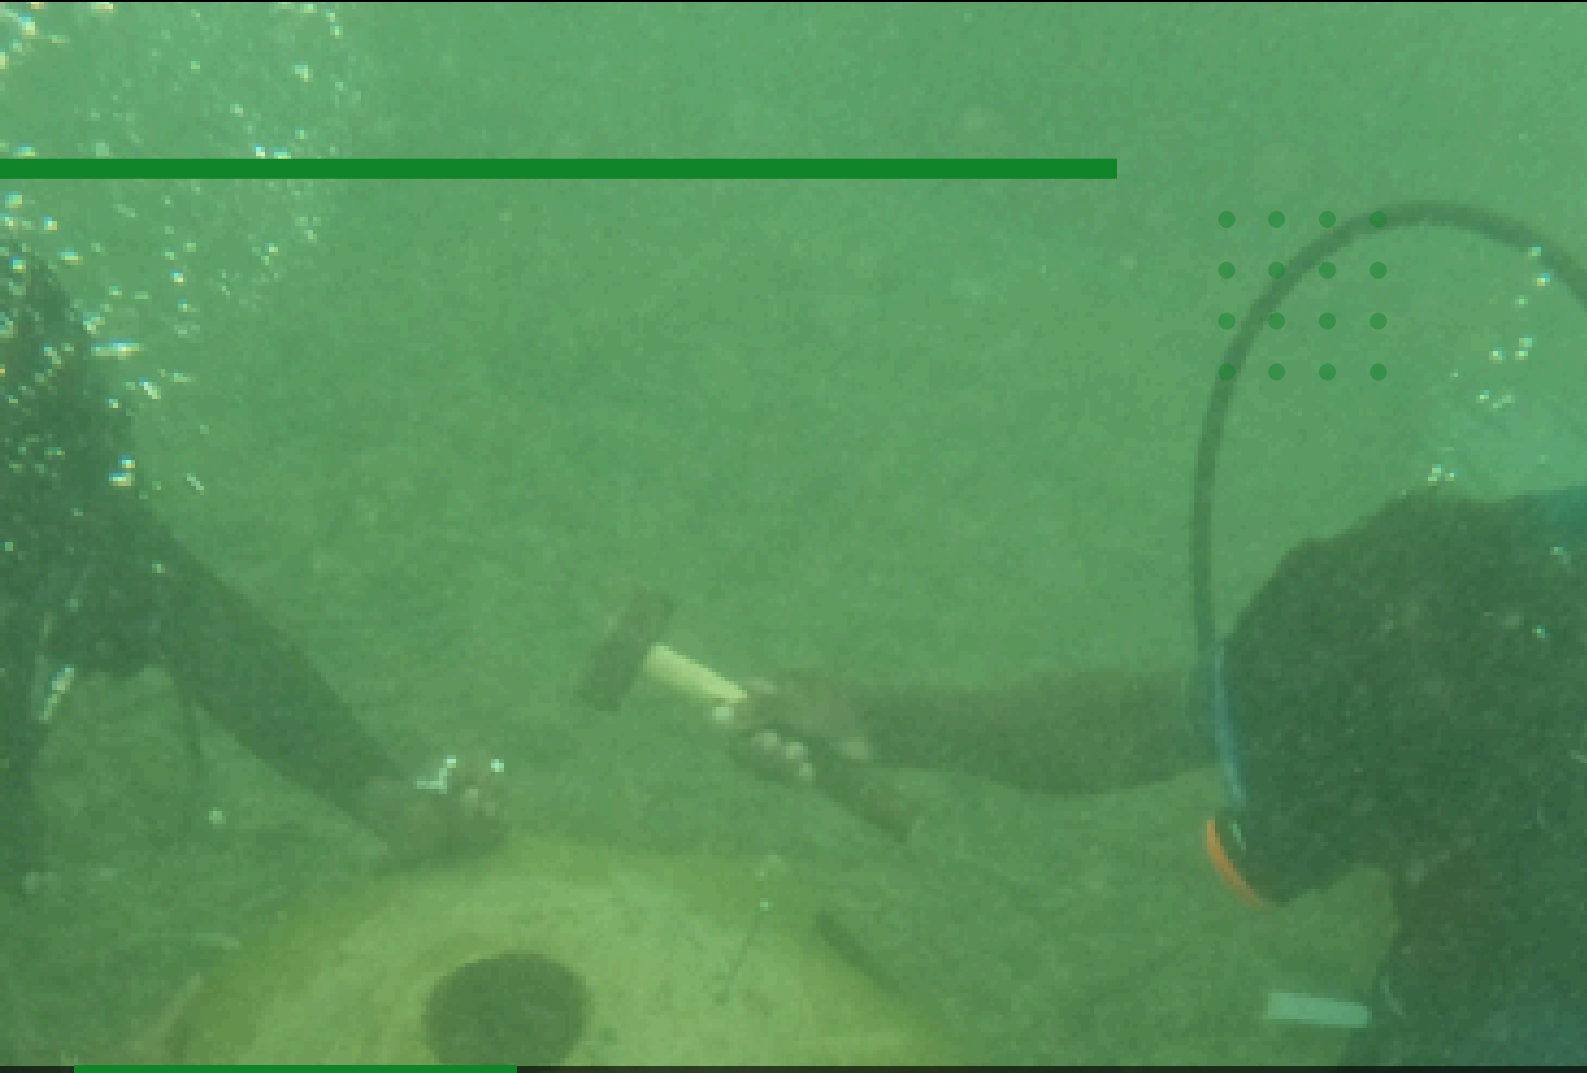

Are You Ready? 2025, organized by the Rotaract Club of University of Moratuwa, strongly aligns with key Sustainable Development Goals (SDGs) such as quality education (4.4, 4.5, 4.6, 4.7), gender equality (5.1, 5.5, 5.7), decent work and economic growth (8.5), and reduced inequalities (10.2, 10.3). The initiative's focus on Economic and Community Development as well as Basic Education and Literacy is evident through its flagship projects like Heads Up, Global Pathway, The Image, Resume Centre, Career Insights, and the Flagship Fair, all designed to equip undergraduates with essential employability skills, promote inclusive education, empower women, and foster leadership. These efforts reflect Rotary's commitment to developing confident, skilled youth ready to contribute meaningfully to society and the economy.

Project Name	SDG	Rotary Focus Areas
Data Storm 6.0	• 4.3 Equal access to affordable technical, vocational, and higher education. • 4.4 Increase the number of people with relevant skills for financial success. • 9.5 Enhance research and upgrade industrial technologies. • 9.7 Support domestic technology development and industrial diversification. • 17.8 Strengthen the science, technology and innovation capacity for least developed countries. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy

Data Storm 6.0 directly contributed to several Sustainable Development Goals such as 4.3 and 4.4 by providing affordable access to technical education and equipping students with in-demand data analytics skills vital for financial success. It also aligned with SDG 9.5 and 9.7 by enhancing research capacity and supporting technological innovation through real-world challenges. By fostering collaboration between universities and industry leaders like OCTAVE, the initiative supported SDG 17.8 and 17.17, strengthening innovation capacity and building effective partnerships. Closely tied to Rotary's areas of Economic and Community Development and Basic Education and Literacy, Data Storm 6.0 empowered youth through experiential learning, bridging the gap between academia and industry.

Project Name	SDG	Rotary Focus Areas
Agora Link	• 8.2 Diversify, innovate and upgrade for economic productivity. • 8.3 Promote policies to support job creation and growing enterprises. • 8.6 Promote youth employment, education and training. • 9.1 Develop sustainable, resilient and inclusive infrastructures. • 9.3 Increase access to financial services and markets. • 9.7 Support domestic technology development and industrial diversification. • 17.7 Promote sustainable technologies to developing countries.	• Economic and Community Development

Agora Link exemplifies the spirit of Economic and Community Development by supporting grassroots entrepreneurship and strengthening local economies. The initiative aligns with SDG 8.2, 8.3, and 8.6 by promoting innovation, enabling youth-led enterprises, and creating opportunities for education and employment through real-world business exposure. Its focus on building resilient networks and highlighting local craftsmanship contributes to SDG 9.1 and 9.7 by encouraging sustainable infrastructure and domestic technological development. Furthermore, by using digital platforms to increase access to broader markets, it supports SDG 9.3 and 17.7. Agora Link stands as a scalable model for empowering communities through inclusive and innovative economic empowerment.

ENVIRONMENTAL SERVICE

Environmental Service Team Message
Environmental Service at a Glance
Project Overview
SDGs & Rotary Focus Areas Covered

TEAM MESSAGE

Environmental Service

At the Environmental Service Avenue of the Rotaract Club of University of Moratuwa, environmental conservation has remained a key priority. Over the past year, we have passionately committed ourselves to fostering sustainability and safeguarding our natural surroundings through a range of impactful projects. Our efforts focused on increasing awareness of pressing environmental challenges, educating the community on eco-friendly practices, and taking meaningful steps to drive positive change. United in our mission, we worked hand in hand toward building a cleaner, greener tomorrow.

The Zooxanthellae project continued to be the flagship initiative of the Environmental Service Avenue, with a renewed focus on coral conservation in the Mirissa area. Expanding on our past efforts, we engaged in a holistic approach to marine ecosystem protection from conducting awareness sessions to equipping our volunteers with essential diving training. These steps not only empowered our team to take direct action in reef conservation but also strengthened our connection with the ocean and its fragile ecosystems.

The Grove Green project continues to embody our commitment to environmental preservation, this time taking root along the scenic coastline of Kalutara. This location plays a vital role in the protection and restoration of local mangrove ecosystems. Mangroves are essential to coastal resilience; their complex root networks help prevent erosion, support rich biodiversity, and strengthen marine habitats. This year, our efforts focused on enriching this ecosystem by planting 100 new mangrove saplings in the Kalutara area.

Our Blue Revive project focused on restoring the beauty and health of our coastal areas through dedicated beach cleanup efforts. This year, we carried out two impactful cleanup sessions along the shores of Mount Lavinia and Wellawatte. Together, these initiatives led to the removal of over 150

kilograms of waste, emphasizing the urgent need to tackle coastal pollution and its harmful effects on marine life. Beyond just collecting litter, the project aimed to foster public awareness about the importance of preserving our coastal ecosystems. By engaging volunteers and passersby, Blue Revive served as a reminder that protecting our beaches is a shared responsibility that begins with individual action and community commitment.

Through the Woof Roof project, we continued our mission to promote animal welfare with a special focus on the wellbeing of stray dogs. “Woofy’s Gallery,” our online street dog photography competition, offered a unique and creative platform to shed light on the daily struggles of street dogs and the need for greater empathy and support. As part of the project, we also visited the Baw Baw Dog Welfare Home in Kurunegala, where we spent a meaningful day caring for the resident dogs. This heartwarming initiative not only brought relief to the animals but also strengthened our commitment to advocating for the protection and welfare of the voiceless lives around us.

Haritha Siripa, conducted in collaboration with the Rotaract Club of University of Kelaniya, focused on preserving the sacred Sri Pada pilgrimage trail. Despite logistical challenges, the cleanup effort was successfully carried out with teamwork and dedication. This project served as a reminder of the importance of protecting not only our natural heritage but also sites of spiritual and cultural significance.

Our Green Pulse initiative offered a platform to raise environmental awareness through both physical and virtual sessions. The in-person session focused on effective waste management, equipping participants with knowledge on sustainable disposal and recycling practices. The virtual session addressed the ocean’s role in fighting climate change, emphasizing the ecological importance of marine systems in carbon absorption and climate regulation.

We would like to express our heartfelt thanks to all the volunteers who have dedicated their time and effort to make these projects a success. Their passion and commitment to environmental conservation are truly inspiring. We would also like to thank the sponsors and other organizations that have helped us in our endeavors.

As we look ahead, we are excited to continue our efforts to protect and preserve the environment. We believe that through our collective actions, we can make a positive impact on our planet and inspire others to join us in our mission.

Thank you to everyone who has supported us on this journey. Together, we can create a more sustainable future for all.

Warm Regards,
Environmental Service Team 2024-25

BLUE REVIVE

Date : 19th August 2024 - 05th January 2025
Chairpersons : Rtr.Sheron Rackesh , Rtr. Chamodhya Maleen, Rtr. Minsandi Weeraratne
Venue : Mount Lavinia beach and Wellawatta beach
Secondary Avenue : Environmental Service

Blue Revive is an environmental initiative by the Rotaract Club of University of Moratuwa, focused on preserving coastal ecosystems and promoting environmental consciousness among youth. Rooted in a deep concern for the unseen threats posed by pollution on our beaches and marine life, the project reflects a collective commitment to sustainability. It seeks to foster a culture where environmental care is viewed not just as an obligation, but a shared responsibility. By uniting volunteers in meaningful action, Blue Revive aims to instill a sense of accountability within the community and drive long-term behavioral change.

The project was carried out in two impactful phases. The first phase, launched in collaboration with “Parley for Oceans,” was conducted at the scenic Mount Lavinia Beach. Recognizing the urgent need to restore the area’s natural beauty, volunteers gathered to clear debris and raise awareness about the harmful effects of plastic pollution. The event was not only about physical cleanup but also about educating participants on the types of plastics and sustainable waste management practices. Through teamwork and dedication, the group made a tangible difference while promoting environmental stewardship.

Planning for Phase 1 began on August 19, 2024, with emphasis placed on publicity, community engagement, and location selection based on proximity and need. Communication was streamlined through WhatsApp, where volunteers received regular updates. With the support of Parley for Oceans, necessary tools and refreshments were arranged, ensuring a smooth and rewarding experience for all participants. The clean-up took place on September 8, 2024, starting with an informative session by Parley representatives, followed by hands-on efforts to sort and collect waste effectively.

The second phase of Blue Revive was similarly organized and held at Wellawatte Beach on January 5, 2025, once again with the support of Parley for Oceans. This location was chosen due to its high levels of waste and visitor traffic. The Rotaract Club of Sri Lanka Technological Campus partnered with the Rotaract Club of University of Moratuwa to amplify the initiative's reach. Planning commenced on December 22, 2024, with communication and volunteer mobilization following the successful model of Phase 1. The volunteers' organized and enthusiastic approach led to the removal of 121 kilograms of waste, significantly improving the beach's condition.

Blue Revive stands as a testament to the power of youth-driven, community-led initiatives. Beyond cleaning beaches, the project symbolized hope, collaboration, and the enduring belief that change begins with individual action. It highlighted the value of partnerships and the importance of continuous awareness to safeguard the delicate balance of our environment for generations to come.

WOOF ROOF

Date : 16th September 2024 - 16th February 2025
Chairpersons : Rtr.Ulindu Iresha , Rtr. Hemindi Kalubovila
Venue : Baw Baw Animal Welfare Kurunegala
Secondary Avenue : Environmental Service

"Woof Roof", the project initiated under the Environmental Service arena of the Rotaract Club, University of Moratuwa has marked its success in this year also. The project is to carried out to ensure the well- being of Stray dogs and to raise the public awareness on rescuing, vaccinating and rehoming of Stray dogs.

There were three main events carried under this project, Sticker Campaign, Photography Competition- Woofy's Gallery and Baw Baw Animal Hospital Visit. Sticker Campaign was held from 2nd of December 2024 to 02nd of February 2025. The visit to Baw Baw Animal Hospital Visit, Kurunegala was held on 16th February 2025.

The Project was led by Rtr.Ulindu Iresha & Rtr. Hemindi Kalubowila. 11 participants was participated for the visit. Committee members contributed themselves by designing the flyers, Captions writing and physical participations. Flyers were designed for the awareness of the programme, Photography Competition, Sticker Selling campaign, and acknowledgment.

It is morally required that stray dogs' well-being be guaranteed. Beyond morality, public health is a serious issue since street dogs can spread parasites like fleas and ticks as well as diseases like rabies. In order to reduce health hazards, our project uses healthcare initiatives, immunization, and sterilization.

Implementing animal birth control programs also aids in managing the number of street dogs by lowering resource competition, human-animal conflicts, and overcrowding. By reducing rodent populations.

As the first phase of this project sticker selling campaign was held to sell cute dog stickers. Proceeds from sticker sales can be directed towards funding initiatives such as spaying and neutering campaigns, veterinary care, or shelter support, directly contributing to the welfare of street dogs. The second phase of 'Woof Roof' was a photography and art competition called 'Woofy's Gallery' that aimed to raise awareness of the innocent lives of street dogs.

The number of votes (reactions) that the photographs on the **"Woof Roof"** Facebook page received determined the competition's winners. On February 16th, the Kurunegala Baw Baw Welfare Hospital hosted our primary and last project phase. The staff at Kurunegala Baw Baw Welfare Hospital gave us a warm welcome, and the furry inhabitants that live there have all dealt with various disabilities. At the moment, 51 dogs are cared for at this shelter, including bathing and medical attention for their wounds. By giving several of these rescued street dogs a bath, the project crew demonstrated their sensitivity. We were able to make a monetary donation as well as pass over the medications.

The goals of this projects are promoting responsible pet ownership by educating the public about the significance of responsible pet ownership, to support street dogs by providing the basic needs required by them, to voice out the importance of a supportive environment for the dogs, raising awareness about the wellbeing of the dogs to the general public, so that they will contribute towards the cause. We were able to provide the required supplies and ensure dog's wellbeing on the visiting day. Moreover, we were able to promote the Baw Baw Welfare Hospital for continuous support and to establish a foundation for sustainable volunteerism for dog care. Through rescue missions, healthcare support, awareness campaigns, and community engagement, we have made strides toward a more compassionate and responsible society. Our team expect to expand our effort in future also to create a better world for our furry friends.

GROVE GREEN

Date : 1st of November – 29th of December 2024
Chairpersons : Rtr. Dinura Jayawardene, Rtr. Thamadi Jagoda, Rtr. Nethmi De Silva
Venue : Kaluthara
Secondary Avenue : Environmental Service

Grove Green 24" is a pioneering environmental conservation initiative launched by the Rotaract Club of University of Moratuwa under its Environmental Services Avenue. The project aims to safeguard, restore, and protect Sri Lanka's vulnerable mangrove forests, which are essential coastal ecosystems facing significant degradation. These forests serve as natural buffers against coastal erosion, storms, and flooding, while also supporting biodiversity and providing livelihood opportunities for nearby communities.

The primary objective of Grove Green 24 was to establish a sustainable and mutually beneficial relationship between mangrove ecosystems and the volunteers dedicated to restoring them. Building on the success of their previous environmental projects, the club partnered with the Marine Environment Protection Authority (MEPA) and received expert guidance from Mr. Sandun Lakmal Wickramasinghe, Chief Marine Environmental Scientist at MEPA. The project was meticulously planned with research into environmental factors such as soil types, water chemistry, species adaptability, and the potential impacts of nitrogen and phosphorus levels in the ecosystem.

he selected restoration site was in Kalutara, a region rich in mangrove biodiversity but affected by environmental stress. Based on environmental assessments, the mangrove species Bruguiera gymnorrhiza was chosen for its resilience, ecological benefits, and ability to purify water. This species is well-suited to waterlogged, slightly alkaline environments and plays a key role in supporting surrounding ecosystems.

Over 100 saplings of this vulnerable mangrove species were planted during the restoration effort on December 29, 2024, with the participation of 13 volunteers from the 22nd and 23rd intakes of the university.

Public awareness was a major focus of the initiative. PR campaigns were launched through platforms like WhatsApp, and flyers were distributed around the university to educate students on the importance of mangrove preservation. Volunteers were recruited from both the 21st and 22nd intakes of the university, and responsibilities were shared among the organizing committee to ensure effective implementation and outreach.

'Grove Green' not only worked towards environmental restoration but also aligned itself with broader sustainability goals.

The project supported Rotary's "One Million Trees" initiative, contributing to global biodiversity conservation efforts. The involvement of Clean Ocean Force Lanka added further strength to the initiative through additional resources and support.

Looking ahead, the project includes planned inspection and follow-up sessions over the next six months to monitor the growth and health of the mangrove plants. 'Grove Green' stands as a testament to the power of youth-led environmental activism, combining research, collaboration, and community engagement to protect one of Sri Lanka's most vital natural assets. Through this initiative, the Rotaract Club of University of Moratuwa reinforces its commitment to creating a greener, more sustainable future.

ZOOXANTHELLAE

Date : 11th December 2024 - 27th April 2025
Chairpersons : Rtr.Ihithisham Fazaal , Rtr.Subath Kathriarachchi, Rtr. Tharusha Jayasundara
Venue : Mirissa, Matara ,Sri Lanka
Secondary Avenue : Environmental Service

Project **Zooxanthellae** is a pioneering coral reef restoration initiative led by the Rotaract Club of the University of Moratuwa. Aimed at addressing the alarming degradation of coral ecosystems, the project focuses on restoring biodiversity-rich reef habitats, promoting marine conservation, and fostering community engagement. Despite occupying only about 1% of the ocean floor, coral reefs support nearly 25% of marine life and are crucial to coastal protection, fisheries, and tourism. In Sri Lanka, with its ocean-to-land ratio of approximately 8:1, the ocean plays an indispensable role in both environmental and socioeconomic contexts, supporting over 185,000 households involved in marine fisheries.

The project was designed and implemented through strategic collaborations, with the Marine Environment Protection Authority (MEPA) serving as the official technical partner and ATG (Pvt) Ltd. as the title sponsor. After conducting extensive preliminary assessments on water quality, sedimentation, and habitat suitability, the project team selected Mirissa as the restoration site due to its ecological value and prominence as a tourist destination.

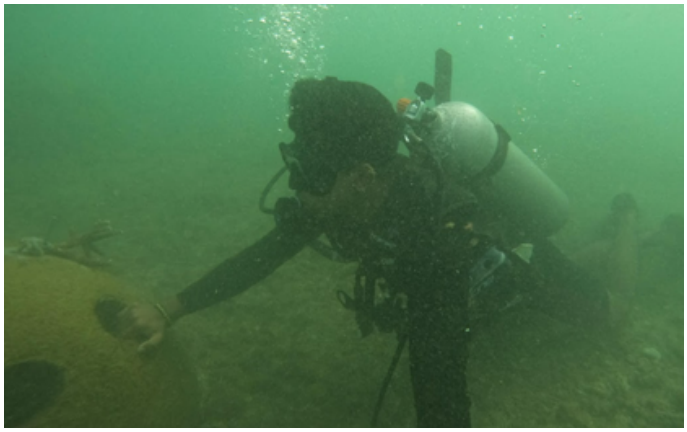

A major milestone was the development and underwater placement of ten artificial reef boulders, designed to mimic natural reef beds and provide a stable foundation for coral attachment. These boulders were placed in phases using professional diving support, ensuring minimal disruption to the existing marine environment. To carry out the underwater tasks effectively, four Rotaractors received professional diving certification and coral transplantation training under the guidance of certified marine conservationist Mr. Sandun Wickramasinghe.

Coral fragments were carefully harvested from healthy donor colonies with minimal environmental impact and were first acclimatized in underwater nurseries. In April, these fragments were transplanted onto the artificial structures, with attention to attachment techniques, exposure to sunlight, and reducing transplant stress. Early signs of coral adaptation and marine life colonization were observed shortly after, indicating positive ecological responses.

To ensure long-term sustainability, the project incorporated a robust monitoring framework. Follow-up sessions assess coral survival rates, boulder stability, and ecosystem development. These inspections allow for adaptive management, including addressing issues such as sedimentation or coral displacement. Data collected during monitoring contributes not only to project refinement but also to regional conservation research.

Project Zooxanthellae serves as a powerful example of how youth-led, scientifically informed initiatives can drive real change in environmental conservation. Through community collaboration and technical precision, the project not only restores reef habitats but also cultivates a culture of marine stewardship, inspiring similar efforts across Sri Lanka and the broader region.

Green Roots

Green Roots is a sub-project of Project Zooxanthellae, created to enhance public awareness on coral conservation and promote grassroots involvement in marine protection. Although the name was established prior to the current phase of the project, it was carried forward to symbolize the "roots" of reef restoration being laid by the Zooxanthellae initiative.

Recognizing the importance of engaging local communities, the team organized an awareness session at Dhammika Giri Viharaya in Bandaramulla, Mirissa—a central and meaningful location for the local community. Held on 27th April at 11:00 a.m., the session welcomed around 100 participants and aimed to educate attendees about coral reef ecology, the threats facing marine ecosystems, and the critical role of community stewardship in ocean conservation.

This event effectively bridged scientific knowledge with public understanding and helped ignite interest and responsibility among locals to support and sustain conservation efforts. By empowering coastal communities with knowledge, Green Roots plays a vital role in ensuring that the long-term impact of Project Zooxanthellae extends beyond restoration into lasting behavioral and cultural change.

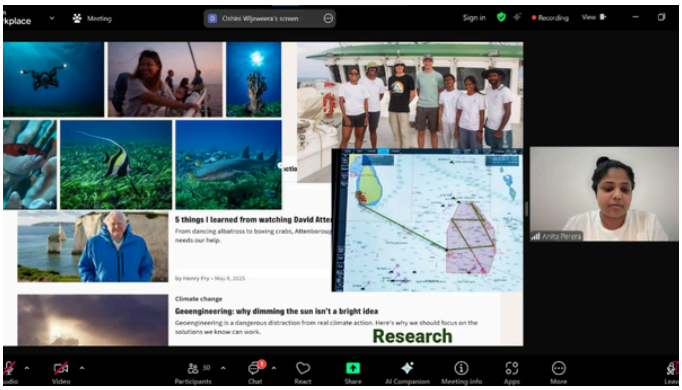

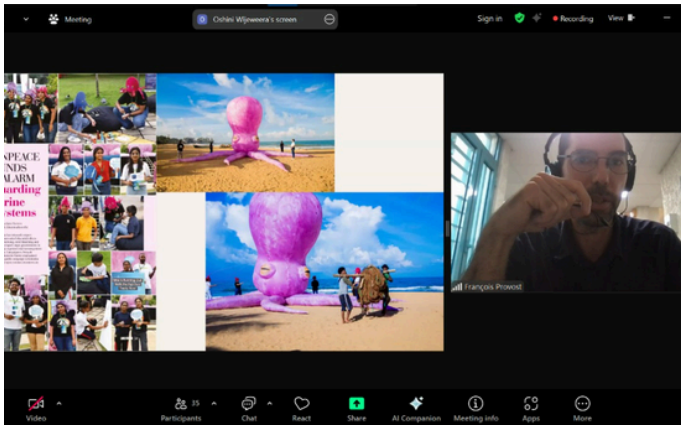

GREEN PULSE

Date : 10th March 2025 - 19th May 2025
Chairpersons : Rtr.Lehan Divulwewa , Rtr. Anouki Perera, Rtr. Lahiru Sampath
Venue : via Zoom, Kandawala Maha Vidyalaya
Secondary Avenue : Environmental Service

Green Pulse is a youth-led environmental initiative spearheaded by the Rotaract Club of University of Moratuwa in collaboration with the Interact Club of Ananda College, with the primary objective of promoting ocean conservation, sustainable living, and community awareness in Sri Lanka. This timely project was developed in response to increasing threats to marine ecosystems including plastic pollution, overfishing, and climate change and aimed to foster long-term behavioral change through education and active participation.

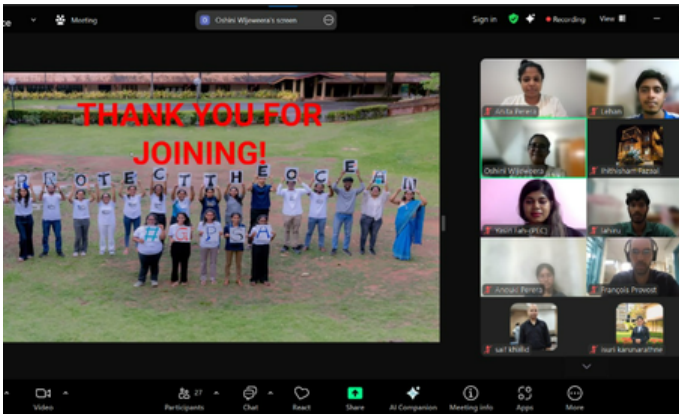

The project officially launched in May 2025 and unfolded in two impactful stages: a virtual awareness session and an on-ground school engagement. The virtual session, held on May 16, 2025, in partnership with Greenpeace South Asia, featured distinguished speakers Francois Provost and Anita Perera, who provided compelling insights into climate justice, ocean plastic pollution, and sustainable practices. The session was interactive, with polls and discussions that engaged over 30 undergraduate participants.

Following the virtual session, a physical awareness session was conducted on May 19, 2025, at Kadawala Maha Vidyalaya in Rathmalana, targeting students from Grades 6 to 8. This session was held in collaboration with Parley for the Oceans, an international environmental organization. Students participated in meaningful conversations about marine protection and sustainability. To support long-term impact, a plastic collection bin was donated to the school, reinforcing the message of responsible waste management and environmental care.

Planning for Green Pulse began as early as March 2025, with foundational meetings between the organizing clubs and Greenpeace South Asia. A dedicated organizing committee was formed, with Lehan Divulwewa, Anouki Perera, and Lahiru Sampath serving as chairpersons. A multi-platform PR campaign including countdown posts and educational flyers was launched to build awareness and mobilize volunteers.

With the active engagement of over 90 participants across both events, Green Pulse not only created awareness but also laid the groundwork for sustained community involvement. By bridging local activism with global conservation goals and leveraging strategic partnerships, the project reinforced the importance of youth leadership in protecting Sri Lanka's coastal and oceanic ecosystems for future generations.

HARITHA SIRIPA

Date : 10th March 2025 - 19th May 2025
Chairpersons : Rtr.Lehan Divulwewa , Rtr. Anouki Perera, Rtr. Lahiru Sampath
Venue : via Zoom, Kandawala Maha Vidyalaya
Secondary Avenue : Environmental Service

හරිත සිරිපා is a transformative environmental and fellowship initiative collaboratively organized by the Rotaract Clubs of the University of Kelaniya, University of Moratuwa, and Uva Wellassa University – Badulla. The project was conceptualized to address the growing issue of waste accumulation at Adam's Peak (Sri Pada), a sacred pilgrimage destination in Sri Lanka visited by thousands annually. The project's core aim was to conduct a large-scale clean-up of the trail while raising awareness among visitors about responsible waste management.

Beyond its environmental mission, හරිත සිරිපා served as a unique platform to foster fellowship among Rotaractors from three leading universities.

In preparation for the campaign, extensive planning and resource mobilization were carried out. Organizing committees from each university coordinated through regular Zoom meetings, discussing logistics, risk mitigation, and fundraising strategies. To generate funds, members sold handmade bookmarks and reached out to potential sponsors. One notable contribution came from MAS Fabrics – Intimo, who supported the long-term goals of the project by donating waste bins.

The campaign took place on the 3rd and 4th of May 2025. Participants from all three universities arrived at the base of Adam's Peak via the Hatton trail around 8:00 PM and began their ascent together. Despite challenging weather and congestion near the Idikatupana area, the team adapted by switching to the more remote Rathnapura trail. Along the journey, the fellowship spirit was nurtured through shared meals such as those from a Dansala and collective perseverance during the night climb.

Reaching the summit by early morning, the team took a moment for spiritual reflection before initiating the clean-up. The environmental campaign began at 9:00 AM from the summit, descending along the Hatton trail. Divided into well-coordinated groups, the volunteers collected waste along key zones including rest areas and congregation points. The collected trash was handed over to the local municipal council for responsible disposal, following pre-arranged agreements.

The impact of the project was multifaceted. Environmentally, it contributed to preserving the pristine condition of a site of deep national significance. Socially, it raised awareness among pilgrims about the importance of proper waste disposal. For the Rotaractors, it was a powerful experience that strengthened leadership skills, fostered lasting friendships, and emphasized the value of collaborative service.

Ultimately, හරිත සිරිපා stood as a shining example of what can be achieved when service, fellowship, and environmental consciousness come together. It left behind more than just clean trails—it left behind a legacy of youth-driven impact, unity, and commitment to a better tomorrow.

ROTARY FOCUS AREAS AND SDGS COVERED

Project Name	SDG	Rotary Focus Areas
Blue Revive	6.3 Improve water quality, wastewater treatment and safe reuse. 14.1 Reduce marine pollution.	• Supporting the Environment

Blue Revive 24/25 contributed directly to SDG 6.3 and SDG 14.1 by organizing beach cleanups that reduced marine pollution and improved coastal water quality. Through hands-on waste collection and awareness sessions on plastic pollution and sustainable disposal, the initiative empowered volunteers to take responsibility for protecting marine ecosystems. Partnering with Parley for Oceans and involving youth from multiple institutions, the project promoted safe waste management practices and highlighted the environmental impact of everyday actions—fostering a more conscious, eco-friendly community.

Project Name	SDG	Rotary Focus Areas
Woof Roof	-	• Disease Prevention and Treatment

“Woof Roof” contributed to Disease Prevention and Treatment by supporting the vaccination, sterilization, and healthcare of stray dogs, helping curb the spread of diseases such as rabies and tick-borne infections. Through funds raised from sticker sales and direct donations, the project supported medical needs at Baw Baw Animal Hospital, including providing medications and bathing rescued dogs. These actions not only improved animal health but also reduced public health risks, promoting safer and healthier communities.

Project Name	SDG	Rotary Focus Areas
Grove Green	6.6 Protect and restore water-related ecosystems. 14.2 Protect and restore ecosystems. 14.5 Conserve coastal and marine areas.	• Supporting the Environment

Grove Green 24 advanced SDG 6.6, 14.2, and 14.5 and aligned with Rotary's focus on Supporting the Environment by restoring mangrove ecosystems in Kalutara. Over 100 Bruguiera gymnorrhiza saplings were planted to protect water sources, stabilize coasts, and boost marine biodiversity. Through scientific planning and collaboration with MEPA and Clean Ocean Force Lanka, the project ensured sustainable impact and community involvement in environmental conservation.

Project Name	SDG	Rotary Focus Areas
Zooxanthellae	• 4.7 Education for sustainable development and global citizenship. • 6.3 Improve water quality, wastewater treatment and safe reuse. • 6.6 Protect and restore water-related ecosystems. • 6.8 Support local engagement in water and sanitation management. • 8.9 Promote beneficial and sustainable tourism. • 11.4 Protect the world cultural and natural heritage. • 13.3 Build knowledge and capacity to meet climate change. • 14.1 Reduce marine pollution. • 14.2 Protect and restore ecosystems. • 14.4 Sustainable fishing. • 14.7 Increase the economic benefits from sustainable use of marine resources. • 14.9 Support small scale fishers. • 15.1 Conserve and restore terrestrial and freshwater ecosystems. • 15.5 Protect biodiversity and natural habitats. • 17.17 Encourage effective partnerships. • 17.19 Further develop measurements of progress.	• Supporting the Environment • Economic and Community Development • Basic Education and Literacy • Water and Sanitation

Project Zooxanthellae contributed to multiple Sustainable Development Goals (SDGs) and Rotary focus areas by restoring marine ecosystems through scientifically guided coral transplantation and community education. Through partnerships with MEPA and ATG (Pvt) Ltd., the project promoted environmental sustainability (SDG 14, 13, 6) and economic development (SDG 8) by protecting coastal biodiversity vital to tourism and fisheries. The Green Roots initiative fostered basic education and literacy (SDG 4) by raising community awareness on marine conservation, while active local involvement supported community development and water ecosystem protection, aligning with Rotary's focus on Supporting the Environment, Economic and Community Development, Basic Education and Literacy, and Water and Sanitation.

Project Name	SDG	Rotary Focus Areas
Green Pulse	• 4.7 Education for sustainable development and global citizenship. • 6.3 Improve water quality, wastewater treatment and safe reuse. • 6.6 Protect and restore water-related ecosystems. • 6.8 Support local engagement in water and sanitation management. • 13.1 Strengthen resilience and adaptive capacity to climate related disasters. • 13.3 Build knowledge and capacity to meet climate change. • 14.1 Reduce marine pollution. • 14.2 Protect and restore ecosystems • 14.3 Reduce Ocean acidification. • 14.4 Sustainable fishing. • 17.16 Enhance the global partnership for sustainable development. • 17.17 Encourage effective partnerships.	• Supporting the Environment • Economic and Community Development • Basic Education and Literacy • Water and Sanitation

Green Pulse effectively aligned with several SDGs and Rotary focus areas by fostering environmental education (SDG 4.7), raising awareness on marine pollution (SDG 14.1), and promoting community engagement in ecosystem protection (SDG 6.6, 14.2). Through strategic collaborations with Greenpeace South Asia and Parley for the Oceans, the project cultivated effective partnerships (SDG 17.16, 17.17) and strengthened youth capacity to tackle climate challenges (SDG 13.3). The donation of a plastic bin and student engagement supported sustainable waste management (SDG 6.3, 12.5), while aligning with Rotary's focus areas: Supporting the Environment, Water and Sanitation, Basic Education and Literacy, and Economic and Community Development.

Project Name	SDG	Rotary Focus Areas
Haritha Siripa	• 11.4 Protect the world cultural and natural heritage. • 11.5 Reduce the adverse effects of natural disasters. • 11.6 Reduce the environmental impact of cities. • 12.5 Sustainable reduce waste generation. • 15.4 Ensure conservation of mountain ecosystems. • 15.5 Protect biodiversity and natural habitats. • 17.17 Encourage effective partnerships.	• Disease Prevention and Treatment • Supporting the Environment • Economic and Community Development

Through Haritha Siripa, key Sustainable Development Goals and Rotary focus areas were achieved by combining environmental action with inter-university collaboration. The clean-up drive directly contributed to protecting natural heritage (SDG 11.4, 15.5) and reducing the environmental impact of cities and tourism (SDG 11.6, 12.5). The project also fostered effective partnerships (SDG 17.17) and community development, while promoting youth leadership and resilience. With proper planning, sponsor engagement, and teamwork, the initiative aligned with Rotary's focus on Supporting the Environment, Economic and Community Development, and Disease Prevention and Treatment through better waste handling and public awareness

TEAM MESSAGE

Sports and Special Service

In a year defined by passion, perseverance, and team spirit, the Sports Avenue of the Rotaract Club of University of Moratuwa has stood as a pillar of motivation and movement. Through every challenge and every triumph, we strived to inspire, uplift, and empower the athletic spirit within our community.

As co-directors of the Sports Avenue, we had the honor of leading a dynamic team that celebrated not just competition, but the values of sportsmanship, dedication, and unity. From physical endurance to digital competition, our projects this year reflected the diverse ways in which sport can build character and community.

We kicked off the year with Cheer for Mora, a spirited initiative to rally encouragement for our university's athletes participating in the Inter-University Games. Through heartfelt messages, social media campaigns, and moments of recognition, we created a wave of morale that reminded every player they were never alone on the field.

Swim or Sink, one of our most meaningful ventures, introduced essential swimming training sessions, ensuring that students not only gained a life skill but also grew in confidence and resilience. The sessions were more than lessons; they were a commitment to safety, strength, and self-improvement.

With Gamers Arena, we broke new ground, blending sport with technology in a digital gaming fiesta that brought together competitive spirit and camaraderie in the virtual realm. This event created a platform for gamers to shine, interact, and showcase their skills in an atmosphere charged with excitement and creativity. Our crowning achievement came with the Mora Rugby Carnival, a vibrant two-day event that united university teams and outside players in celebration of one of the most powerful team sports with a food carnival. Beyond the tackles and tries, this event fostered community, leadership, and a shared love for the game, making it an unforgettable highlight of our avenue's journey.

None of this would have been possible without the unwavering dedication of our committee, the enthusiastic participation of our fellow Rotaractors, and the incredible athletes and supporters who brought each project to life. Your energy, ideas, and effort have been the heartbeat of our success.

As the curtain falls on this Rotaract year, we reflect with gratitude on a season of action, achievement, and togetherness. From courts to consoles, pools to pitches, we've made memories that will echo in the halls of Rotaract Mora for years to come.

We thank everyone who ran with us, swam with us, played with us, and stood with us.

Warm Regards,
Sports and Special Service Team 2024-25

Rtr. Ashen Perera

CHEER FOR MORA

Date : 15th August 2024 - 10th September 2024
Chairpersons : Rtr. Miyuranga Rajakaruna
Venue : University of Moratuwa
Secondary Avenue : N/A

In the highly competitive arena of university sports, motivation, focus, and resilience are essential qualities for athletes to thrive. Understanding the importance of boosting morale and fostering unity among the sports teams of the University of Moratuwa, the Rotaract Club launched the "Cheer for Mora" program ahead of the Inter University Championship. This initiative was aimed at inspiring athletes, strengthening team spirit, and reinforcing the message that the entire university stands behind its teams.

The event took place on the 10th of September 2024 at the university's Lagaan premises and featured a well-curated lineup of sessions designed to engage and uplift participants. The program began with a speech by the University Sports Council President, Mr. Nimesh Ranchagoda, setting the tone for the event. It was followed by a motivational address by Mr. Mandapa Pandithage, a distinguished alumnus of the Faculty of Engineering, University of Moratuwa, and a multi-talented sportsman with experience in football, rugby, swimming, and leadership. His personal anecdotes and reflections on overcoming challenges resonated deeply with the athletes, inspiring them to believe in their abilities and pursue excellence.

A Q&A session with Mr. Mandapa allowed for direct interaction, giving athletes the opportunity to clarify doubts and seek personal guidance. The event concluded with interactive games and team photographs, fostering camaraderie among the teams and enhancing the collective spirit. Athletes left the session feeling supported, energized, and more connected to the larger university community.

Selecting Mr. Mandapa Pandithage as the keynote speaker proved instrumental in the event's success, as his dual background in academics and athletics positioned him as a relatable and inspiring figure. The inclusion of interactive games ensured active engagement and made the experience memorable for all participants.

Overall, "Cheer for Mora" not only served its purpose of motivating the university's athletes but also strengthened their bond as a team and their connection to the wider student body. The initiative reflected the power of encouragement and community support in driving sports excellence, and its influence is expected to resonate throughout the athletic journey of the University of Moratuwa's teams. Though "Cheer for Mora" was a one-day event, its impact was long-lasting.

SWIM OR SINK

Date : 26th August 2024 - 13th February 2025
Chairpersons : Rtr.Senithi Malalanayake , Rtr.Rakhitha Sooriyabandara, Rtr.Ishara Anusarani
Venue : Swimming Pool, St.Sebastian College , Moratuwa
Secondary Avenue : N/A

What began as a small idea quickly grew into something truly impactful. “Swim or Sink”, an initiative by the Rotaract Club of the University of Moratuwa, introduced undergraduates to the life-changing skill of swimming. This month-long program was held twice a week on Mondays and Thursdays from 7:00 p.m. to 8:00 p.m. at St Sebastian’s Pool, and it was led by members of the university’s own swimming team, who volunteered as trainers.

Each session brought together an average of 12 enthusiastic participants, many of whom had never been in a pool before. Some arrived nervous, even afraid to float, but over time, those fears began to fade. With patient guidance and strong peer encouragement, participants began building confidence, improving techniques and even learning to swim unsupported.

The change in attitude, as well as swimming skill, was what set the project apart. The sessions fostered a supportive atmosphere where students encouraged each other. The majority of participants had advanced significantly by the programme's conclusion, and many were already asking for an extension to carry on with their learning.

The final day featured a friendly swimming meet, which felt more like a celebration than a competition, filled with laughter, cheers, and a sense of shared accomplishment. There was also significant interest in receiving a certificate of completion. As a gesture of gratitude, the Rotaract Club made a donation to the university swimming team, acknowledging the trainers who made this transformation possible.

Ultimately, "Swim or Sink" transformed beyond a series of swimming instructions. The project shares a heartfelt message about taking care of oneself, learning important life skills, and supporting each other as we go through life together.

GAMER'S ARENA

Date : 13th November 2024 - 20th February 2025
Chairpersons : Rtr. Pathum Dissanayake, Rtr. Sewmini Perera, Rtr. Nelly Ekanayake
Venue : University of Moratuwa
Secondary Avenue : N/A

In an era where digital innovation shapes everyday experiences, immersive entertainment such as gaming and virtual reality (VR) has become a vital part of student life—fostering creativity, strategic thinking, and social interaction. Recognizing this growing interest, the Rotaract Club of the University of Moratuwa launched Gamer's Arena, a vibrant and inclusive project designed to introduce students to the exciting world of modern gaming technologies.

The primary goal of Gamer's Arena was to create an engaging platform where students from all faculties could explore VR technology, participate in gaming challenges, and connect with peers in a fun, collaborative environment. The event featured a variety of gaming experiences, including high-intensity multiplayer video games, realistic simulations, and virtual reality-based titles, catering to both casual players and competitive gamers alike.

Held in the open space in University of Moratuwa, an ideal location that provided both accessibility and minimal disruption to lectures, Gamer's Arena drew in a large number of enthusiastic participants. Attendees had the opportunity to try out a wide array of popular games such as Need for Speed, Formula 1, Don Bradman, Walkabout Mini Golf, and Vacation Simulator. To enhance immersion, the organizing committee equipped the event with a dual cockpit setup, two PlayStations, VR headsets, and racing wheels—offering a professional gaming atmosphere that many students experienced for the first time on campus. The overwhelming participation and positive feedback from attendees highlighted the success of the event.

More than just a sports and recreational activity, Gamer's Arena emphasized the role of gaming as a tool for developing valuable life skills, such as teamwork, problem-solving, and rapid decision-making. It also fostered a strong sense of community among students, allowing them to bond over shared interests in an exciting and innovative setting.

Looking forward, the Rotaract Club aims to further expand Gamer's Arena by incorporating the latest advancements in gaming technology, organizing larger inter-university competitions, and introducing educational workshops on game development and e-sports. With its perfect blend of entertainment, learning, and social engagement, Gamer's Arena is set to become a flagship event that continually evolves to meet the interests and passions of the student community.

MORA RUGBY CARNIVAL

Date : 01st January 2025 - 04th May 2025
Chairpersons : Rtr. Dinithi Thilakaratne, Rtr. Nipun Rathnayake
Venue : University of Moratuwa
Secondary Avenue : N/A

In a spirited celebration of athleticism, teamwork, and university pride, the Mora Rugby Carnival 2025 emerged as a landmark sporting initiative organized by the Sports Avenue of the Rotaract Club of University of Moratuwa, in collaboration with the university's Rugby Team. Designed to promote physical fitness, encourage team spirit, and create a dynamic platform for student engagement, the event also served as a fundraising initiative to support the development of the University Rugby Team, with financial management handled directly by the team.

What initially began as a three-day tournament paired with a food festival had to be restructured due to unforeseen university restrictions. Despite these challenges, the organizing team demonstrated remarkable adaptability by reformatting the event into a two-phase tournament - an Intra-University Competition on April 24, 2025, followed by an Open Category Tournament on May 4, 2025. Both events were held at the University Grounds, offering accessibility and ample space for participants and spectators.

A key highlight of the carnival was the adoption of tag rugby, a non-contact, inclusive version of traditional rugby. This strategic decision ensured a safe and energetic environment, allowing both male and female students to actively participate, regardless of prior experience. The intra-university tournament brought together over 100 undergraduates across 9 teams, creating a vibrant and enthusiastic atmosphere with live commentary, music, and refreshments. After a series of exciting matches, Team Gladiators emerged as champions, winning Rs. 5,000, while Team Bolgoda Tuskers were the runners-up, receiving Rs. 3,000 and certificates.

The second phase, the Open Category Tournament, expanded the carnival's scope to external universities and clubs. With 25 teams grouped into four pools (Groups A, B, C, and D), the day saw thrilling matches and impressive displays of strategy and sportsmanship. The event welcomed Mr. Luxman Wijesuriya, Acting Director of Physical Education at University of Moratuwa, as the Chief Guest, who commended the players and organizers for their efforts. At the end of an action-packed day, Team Blue Whales clinched the championship title and a Rs. 40,000 prize, while Team Puffin Rugby secured the runner-up spot with Rs. 25,000.

The event was powered by the generous support of Yenesha Travels, DIMO, and Agoal Rugby, whose sponsorship underscored the power of collaboration between student-led initiatives and industry partners. As per mutual agreement between the Rotaract Club and the Rugby Team, all tournament-related expenses were managed by the Rugby Team, except for the decorations, which were handled by the Rotaract Club.

Mora Rugby Carnival 2025 not only highlighted the importance of physical well-being and recreational sports but also served as a platform for leadership, resilience, and university unity. The event stands as a shining example of what can be achieved through teamwork, innovation, and passion. It has set a strong precedent for future sporting events at the university and reaffirmed the role of sport in fostering meaningful connections and personal growth among students.

ROTARY FOCUS AREAS AND SDGS COVERED

Project Name	SDG	Rotary Focus Areas
Swim or Sink	• 3.4 Reduce mortality from non-communicable diseases and promote mental health. • 4.7 Education for sustainable development and global citizenship.	• Disease Prevention and Treatment

"Swim or Sink" contributed meaningfully to SDG 3.4 and 4.7 by promoting physical activity for better health and fostering a culture of mutual support and personal development. By teaching undergraduates a vital life skill in a safe, encouraging environment, the initiative helped reduce fears, build confidence, and promote mental well-being—key aspects in reducing non-communicable diseases and improving quality of life. Led by volunteer trainers, the project also promoted peer-to-peer learning and instilled values of empathy, resilience, and self-care, aligning with the goal of education for sustainable development and global citizenship.

Project Name	SDG	Rotary Focus Areas
Cheer For Mora	-	-

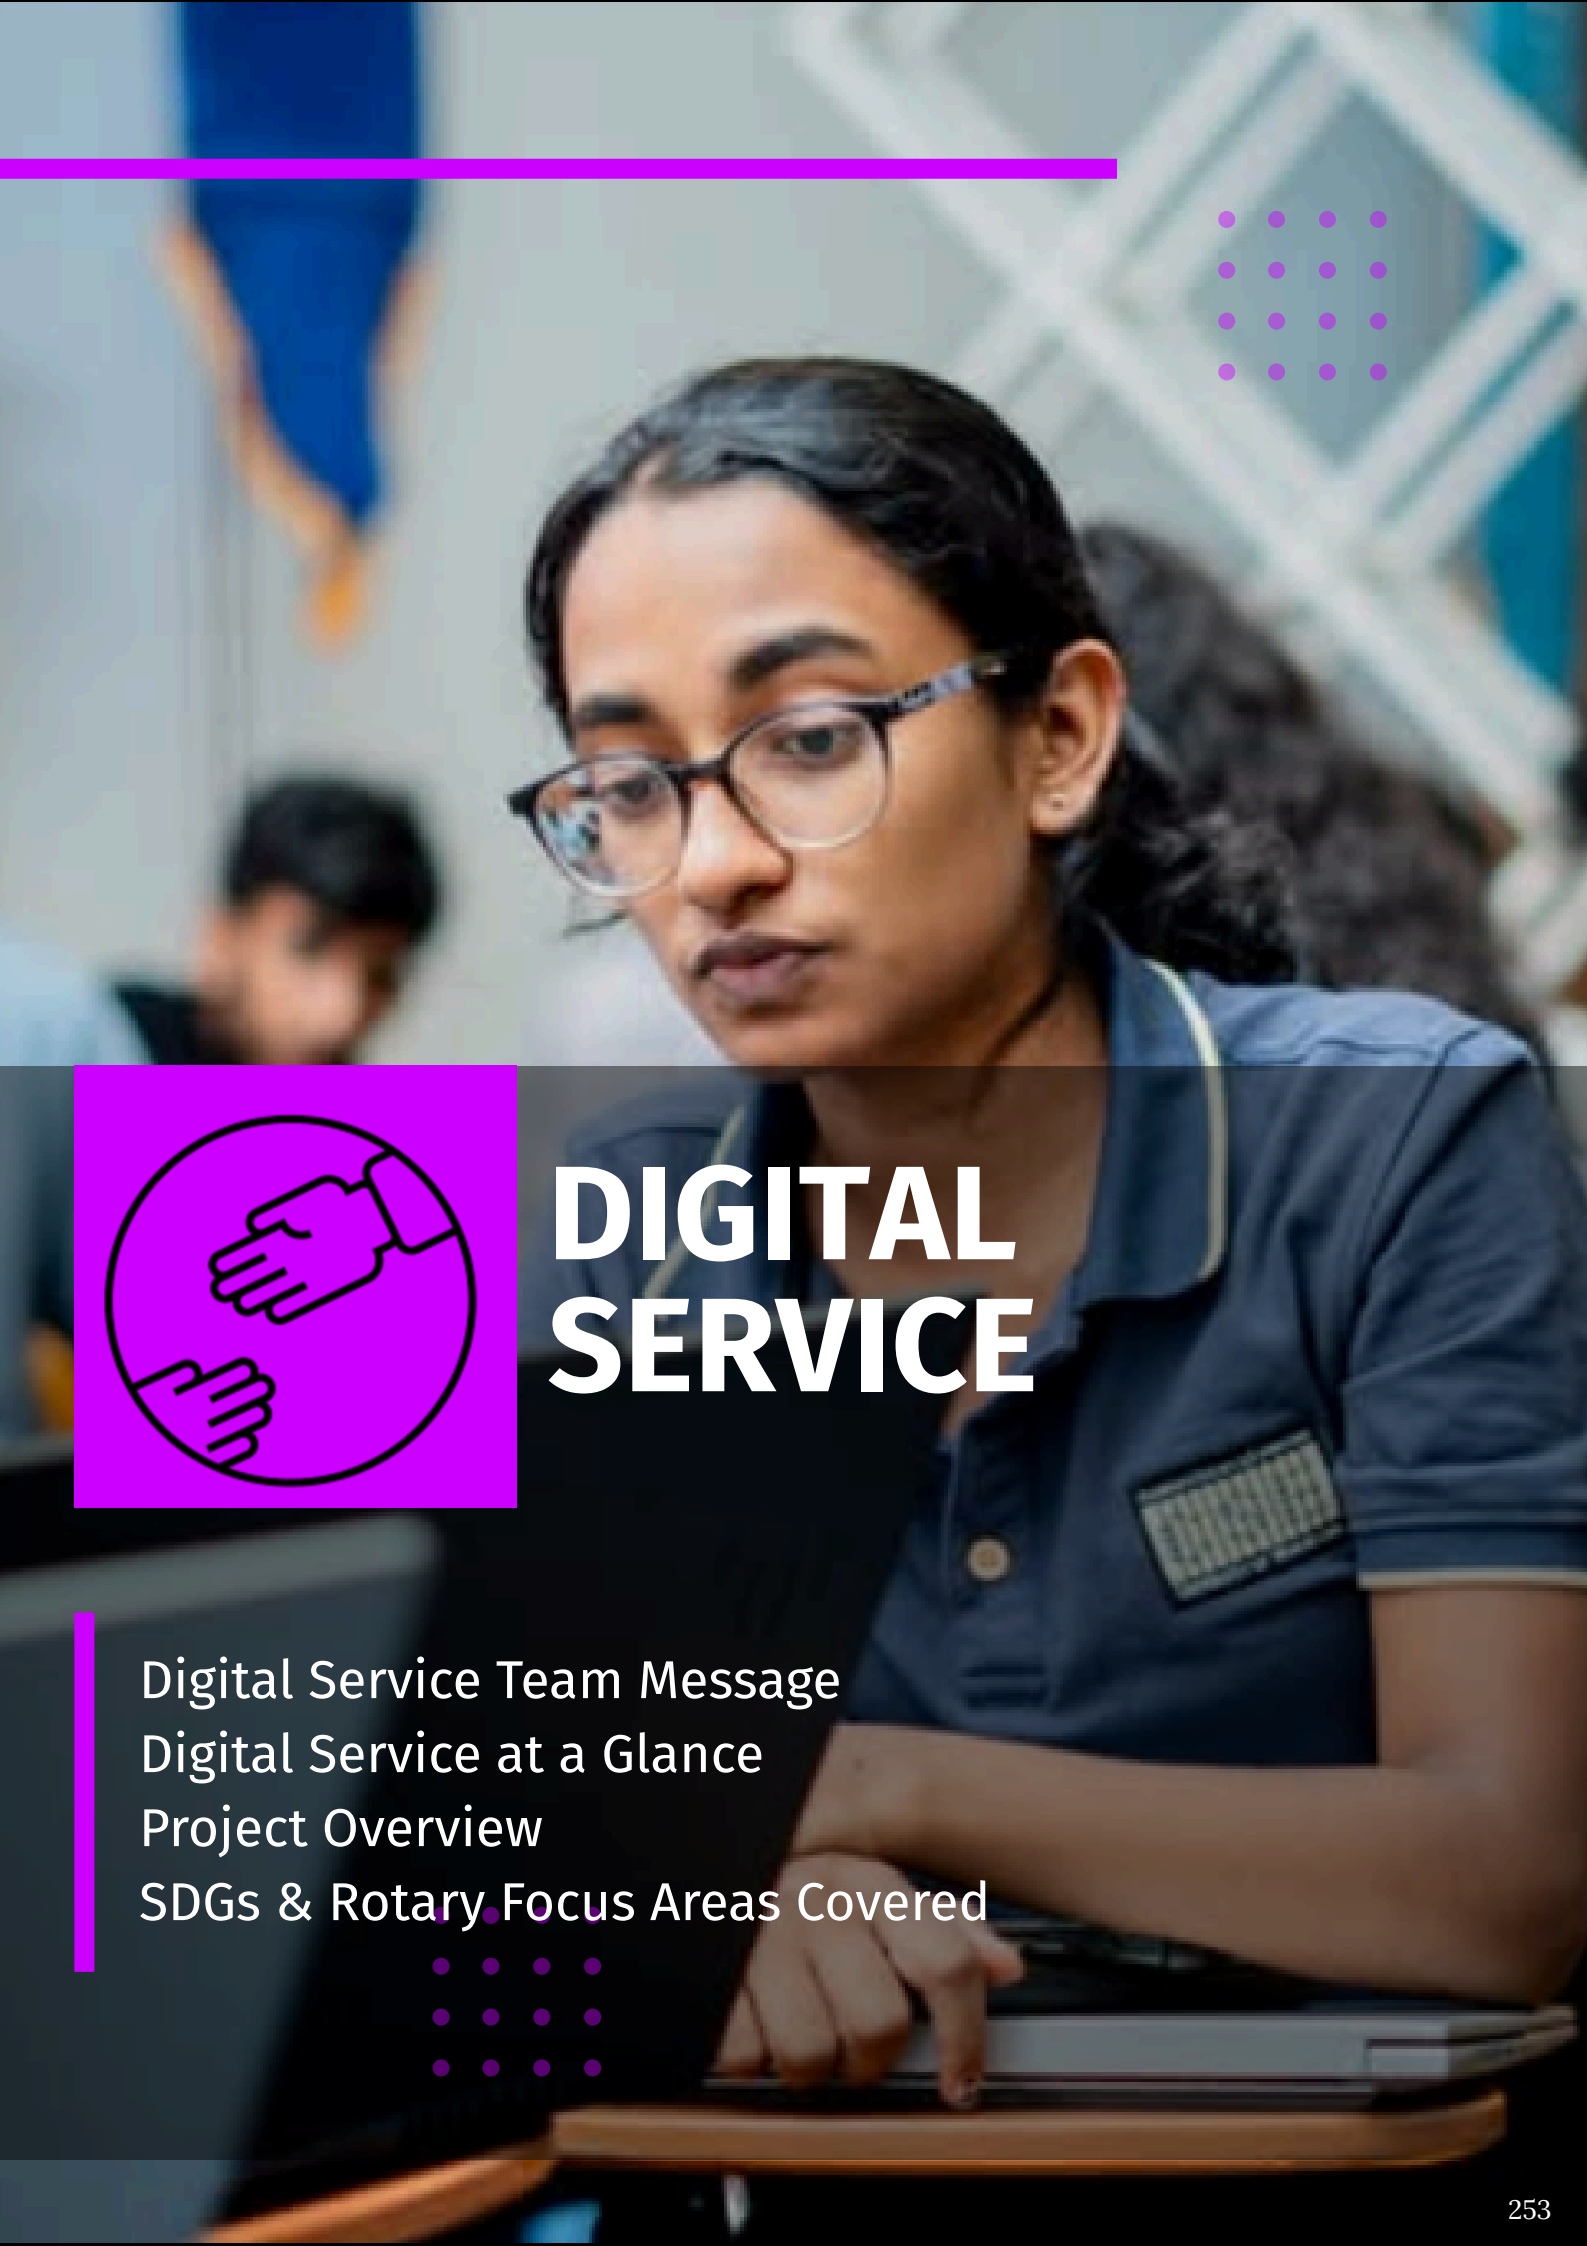

While "Cheer for Mora" was a heartfelt initiative that successfully motivated athletes and strengthened team spirit, it did not directly align with or achieve measurable targets under specific Sustainable Development Goals or Rotary's Areas of Focus. The project focused more on emotional support and morale-boosting rather than tangible development outcomes or long-term community impact.

Project Name	SDG	Rotary Focus Areas
Gamer's Arena	-	-

While Gamer's Arena was a highly engaging and innovative initiative that promoted creativity, social interaction, and recreational well-being among university students, it did not directly achieve measurable outcomes under specific Sustainable Development Goals or Rotary's recognized Areas of Focus. The project served more as a community-building and recreational event rather than one focused on development, education, or service-based impact.

Project Name	SDG	Rotary Focus Areas
Mora Rugby Carnival	• 17.17 Encourage effective partnerships.	• Disease Prevention and Treatment

Mora Rugby Carnival 2025 exemplified effective partnerships through its strong collaboration between the Rotaract Club of University of Moratuwa, the University Rugby Team, and external sponsors such as Yenesha Travels, DIMO, and Agoal Rugby. These partnerships enabled resource sharing, wider participation, and financial sustainability while empowering student leadership. The initiative also promoted Disease Prevention and Treatment by advocating for physical activity through inclusive tag rugby, thereby encouraging a healthy lifestyle and mental well-being among undergraduates.

SDGs & Rotary Focus Areas Covered

TEAM MESSAGE

Digital Service

At the Digital Service Avenue of Rotaract Club of the University of Moratuwa, our mission has always been to bridge technology and service — empowering communities and our fellow Rotaractors through the innovative use of digital tools and platforms. Throughout the year, we worked tirelessly to share knowledge, foster learning, and support the club's overall goals through the power of technology.

Our Weekly Tech Byte (WTB) initiative served as a consistent stream of tech knowledge, delivered every week through WhatsApp, Facebook, and LinkedIn. From quick tech tips to insightful facts, we aimed to build tech awareness and curiosity among our audience, making technology more approachable and engaging.

The Mora TechConnect (MTC) was another key project where we hosted both physical and online webinars to enrich tech literacy. Covering a wide range of topics, these sessions featured industry experts and were made accessible via YouTube for broader reach and continued learning. These knowledge-sharing spaces enabled our members and the wider community to stay updated with the ever-evolving tech landscape.

In collaboration with the Leo Club of the University of Moratuwa and Leo Club of SLTC, we proudly hosted Dev{thon} 2.0, a multi-phase hackathon that encouraged innovation and creativity. Beginning with the Ideathon, where participants submitted unique ideas, followed by the Designathon phase for wireframes and UI/UX, and culminating in the final Devthon round where fully functional web solutions were built. This project celebrated tech talent and provided a dynamic platform for aspiring developers. The grand finale, conducted physically, honored the most outstanding solutions with cash prizes and recognition.

Our collaboration on the Suwa Kekulu – 2024 project with the Rotaract Club of the Faculty of Medicine, University of Colombo, was a significant step in advancing digital health education in Sri Lanka. Focused on maternal and child well-being, the project improved the app's usability through features like multilingual support, offline access, and a newly developed admin panel for easier content management. These enhancements helped make the app more accessible, scalable, and impactful for communities across the country.

Another project that we have taken a start on is Rotacertz, which is not yet launched but is expected to go live in the next Rotaract year. Rotacertz is a certification platform we began developing in 2025 to simplify the process of issuing, sharing, and verifying digital certificates. Designed to serve both the organizations issuing the certificates and the recipients receiving them, the platform enables users to easily download or share their certificates through unique links. One of its most powerful features is the ability to automatically generate certificates or service letters from uploaded CSV files, streamlining the document creation process for event organizers and institutions. With a strong focus on automation, security, and user-friendly design, Rotacertz aims to reduce manual effort while enhancing the credibility and efficiency of digital certification management.

Beyond our own initiatives, Digital Service Avenue has remained the digital backbone of the club. From web development and updates to YouTube management and data analytics, we supported other avenues by enabling their projects to shine on digital platforms. Our team worked behind the scenes to ensure smooth operations, digital outreach, and impactful online presence across all club activities.

We extend our sincere gratitude to all our volunteers and collaborators who brought energy, skill, and vision to our projects. Your contributions made it possible to transform ideas into reality, and we are proud of what we have achieved together.

As we look to the future, we are excited to continue innovating and using technology to drive positive change. With curiosity, collaboration, and creativity at our core, IT Avenue remains committed to building a smarter, more connected tomorrow.

Thank you for being part of our journey.

Warm Regards,
Digital Service Team 2024–25

MORA TECHCONNECT

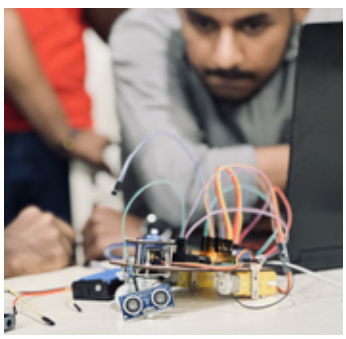

Date : 27th July 2024 - 01st March 2025
Chairpersons : Rtr. Dashintha Kavishan, Rtr. Ronaka Sampath, Rtr. Thisas Nethaka
Venue : University of Moratuwa
Secondary Avenue : N/A

Mora TechConnect is a flagship initiative organized by the Digital Communication Avenue of the Rotaract Club of the University of Moratuwa, aimed at bridging the gap between academic knowledge and industry demands in the field of technology. Designed as a dynamic and interactive learning program, Mora TechConnect brought together aspiring tech enthusiasts, industry professionals, and knowledge partners to create a vibrant platform for skill development and innovation.

The program featured a series of engaging sessions covering a broad range of topics, including emerging technologies, Internet of Things (IoT), web development, backend systems, embedded systems, and robotics. Each session was carefully crafted to provide participants with both theoretical insights and practical exposure, helping them stay relevant in the ever-evolving tech landscape. With a strong focus on hands-on learning and expert mentorship, Mora TechConnect empowered participants to explore new ideas, apply their knowledge, and develop real-world solutions.

Mora TechConnect kicked off with a virtual session on Emerging Technologies in IT, conducted by Disini Thevinka. This insightful session explored the forefront of technological advancements such as artificial intelligence, cybersecurity, and cloud computing, offering participants a clearer view of current industry trends and future opportunities. Following this, the Introduction to IoT session, held in collaboration with IES Labs, gave attendees a deep dive into IoT fundamentals and real-world applications, highlighting how connected technologies are transforming everyday life and various industries.

Continuing the journey, a practical session on HTML and CSS was conducted in collaboration with Hypercube, where participants learned the essentials of front-end web development. Through hands-on activities and interactive guidance, they built responsive, visually appealing websites. The backend development session, facilitated by Viso Labs, complemented this by focusing on databases, APIs, and backend frameworks, equipping learners with the knowledge needed to build scalable, robust applications.

The initiative then transitioned to embedded systems with an Arduino session conducted virtually with Pulztronics. Participants gained experience in microcontroller programming, sensor integration, and automation — essential skills in the realm of embedded development. Mora TechConnect culminated in a physical Robotics session, also in collaboration with Pulztronics, held at the University of Moratuwa. This final workshop provided an immersive experience, allowing participants to design, build, and test small-scale robotic systems, bridging the gap between conceptual understanding and tangible outcomes.

Throughout the program, Mora TechConnect successfully cultivated a learning environment rooted in collaboration, curiosity, and technological growth. It provided over 200 participants with the opportunity to acquire in-demand skills, connect with experts, and gain confidence in applying their knowledge. As a result, this initiative not only contributed to individual skill development but also inspired a broader culture of innovation and technical excellence within the university community.

WEEKLY TECH BYTE

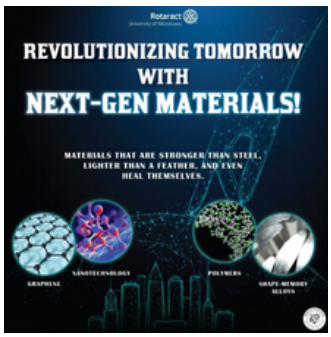

Date : 21st June 2024 - 01st April 2025
Chairpersons : Rtr. Ravindu Wanigasooriya, Rtr.Tharin Edirisinghe, Rtr. Pasan Yashobha, Rtr. Kithmina Weerasinghe
Venue : Online
Secondary Avenue : N/A

Weekly Tech Byte was a long-term, knowledge-driven outreach initiative launched by the Digital Communication Avenue of the Rotaract Club of the University of Moratuwa, with the vision of making advanced technological concepts accessible to a broader audience. This initiative aimed to cultivate curiosity and foster awareness about emerging trends in technology through the consistent delivery of bite-sized, engaging, and educational content.

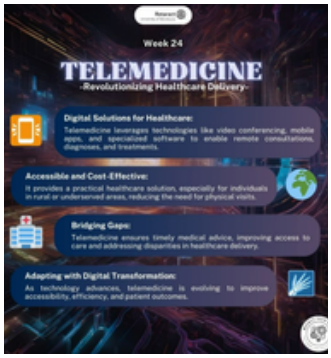

Over the course of 36 consecutive weeks, the project released a new post every week, each focused on a trending topic from the fast-evolving tech world. From artificial intelligence and quantum cryptography to the metaverse and neuromorphic computing, Weekly Tech Byte covered a wide array of subjects with relevance and impact. The selection process for each topic involved careful research and assessment of its potential to educate both tech enthusiasts and general readers. Caption writers worked diligently to distill complex information into concise and reader-friendly explanations, ensuring clarity without compromising depth.

To enhance the visual appeal and increase reach, each post was accompanied by a creatively designed flyer. The design team played a crucial role in translating the essence of each topic into compelling graphics, making the posts not just informative, but visually engaging as well. This seamless collaboration between writers and designers became a defining strength of the initiative.

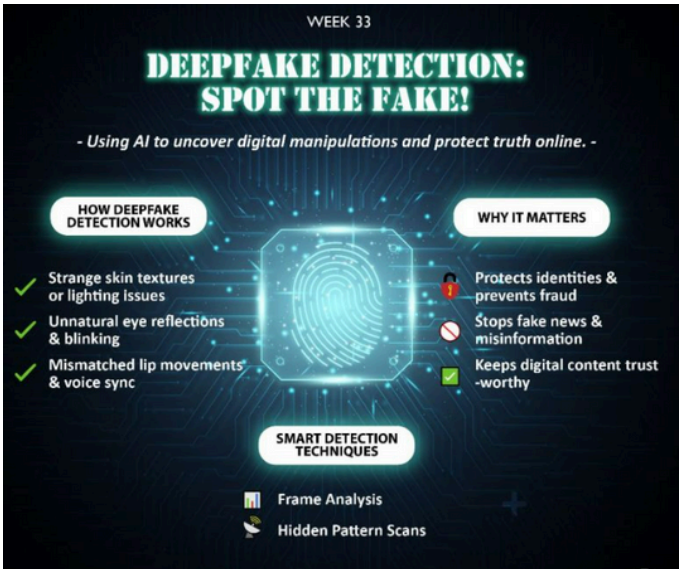

What truly set Weekly Tech Byte apart was its inclusive and approachable format. It was not restricted to students with a technical background, it was curated to engage individuals from all walks of life. The goal was to bridge the gap between cutting-edge research and public understanding, empowering readers to stay informed without feeling overwhelmed by jargon or complexity.

Beyond delivering educational content, the project served as a powerful learning platform for the team itself. It offered members opportunities to develop and refine skills in technical writing, digital design, content curation, and project management. The initiative also played a key role in amplifying the club's digital presence, establishing Rotaract Mora as a reliable source of educational content and innovation-focused outreach.

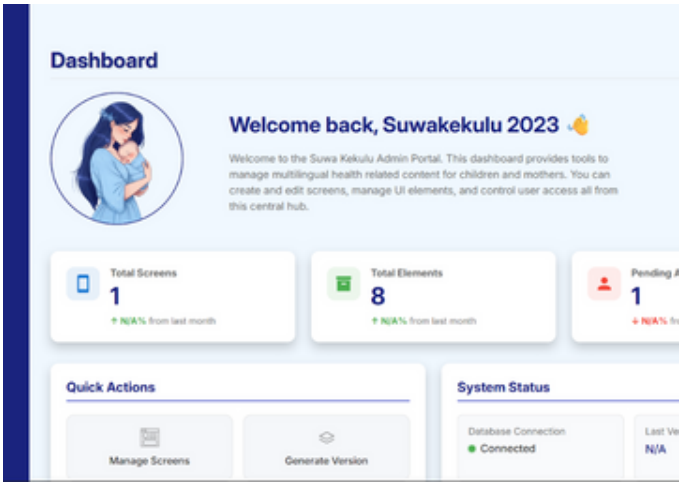

In essence, Weekly Tech Byte became more than just a series of posts—it was a sustained effort to democratize tech knowledge, ignite interest, and promote digital literacy in a fast-paced technological era.

SUWA KEKULU

Date : 10th December 2024 - 10th May 2025
Chairpersons : Rtr. Ravindu Wanigasooriya, Rtr.Hasitha Lakshan
Venue : Online
Secondary Avenue : N/A

Suwa Kekulu is a mobile application developed through a collaborative initiative between the Rotaract Club of the University of Moratuwa and the Rotaract Club of the Faculty of Medicine, University of Colombo, with the aim of supporting maternal and child healthcare in Sri Lanka. Initially launched in 2023, the app provided vital information on child development, including milestone tracking, informative quizzes, and static content designed for caregivers. Delivered primarily in Sinhala, it served as a foundational resource to guide early childhood care. The first version also expanded to support maternal mental health, introducing stress management tools and emotional well-being content to support mothers more holistically.

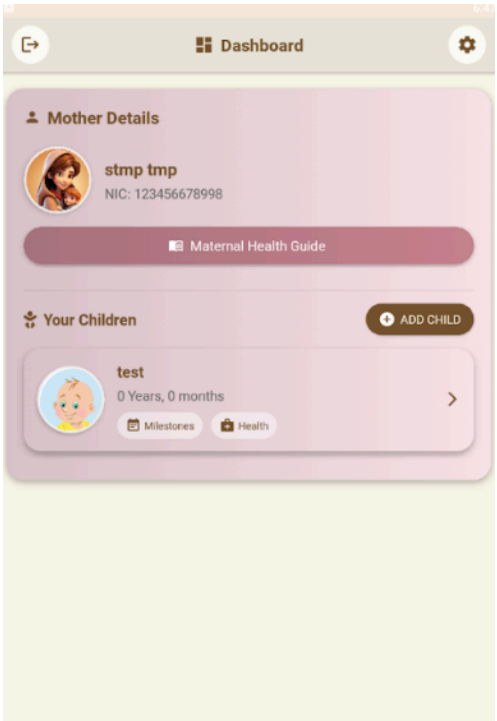

The 2024–25 phase marked a significant enhancement in both technical functionality and healthcare content. The project began with a comprehensive review of the original application, engaging stakeholders and former developers to identify core areas for improvement. Prioritized upgrades included multilingual support (Sinhala, Tamil, and English), a redesigned user interface for better usability, security enhancements, bug fixes, and the implementation of dynamic content management capabilities. One of the most impactful additions was the development of an admin panel, allowing non-technical users to manage content in real time. The panel enabled administrators to add multilingual information, create new screens using predefined components like text, images, modals, accordions, and embedded videos, as well as conduct surveys and analyze responses to improve user engagement.

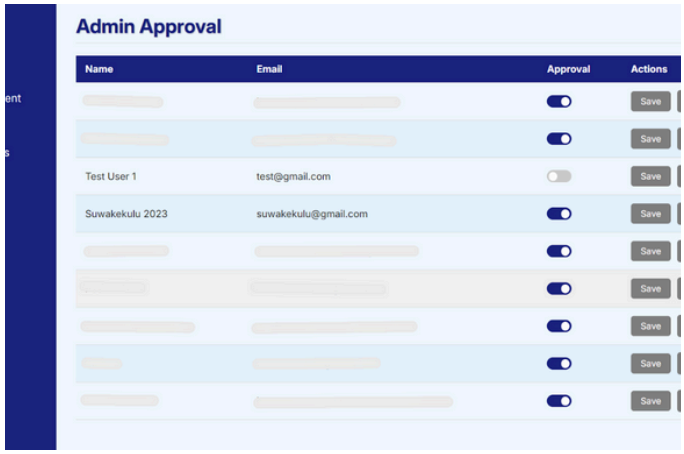

On the front end, the app underwent a complete transformation to improve the user experience.

New features included Google OAuth login for easier access, daily health tips, enhanced maternal care modules, engaging animations, interactive quizzes, and a “Write to Us” feature for user feedback. These additions made the app more interactive, user-friendly, and aligned with modern digital standards.

A dedicated section for maternal health was introduced, covering topics such as pregnancy care, labor preparation, postpartum wellness, and newborn care. This segment was designed to mirror the guidance provided in antenatal clinics, giving mothers the ability to revisit essential health information at their convenience, thereby improving health literacy and maternal confidence.

Built with scalable and cost-effective technologies, Suwa Kekulu is now positioned for long-term impact and sustainability. The initiative stands as a powerful example of how multidisciplinary collaboration—blending technical innovation with medical expertise—can be harnessed to address public health challenges. By making vital health information accessible, inclusive, and localized, Suwa Kekulu contributes meaningfully to community well-being and sets a benchmark for future digital health solutions in Sri Lanka.

DEV{THON} 2.0

Date : 24th November 2024 - 19th April 2025
Chairpersons : Rtr. Dashintha Kavishan, Rtr.Ronaka Sampath, Rtr. Pasan Yashobha,
Venue : Trace Expert City, Online
Secondary Avenue : N/A

Dev{thon} 2.0 was a national-level web development competition designed to empower undergraduates across Sri Lanka by bridging the gap between academic learning and real-world application. Organized collaboratively by the Rotaract Club of University of Moratuwa, the Leo Club of the University of Moratuwa, and the Leo Club of SLTC, this large-scale initiative followed the successful launch of Dev{thon} 1.0 and expanded significantly in scope, participation, and impact.

The competition, which ran over several months, was structured into key phases: proposal submissions, two targeted skill-development workshops, a UI Design Round, a Web Implementation Round, and the Grand Finale. With over 800 students forming more than 200 teams, the event garnered an enthusiastic response from undergraduates representing both public and private universities.

Dev{thon} 2.0 commenced with registrations from February 12–14, 2024, during which participants submitted their initial ideas. A detailed proposal submission followed, and 74 teams were shortlisted by the educational partner JISC eduCLaaS after a thorough evaluation. To enhance the participants' capabilities, two workshops were conducted: one on UI/UX design led by Ms. Has Nilofar from Lithan, and another on full-stack web development by Mr. Keerthi Kodithuwakku, Chairman of Jendo Innovations.

The UI Design Round, held on March 16, allowed teams to submit their interface designs based on their proposals, and 39 teams advanced to the development phase. The Web Implementation Round on April 7 marked the transformation of ideas into fully functional web applications, judged on technical quality, responsiveness, and creativity. From this round, 12 outstanding teams were selected for the Grand Finale.

Held on April 19 at TRACE Expert City, the Grand Finale showcased these final web applications in front of a distinguished panel of industry professionals. Each team presented their development process, demonstrated their product live, and discussed technical insights. The judging panel included experts such as Ms. Bhagya Battage (Head of Academy Affairs, JISC eduCLaaS), Mr. Tharindu Perera (Software QA Engineer), Mr. Rukshan J. Senanayaka (Software Engineer and Marketing Strategist), Mr. Kasun Gamage, and Mr. Eranda Bandara.

The event concluded with the crowning of Code Mavericks as champions, followed by Team Scope and Team Xforce as first and second runners-up, respectively. Beyond recognition, Dev{thon} 2.0 also facilitated access to long-term educational opportunities through scholarships worth Rs. 32.4 million, continuing the legacy of Dev{thon} 1.0.

More than just a competition, Dev{thon} 2.0 served as a platform for innovation, collaboration, and growth. It empowered students to build industry-relevant skills, gain exposure to professional development standards, and contribute meaningfully to the digital future of Sri Lanka.

ROTARY FOCUS AREAS AND SDGS COVERED

Project Name	SDG	Rotary Focus Areas
Weekly Tech Byte	• 4.6 Universal literacy and numeracy. • 4.1 Free primary and secondary education. • 9.7 Support domestic technology development and industrial diversification.	• Economic and Community Development • Basic Education and Literacy

Weekly Tech Byte directly contributed to SDG 4.6 (universal literacy and numeracy) and SDG 4.1 (free primary and secondary education) by offering free, accessible educational content that simplified complex technological topics, promoting digital literacy and lifelong learning across diverse audiences. By consistently delivering well-researched posts on emerging technologies such as AI, quantum computing, and neuromorphic systems, the initiative also supported SDG 9.7 (domestic technology development and industrial diversification) by encouraging curiosity and innovation among readers. Aligned with Rotary's focus areas of Basic Education and Literacy, and Economic and Community Development, the project not only enhanced public understanding of advanced technologies but also fostered skill development in writing, design, and content management within the team—making it a powerful platform for both education and personal growth.

Project Name	SDG	Rotary Focus Areas
Mora TechConnect	• 4.4 Increase the number of people with relevant skills for financial success. • 8.2 Diversify, innovate and upgrade for economic productivity. • 9.7 Support domestic technology development and industril diversification.	• Economic and Community Development • Basic Education and Literacy

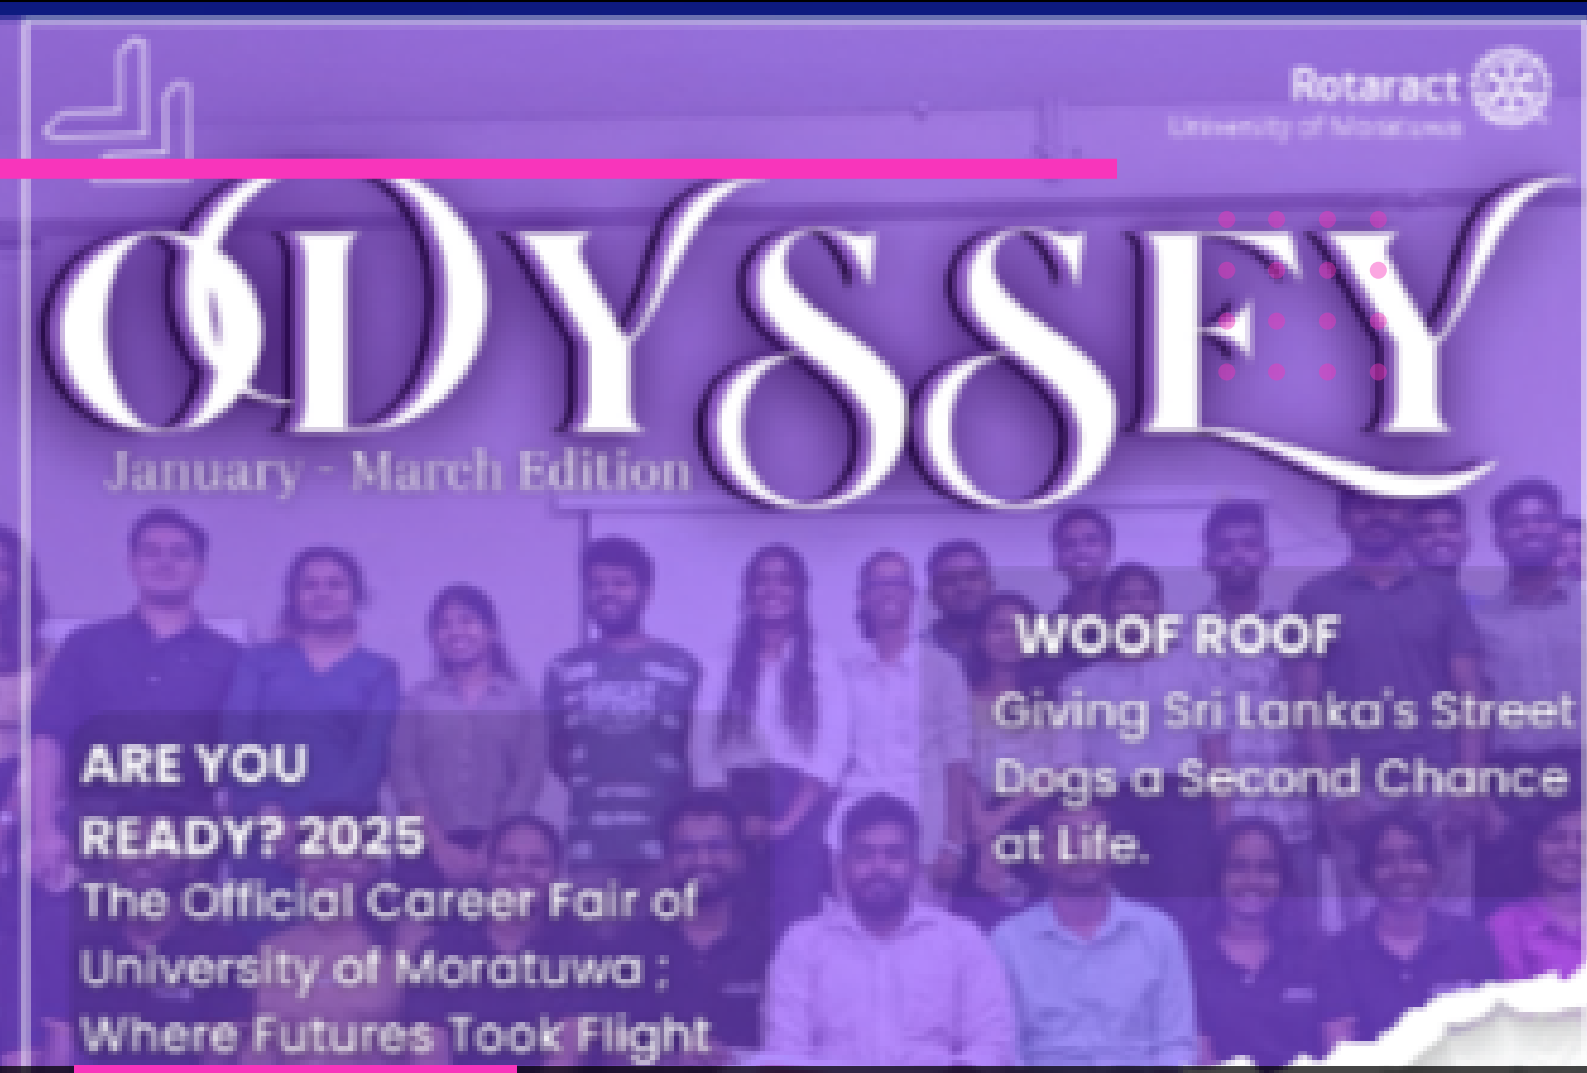

Mora TechConnect, a flagship initiative by the Digital Communication Avenue of the Rotaract Club of the University of Moratuwa, significantly aligned with SDG 4.4 by equipping over 200 participants with in-demand technical skills across areas such as IoT, web development, backend systems, embedded systems, and robotics, empowering them for financial success in the modern workforce. The program also advanced SDG 8.2 and 9.7 by fostering innovation, promoting hands-on learning, and supporting domestic technology development through expert-led sessions and real-world applications. By bridging academic learning with industry relevance, the initiative contributed meaningfully to Rotary's focus areas of Basic Education and Literacy and Economic and Community Development, inspiring a culture of technological excellence and skill-based empowerment within the university and beyond.

Project Name	SDG	Rotary Focus Areas
SuwaKekulu	• 3.1 Reduce maternity mortality. • 3.2 End all preventable deaths under 5 years of age. • 3.4 Reduce mortality from non-communicable diseases and promote mental health. • 4.4 Increase the number of people with relevant skills for financial success. • 4.5 Eliminate all discrimination in education. • 4.7 Education for sustainable development and global citizenship. • 5.8 Promote empowerment of women through technology. • 9.1 Develop sustainable, resilient and inclusive infrastructures. • 9.5 Enhance research and upgrade industrial technologies. • 9.7 Support domestic technology development and industrial diversification. • 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy • Maternal and Child Health • Disease Prevention and Treatment

Suwa Kekulu is a pioneering mobile application developed aimed at improving maternal and child healthcare in Sri Lanka. Initially launched in 2023, the app focused on child development milestones, mental health support for mothers, and educational content delivered in Sinhala. In 2024–25, the project saw a transformative upgrade, incorporating multilingual support (Sinhala, Tamil, and English), a redesigned user interface, dynamic content management, and an admin panel enabling real-time content updates without technical expertise. New features such as Google OAuth login, daily health tips, interactive quizzes, engaging animations, and a dedicated maternal health section enhanced both user experience and health literacy. Built on scalable technologies, Suwa Kekulu now provides inclusive, accessible healthcare information covering pregnancy, postpartum care, and newborn wellness, effectively bridging digital innovation and public health. The initiative contributes to the following Sustainable Development Goals: 3.1, 3.2, 3.4, 4.4, 4.5, 4.7, 5.8, 9.1, 9.5, 9.7, and 17.17, and aligns with Rotary's focus areas of Maternal and Child Health, Disease Prevention and Treatment, Basic Education and Literacy, and Economic and Community Development.

Project Name	SDG	Rotary Focus Areas
Devthon 2.0	4.3 Equal access to affordable technical, vocational, and higher education. 4.4 Increase the number of people with relevant skills for financial success. 5.1 End discrimination against women and girls. 8.2 Diversify, innovate and upgrade for economic productivity. 9.1 Develop sustainable, resilient and inclusive infrastructures. 9.7 Support domestic technology development and industrial diversification. 17.16 Enhance the global partnership for sustainable development. 17.17 Encourage effective partnerships.	• Economic and Community Development • Basic Education and Literacy •

Dev{thon} 2.0 achieved its goals by providing a comprehensive, structured platform that effectively bridged academic learning with practical, industry-relevant web development skills. Through its multi-phase competition, the initiative engaged over 800 students from diverse universities across Sri Lanka, ensuring equal access to affordable technical and higher education (SDG 4.3). The skill-development workshops on UI/UX design and full-stack web development, led by industry experts, directly contributed to increasing the number of participants equipped with relevant skills for financial success (SDG 4.4). By fostering an inclusive environment that encouraged participation from all genders, the competition supported efforts to end discrimination against women and girls (SDG 5.1). The focus on innovative web application development and practical implementation rounds promoted diversification, innovation, and upgrading of economic productivity (SDG 8.2), while also advancing the development of sustainable, resilient, and inclusive digital infrastructures (SDG 9.1). Furthermore, by highlighting local talent and encouraging domestic technology development, Dev{thon} supported industrial diversification within Sri Lanka (SDG 9.7). The collaboration between multiple Rotaract and Leo clubs, educational partners like JISC eduCLaaS, and industry professionals fostered strong national and global partnerships (SDGs 17.16 and 17.17), ensuring sustained impact and continued opportunities for participants. Overall, Dev{thon} 2.0 not only empowered students with hands-on experience but also cultivated a culture of innovation, collaboration, and lifelong learning aligned with Rotary's focus on Economic and Community Development and Basic Education and Literacy.

TEAM MESSAGE

Editorial

As we reflect on the year gone by, Editorial Avenue takes immense pride in the incredible journey we've embarked upon throughout the Rotaract year 2024/25. It has been a period marked by growth, creativity, and unwavering commitment to amplifying the voices within our club.

One of our proudest achievements was the consistent release of The Odyssey, our quarterly newsletter. Each edition served as more than just a publication—it became a canvas for storytelling, club highlights, and member expressions. Through this initiative, we were able to connect with a wide spectrum of our membership, nurturing a culture of creativity, collaboration, and thoughtful reflection.

In addition to The Odyssey, we are thrilled to have published over 40 blogs this year—a milestone that reflects the vibrant thoughts, unique insights, and personal journeys of our general membership. These blogs have not only enriched our digital presence but also offered members a space to express themselves and be heard.

A standout feature of The Odyssey this year was undoubtedly the Mirror Wall section. This creative corner captured hearts with its collection of compelling poems, stunning artwork, and reflective pieces. The warm reception it received reaffirmed the importance of celebrating diverse forms of expression within our club.

We would also like to express our heartfelt gratitude to our Public Relations Directors, Rtr. Chehan and Rtr. Lahiru, whose steadfast support helped extend the reach of our work. Their guidance and encouragement ensured our content found its way to a broader audience, leaving a meaningful impact.

This term, we were also able to guide every project in a consistent, standardized manner, ensuring that everything representing the club met a professional and unified standard. Through the collective effort of the Editorial and PR team, every caption, letter, proposal, and piece of outgoing material was carefully reviewed and refined.

More than just editing, we were also able to share knowledge across the membership, instilling the importance of official writing and helping members grow confident in crafting professional content. This not only elevated the club's image but also empowered the team with valuable skills they'll carry forward.

Looking back, it has truly been a remarkable and fulfilling year for Editorial Avenue. We are proud to have played a part in shaping the club's narrative, capturing its spirit, and fostering a strong sense of community through the written word.

Here's to a year of stories shared, creativity unleashed, and voices heard.

With gratitude and pride,
Editorial Team 2024–25

Rtr.Chyaga Handunpathirana
Vice President – Club Administration

TEAM MESSAGE

Public Relations

As we wrap up an unforgettable Rotaract year, the Public Relations Avenue looks back with pride on all the amazing things we've accomplished together in 2024-25. It's been a year full of creativity, teamwork, and making sure our club's voice was seen and heard far and wide.

From managing our social media platforms to keeping everyone updated with eye-catching posts and stories, our goal was always to share the heart of Rotaract with the world. Whether it was a project highlight, a celebration, or a moment worth remembering, we made sure it reached the right audience, in the right way.

Special days called for special efforts, and we loved putting together unique flyers and campaigns to mark important occasions. Every design and caption were more than just content; it was a way to show what our club stands for and believes in.

Throughout the year, we also worked behind the scenes to check and fine-tune all PR materials going out from the club. Posters, proposals, captions, you name it, we made sure it looked polished and professional. Our aim was always to keep everything aligned, consistent, and true to the club's image.

We're especially thankful for the amazing bond we shared with the Editorial team. Working together helped us raise the bar and make sure every piece of communication, written or visual stood out.

More than just creating content, we were also happy to help others learn the ropes. From writing better captions to understanding what makes great PR, we loved being able to support our fellow members and help everyone grow together.

Looking back, we're beyond proud of how far we've come. This year wasn't just about promotion, it was about connection, creativity, and showing the world what makes our club special.

Here's to a year of stories told, designs that popped, and a team that gave it their all!

With lots of pride,
Public Relations Team 2024–25

ODYSSEY

Quarter	Published Date	Chairpersons
Quarter 1	14th October 2024	Rtr.Manujaya Pathirana , Rtr.Nethu Lamahewa
Quarter 2	22nd January 2025	Rtr. Chathuni Liyanage, Rtr. Adithya Dilum
Quarter 3	14th April 2025	Rtr. Tharindu Dakshina , Rtr. Prashani Bhagya
Quarter 4	01st June 2025	Rtr. Tharindu Dakshina , Rtr. Prashani Bhagya

Odyssey 2024–25 has flourished as an indispensable platform for storytelling, transparency, and celebration within Rotaract Mora, solidifying its role as the club's signature publication. This quarterly e-newsletter has become a trusted source where members, stakeholders, and the wider community can engage deeply with the club's ongoing initiatives. Each issue artfully balances informative content and inspiring narratives, showcasing the profound impact of the club's collective efforts while offering a pulse on upcoming projects, events, and opportunities for engagement.

Throughout the year, Odyssey deepened its commitment to reflecting the club's core values by meticulously documenting achievements across its diverse service avenues—Community Service, Environmental Initiatives, Professional Development, Club Operations, International Outreach, Membership Growth, Sports and Special Events, District Collaborations, and Fellowship. This holistic coverage provides a panoramic view of the club's vibrant ecosystem, highlighting how every member's contribution fuels broader social transformation. The newsletter's rich visuals and well-curated stories vividly communicate the passion and dedication behind each success, reinforcing the club's message of unity in service.

A standout feature of Odyssey 2024–25 continued to be the “Mirror Wall,” a creative sanctuary within the publication that celebrates the unique artistic expressions of Rotaract Mora’s members. Through evocative poems, thought-provoking short stories, striking photography, and creative essays, this section transcends the boundaries of conventional reporting to invite readers into a more intimate dialogue with the club’s spirit. This artistic dimension not only nurtures member engagement and morale but also enriches the cultural fabric of the publication, making each edition a multidimensional experience.

Odyssey’s digital-first distribution strategy has amplified its reach, enabling the newsletter to resonate with a growing global audience of Rotaractors, alumni, partners, and supporters. The seamless access across multiple devices ensures that the club’s impact stories, educational content, and calls to action remain accessible and relevant, encouraging wider participation and fostering meaningful partnerships. The feedback mechanisms embedded in the newsletter have also enhanced two-way communication, allowing readers to contribute ideas, share reflections, and strengthen the club’s collaborative spirit.

The 2024–25 editorial team’s unwavering dedication to quality, innovation, and inclusivity has ensured that Odyssey evolves with the times, embracing modern design aesthetics, interactive elements, and diverse voices. Each quarter’s edition arrives as an eagerly anticipated milestone, celebrated not only for its content but for the sense of community and shared purpose it cultivates. In capturing both the triumphs and challenges faced by Rotaract Mora, Odyssey 2024–25 stands as a beacon of inspiration that motivates continued excellence and drives the club’s vision of creating sustainable, positive change locally and globally.

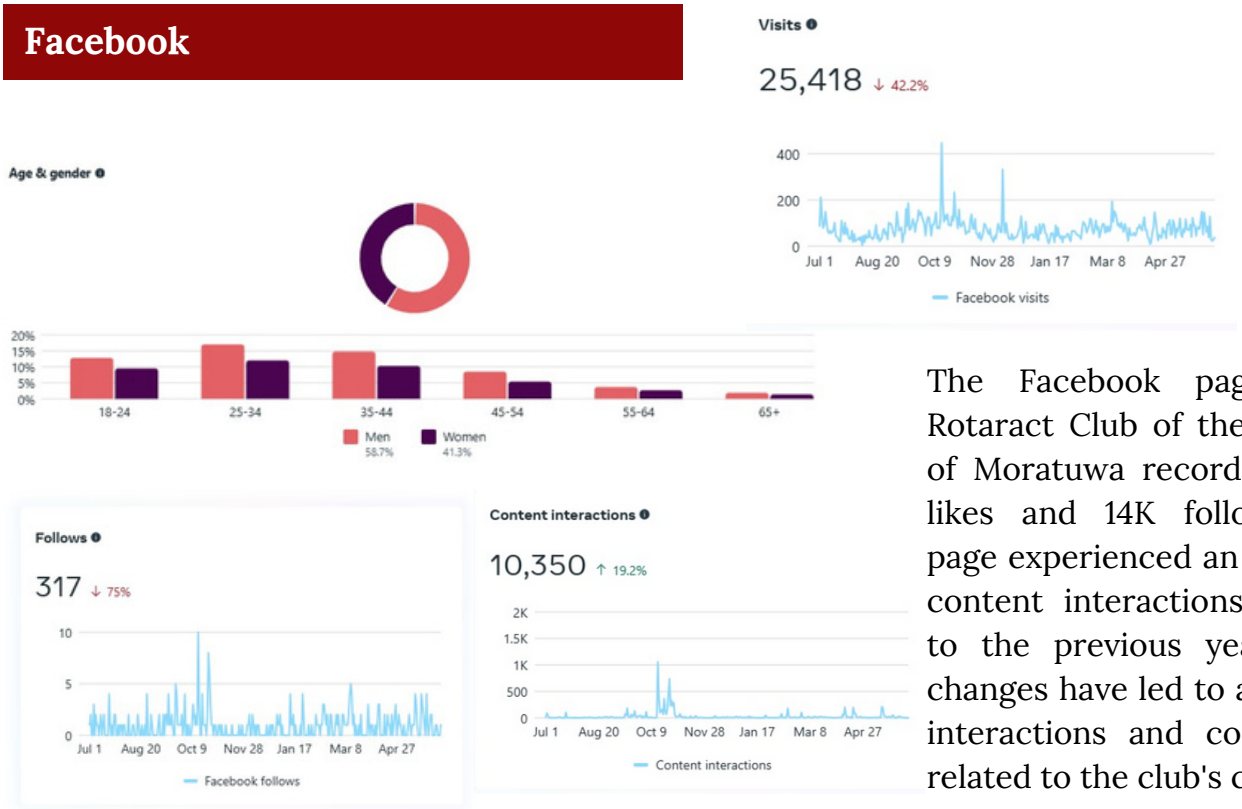

PR EFFORTS

PUBLIC RELATIONS EFFORTS

The club's public relations activities have resulted in an increase in social media visibility compared to previous years. The club functions as a platform for members to present their creative work. Engagement reached over 400,000 individuals, supported by consistent promotional efforts. Throughout the year, approximately 400 flyers, 100+ videos, and 45+ blog posts were produced. These outputs were completed by the creative team, which contributed to maintaining the club's public image.

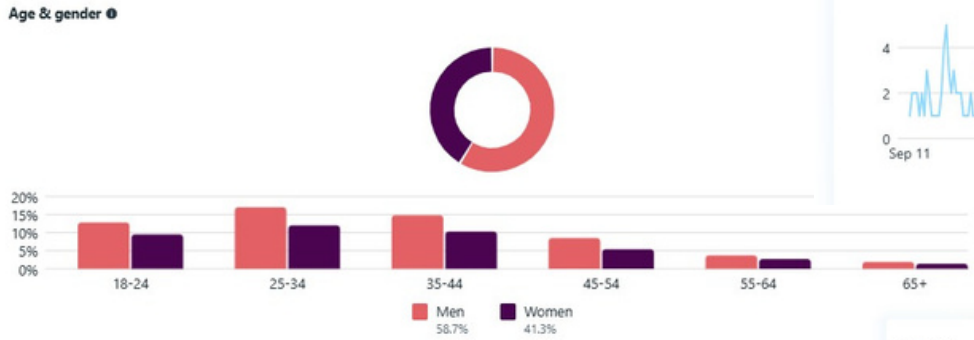

By using platforms like Facebook, Instagram, and LinkedIn, Rotaract Mora maintained a steady brand presence for the Rotaract Club of University of Moratuwa. These platforms enabled broader outreach, moderate improvements in visibility, and helped bring in some new members and followers. Content posted on YouTube and Instagram documented the club's activities, potentially encouraging involvement. WhatsApp was used to maintain communication among members and collaborators, aiding internal coordination. Overall, these efforts contributed to the club's presence being acknowledged within the university and by some external audiences.

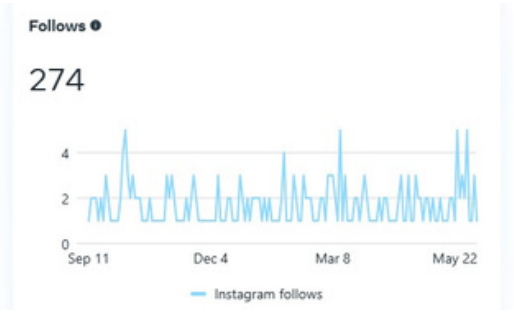

Facebook

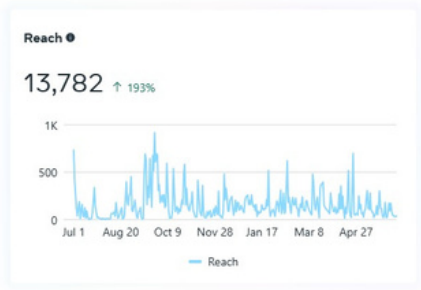

The Facebook page of the Rotaract Club of the University of Moratuwa recorded has 13K likes and 14K followers. The page experienced an increase in content interactions compared to the previous year. These changes have led to an uptick in interactions and conversations related to the club's content.

Instagram

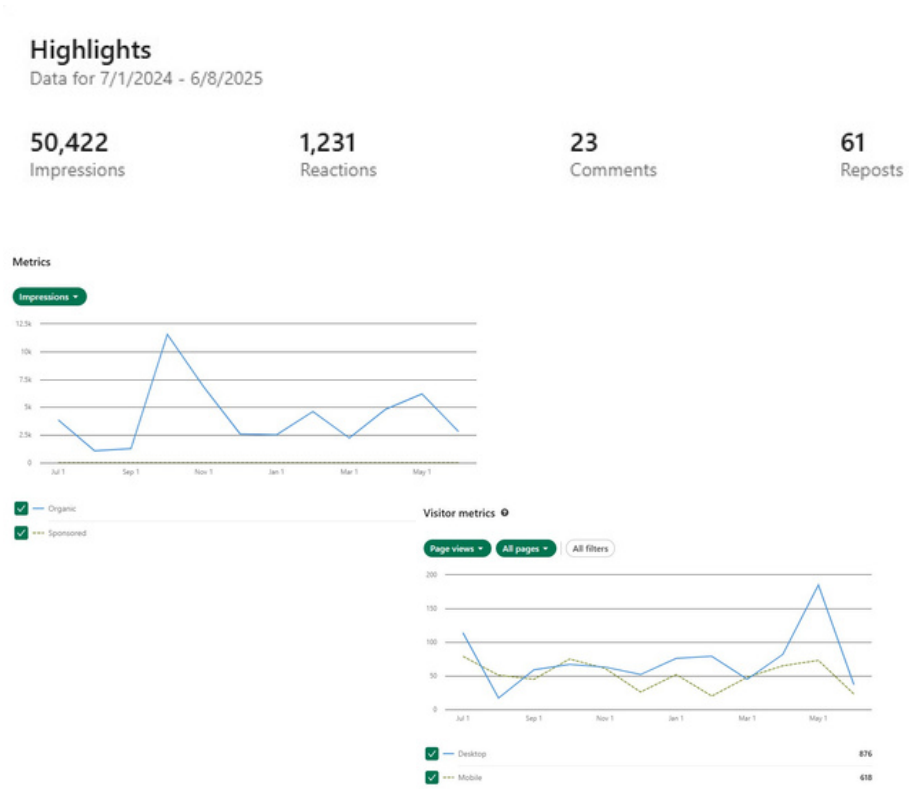

The Instagram page of the Rotaract Club of the University of Moratuwa recorded a reach of 13k, reflecting a 175% increase from the previous year. The page also had 3k profile visits and gained 274 new followers. These figures correspond with increased engagement and discussions related to the club's activities.

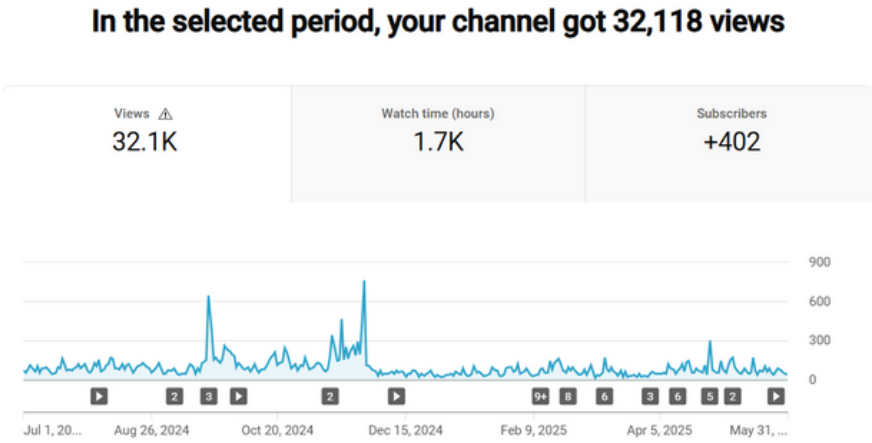

LinkedIn

The LinkedIn presence of the Rotaract Club of the University of Moratuwa reached an international audience, resulting in 50k impressions and 1231 reactions over the year which is 50% increase compared to previous year. The page has facilitated connections with individuals from different professional sectors, contributing to networking and potential collaborations.

Youtube

The YouTube channel of the Rotaract Club of the University of Moratuwa recorded 32.1k views, along with 402 new subscribers and 1.7K watch hours. These figures reflect ongoing viewership and engagement with the channel's content. The platform continues to serve as a medium for sharing information related to the club's activities.

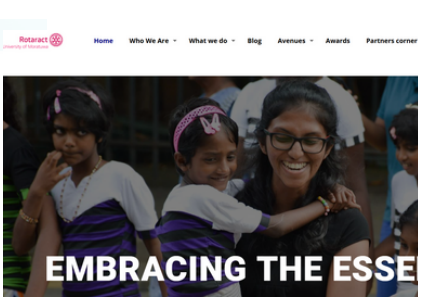

WhatsApp

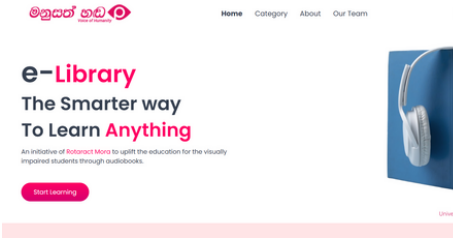

The Rotaract Club of the University of Moratuwa has used WhatsApp to communicate with approximately 3,000 undergraduates across four academic batches. Through the use of group chats and broadcast messages, the club has shared updates, project information, and participation requests. This method has allowed for timely dissemination of information and maintained a consistent line of communication with the student body. The platform has supported the club's efforts to inform and involve undergraduates in its various activities.

Website

The website receives visits from a varied audience, including students, professionals, and community members, who access information related to the Rotaract Club of the University of Moratuwa's projects and initiatives. Apart from the club's main website there are few other websites for specific projects such as Are You Ready, Scholar, BoonDigiti, Manusath Handa, Data Storm , Project Transform etc.

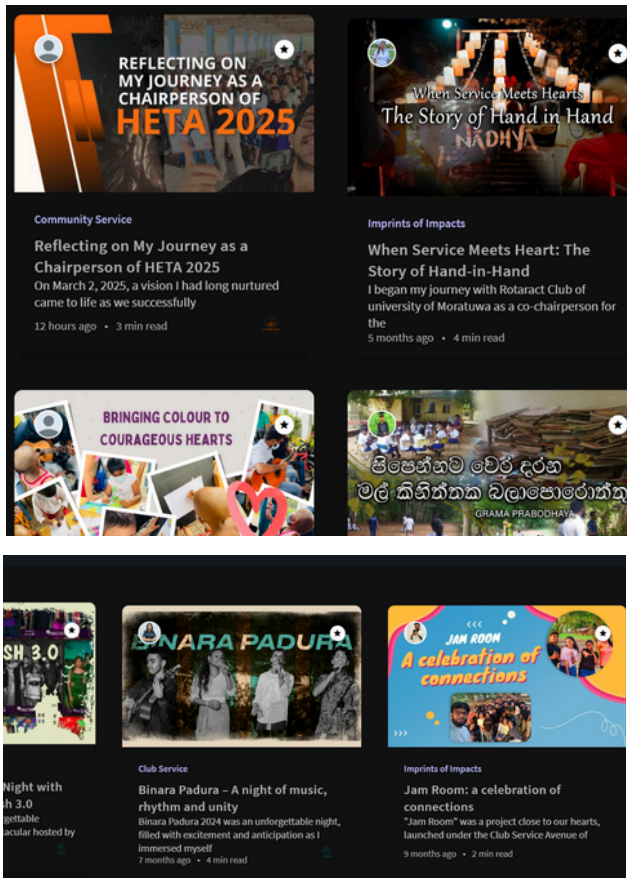

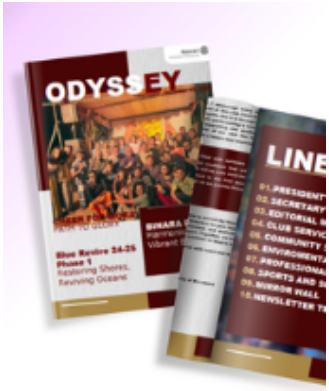

Rotaract Mora Blog

The Rotaract Mora blog is maintained by the club and features monthly themed posts under the “Blogged Bliss” series. It provides a space for general members to contribute written content. The “Imprints of Impacts” series features posts from the Board of Directors, offering their viewpoints on the club’s initiatives. Contributions are accepted from both experienced and new writers, in English, Sinhala, or Tamil. The blog also functions as a platform for highlighting topics related to the club's projects. Throughout the year, multiple blog posts have been published, covering a variety of initiatives and authored by both board and general members involved in those efforts.

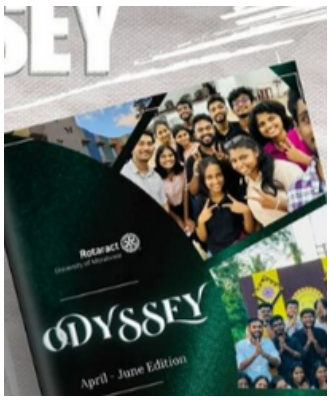

Club News Letter - Odyssey

The quarterly newsletter of Rotaract Mora, titled Odyssey, is published digitally and includes updates on the club's activities. In addition to project summaries across various avenues, the newsletter features artistic submissions from members, such as artwork and poetry, under the "Mirror Wall" segment. It includes stories related to the club’s initiatives and contributions. This year, a new addition, a dedicated corner for partners of Rotaract Mora was introduced within Odyssey to give out a public reach to the partners who join hands with us.

Offline PR

This year, we embraced creative strategies to engage the undergraduate students at the University of Moratuwa. A standout example was the PR campaign for Monster Mash 3.0, where a member of the club took on the role of Isabella the Ghost and roamed the campus, catching attention and sparking curiosity during lunch hours. This eerie yet playful presence effectively drew students toward the event.

Similarly, the Binara Padura musical event generated buzz through a beautifully crafted countdown installation placed near the university entrance, capturing the attention of passersby and building anticipation.

Additionally, Project Zooxanthellae received significant recognition when it was featured in a popular Sinhala newspaper's Sunday edition, amplifying its reach beyond the university community.

Throughout the year, we also utilized eye-catching posters and banners across campus to raise awareness and boost engagement for our various initiatives—strengthening the connection between the student body and our events.

PARTNERS CORNER

TEAM MESSAGE

Partnership

At the Rotaract Club of University of Moratuwa, we believe that meaningful collaborations are at the heart of impactful change. This year, our projects were strengthened by the support of numerous visionary organizations that shared our passion for innovation, sustainability, and community development. Their contributions and belief in our mission have played a crucial role in turning our ideas into reality.

Binara Padura, was successfully carried out with the gracious partnership of Salt by Burger Brothers, whose support brought life to this vibrant event. MentHer, a platform empowering women through leadership and skill development, was proudly partnered by industry leaders MAS and Ceylon Tobacco Company (CTC), whose backing ensured the success and impact of this transformative initiative. For Installation, we received the generous support of Star Garments, whose partnership enabled us to take this initiative forward successfully.

Our environmental initiative Blue Revive 1, which focused on coastal conservation, was strengthened through a valuable partnership with Parley, a global movement dedicated to protecting oceans.

Cheer for Mora, our spirited collaboration with MoraSpirit, was elevated by the confirmation of Red Bull as a partner, fueling our passion and energizing the carnival.
In the technology and innovation space, Mora Tech Connect brought together students and professionals alike, with the support of IES Labs and Hypercube, two partners who played a vital role in making the event a hub for meaningful connections
.
Are You Ready? 2025, our flagship career development initiative, stood tall with a powerful lineup of partners-Gold Partner: MAS Holdings, Technology Partner: Hayleys, Session Partner: John Keells Holdings, Digital Media Partner: Mora Lenz, PR Partner: Good PR.

These partnerships brought industry excellence and credibility to the event, paving the way for unparalleled opportunities for our participants.

The flagship initiative Zooxanthellae was able to partner up with ATG Ceylon PVT Ltd as the title partner, and Marine Environmental Protection Authority as the technical partner.

Our culturally immersive project Kowul Wasanthaya was made possible with the support of La Perfumeries, whose contribution helped us deliver an event that celebrated the new year festival.

These partnerships have not only enabled us to execute high-quality projects but have also helped us build bridges between the club and the corporate world. We are immensely grateful to all our partners for their unwavering support and belief in our mission. Together, we have created a year filled with innovation, growth, and meaningful change.

As we look to the future, we remain committed to fostering even more impactful collaborations, believing that great things happen when passionate people come together for a common cause.

Warm Regards,
Partnership Team 2024–25

PARTNERS CORNER

This year, the club forged a powerful alliance with 30 external partners, significantly amplifying its impact. These collaborations with businesses demonstrate a united front for social responsibility and a sustainable future, highlighting the effectiveness of cross-sector partnerships. By leveraging the expertise and resources of these esteemed organizations, the club has expanded its reach and ability to deliver impactful projects. This impressive network stands as a beacon of the club's ability to unite diverse stakeholders in a collective pursuit of positive change.

REPORT THEME

The annual report of the Rotaract Club of University of Moratuwa for the RI Year 2024-25 serves as a comprehensive chronicle of the club's service, growth, and accomplishments. It not only records key initiatives and milestones, but also captures the dedication, creativity, and passion of the members who brought each effort to life. Through detailed documentation of the club's operations, projects, and partnerships, the report reflects a year of meaningful engagement and impactful outcomes.

The theme of this year's report, **"Reflections of Service, Echoes of Tomorrow"** draws inspiration from the club's theme for the year, **"Serving Today, Inspiring Tomorrow."** While the year's theme focused on taking meaningful action in the present to inspire future change, the report theme reflects on how the club looked back at its roots, values, and experiences to shape a forward looking path. Together, these ideas represent a continuous cycle of learning, growth, and impact, rooted in legacy and driven by vision.

In alignment with this theme, the report incorporates a Red colour palette, consistently applied throughout its design. Red, symbolizing strength, energy, and passion, reflects the vibrant and proactive nature of the club's efforts over the year. The bold use of red also reinforces the club's dynamic identity, drawing attention to key highlights and visually unifying the report's overall presentation.

This year's annual report aims to go beyond documentation. It tells the story of a club that continues to evolve, lead, and serve with heart. It is both a celebration of achievements and a source of inspiration for future members, partners, and communities that the club will continue to serve in the years ahead.
